Get Skilled for Local and Global Career Opportunities

About NIIT

NIIT, a leading education provider, is a skills and talent development corporation that is building a manpower pool for global industry requirements. It ranks amongst the world's leading training companies owing to its vast and comprehensive array of futuristic programs.

For over 40 years, we have taken pride in creating career opportunities for students from different walks of life. We have trained millions of students in more than 30 countries. Our expertise in content development, training delivery, and education process management make us the most preferred training partner.

A world-leading, technology-driven, skill development organisation that is the first choice of smart students and professionals.

At NIIT, we believe that our actions speak louder than words.

Present across 30 countries

35 Million + Learners Worldwide

India's Most Trusted Educational Brand

About StackRoute

Established in August 2015, StackRoute®, an NIIT initiative, is a suite of continuing education programs that target high-demand jobs in technology. Our mission is to enable students with high-quality, practitioner-led, immersive learning that prepares them to be job-ready from day one. As a deep-skilling, talent transformation partner on digital, StackRoute works with large global IT organisations, Global Incubation Centers & Product companies.

StackRoute was awarded the Brandon Hall Group HCM Excellence Award 2020, jointly with a leading independent IT and business consulting services firm. The Gold medal has been awarded under the 'Best Use of Blended Learning' category for the Graduate Transformation Program. Additionally, it has won the Brandon Hall Silver Award for 'Best Results of a Learning Program' jointly with the world's leading engineering company in aerospace.

About The Program

Become an industry-ready, StackRoute Certified Cybersecurity professional with this 12-week **Placement Assured Program*** that transforms learners with no Information Technology background into cybersecurity specialists. Get skilled for multiple job roles and start your career with a minimum CTC of ₹4.00LPA*.

Key Specializations

Install and configure the Linux OS. Configure network services such as DHCP, DNS, FTP, and File and Print sharing over a network. Automate tasks using scripting & programming (Python). Perform penetration testing. Perform and detect reconnaissance activities and many more. The program is also designed to prepare students for industry-leading certificates including Red-Hat system administration(EX-200), CompTIA N+, and Certified Ethical hacker(Ec-council).

Job Opportunities

- Cybersecurity Specialist

*Subject to meeting relevant criteria post successful completion of the program.
Past track record is not indicative of future job prospects.

Program Curriculum

Level 1 (Week 1 – 8)

- Install and configure the Linux OS and associated applications, packages, and services
- Configure network services such as DHCP, DNS, FTP, and File and Print sharing over a network
- Automate tasks using scripting & programming (Python)
- Design & implement networks with switching & routing devices
- Create Virtual Machines, Virtual Private Networks (VPNs), and use Virtual storage and Cloud services
- Deploy applications on public and private cloud platforms

Level 2 (Week 9 – 12)

- Install, configure, and monitor network security devices
- Ensure IT infrastructure assets are securely provisioned
- Manage advanced server configurations and virtual IT infrastructure
- Ensure proper configuration and security of fixed and mobile end-point devices
- Scan, monitor and perform penetration testing to identify threats and vulnerabilities
- Troubleshoot and document security incidents
- Work in an Agile team environment
- Comply with standard operating procedures and practices to track, report, manage, and analyse incidents

Programming Languages And Tools Covered

python™ Linux redhat. CERTIFIED SYSTEM ADMINISTRATOR CompTIA Network+ CEH Certified Ethical Hacker

Program Highlights

1:1 Mentorship

Get unparalleled mentorship from our expert faculty with highly hands-on personalized feedback to learners

Be Day-1 Job-Ready

Build role-specific competencies and grow your self-confidence with this outcome-driven program

Mastery Learning

Achieve mastery with our individualized and group-based learning pedagogy

Practitioner Designed

Solve non-trivial challenges that are practitioner designed with real-life situations

Master Skills & Tools

Learn to identify, protect, detect, respond & recover from threats. Spend over 60% of the time on coding or hands-on activities

Build All Round Competency

Acquire core technical competencies, engineering, and professional skills for complete industry-readiness

Grow Your Network

Tap into the acclaimed NIIT-StackRoute alumni network

Leverage End-To-End Career Support

Complete Grooming Process

360-degree grooming process to get you started with confidence. This initiative ensures 6 types of input and quality checks before you start attending interviews.

Profile Matching

We assist you in matching your profile with appropriate job openings for early selections.

Individual Grooming

Get personalized tips on grooming, polishing your interview skills, resume building, and other areas of improvement.

Company-Specific Preparation

Get company-specific input and guidance and access to a repository of interview questions for complete preparation.

Interview Feedback

Obtain feedback on interview performance so that you can improve and be ready for the next interview.

Salary Negotiation

Once you receive an offer, we help you negotiate with clients for the best salary as per industry standards.
