### VALUES, MOTIVES AND BELIEFS

We, NIIT, believe that our growth is the derivative of the growth of each one of us. It is the duty of each one of us to espouse and give active effect to the values, motives and beliefs we state here

### **NIIT IS PEOPLE**

- We have positive regard for each one of us.
- We will foster career-building by creating opportunities that demand learning, thinking and innovation from each one of us.
- We expect each of us to contribute to the process of organisation building and thus derive pride, loyalty and emotional ownership.
- We recognise the necessity of making mistakes and risk-taking when it contributes to the learning, innovation and growth of each one of us.

### NIIT IS QUALITY AND VALUE

- Each of us will ensure that in any association with the society, society benefits substantially more than a) What society gives to us.
  - b) What society would gain from any other similar association
- We will meet any and every commitment made to society irrespective of any cost that may have to be incurred.
- We will ensure our profitability, long-term growth and financial stability, through the process of delivering the best, being seen as the best and being the best.
- We will be fair in all our dealings and promote high standards of business ethics.

### **NIIT IS A MISSION**

- We will grow in the recognition and respect we command, through pioneering and leading in the effective deployment of technology and know-how.
- We will seek to play a key role in the directions and deployment of technology and know-how for the benefit of mankind.

# CHAIRMAN'S MESSAGE

### Dear Shareholders,

After a sharp rebound in FY22, the global economy faced sever headwinds during FY23. The continuing war in Europe, high inflation and coordinated tightening by central banks across the world led to increasing economic uncertainty around the world. The International Monetary Fund (IMF) now forecasts 3 percent growth in both 2023 and 2024.

In comparison to many countries, India emerged as a bright spot and maintained growth momentum in FY23. GDP grew at a robust 7.2 percent in FY23 and the RBI expects the economy to grow at 6.5 percent in FY24.

While India's economy was resilient, it did face challenges in certain sectors. Having actively hired during the pandemic years due to rapid growth in digitalization, the IT-ITES industry, (and global tech majors in particular), reversed this trend with mass layoffs that were engineered to adjust talent inventory in the face of a near term uncertain demand outlook. Global monetary tightening also impacted funding prospects for startups across various sectors that tempered their growth plans and led to sharp cuts in hiring and layoffs. The prevailing uncertainty impacted the demand for training especially in the second half of the financial year.

Despite these headwinds your Company achieved growth in FY23 driven by strong momentum carried forward from the previous year.

However, the pivotal development since we met last is the completion of the strategic demerger of NIIT which was announced in January 2022 and completed in accordance with timelines in May 2023. The demerger has led to the establishment of two separate companies—NIIT Ltd. and NIIT Learning Systems Ltd. (NLSL). Both companies are focused on their distinctive businesses, offerings and geographies and armed with necessary growth capital to take advantage of the large opportunities opening up.

I am happy to share that post the demerger, all shareholders of NIIT Limited on the Record Date of June 8, 2023 were allotted equal number of shares of NIIT Learning Systems Limited. These shares are now separately listed on both the Bombay Stock Exchange and the National Stock Exchange with the trading symbol NIITMTS.

## **CHAIRMAN'S** MESSAGE

#### **Business performance**

As I discuss the business performance, please note that the accounts for FY23 and for FY22 have been recast as per the applicable accounting standards for the demerger and exclude the Corporate Learning Business undertaking that has been transferred to NIIT Learning Systems Limited from the Appointed Date of April 1, 2022.

For the financial year FY23, your Company reported a revenue of Rs. 341.3 crore—up 36 percent YoY. Organic growth was 13 percent YoY.

The business saw a revenue dip towards the end of the year due to a temporary hiring freeze by IT services firms on account of near-term uncertainty in demand for technology outsourcing.

Your company has transitioned from a traditional brick mortar business to a digital learning platform over the past three years, NIIT provides a wide range of programs that deliver digital talent transformation for early career and working professionals looking for career advancement in Technology and BFSI sectors.

NIIT continues to make a significant contribution to talent development in its areas of focus.

NIIT-trained early career professionals constituted about 19 percent share of the estimated net hiring by the IT-ITES Industry and about 8 percent of the net hiring by the Banking Industry in India in FY23. In addition, NIIT trained over 90,000 technology professionals through its B2B offerings for working professionals.

#### Awards and recognitions

NIIT Ltd. distinguished itself during the year, winning key industry acknowledgements and accolades.

Prestigious awards were conferred on NIIT Ltd. by reputed industry bodies in India. At Dataquest's Digital Leadership Conclave 2022, NIIT was recognized as a 'Transformational platform for professional learning in new-age technologies'. It received the "Institutions with excellent Training and Placements" award at the BW Education-Top Education Brand Awards 2022. The Associated Chambers of Commerce & Industry of India (ASSOCHAM) lauded NIIT Ltd. for offering the best e-learning platform and its contribution to the technology training sector.

## **CHAIRMAN'S** MESSAGE

### **Future Outlook**

Technology continues to disrupt old ways of working across multiple sectors. This is expected to drive demand for digital skills not only in Technology but across user industries including BFSI, Manufacturing, Supply Chain, ER&D etc creating strong demand for professionals with deep skills in new ways of working.

Despite the near term challenges, NIIT is looking ahead at a significant growth opportunity ahead. With its proven pedagogy and digital learning platform that creates predictable outcomes at scale, strong balance sheet, and clear focus post the demerger, the company is well poised to accelerate growth and be the talent builder for the nation. Clearly, NIIT has primed itself for its next stage of growth that will enable it to be a global leader in the skills and careers space. Your Company is now set to deliver a fresh and more powerful value proposition to customers. Our focus will be on helping people and businesses realize their true potential and ensuring that every citizen can participate purposefully in the emerging Digital India.

We invite you to be a part of this exhilarating journey. You are, as always, the wind beneath our wings.

# **NIIT AT A GLANCE** 2022-23

### Other Highlights:

NIIT-StackRoute conducted the first edition of Digital Architect Conclave 2023 which provided a unique opportunity for digital architects across organizations to meet, exchange knowledge and experiences, and interact with experts and thought leaders to gain insights and develop perspectives.

The 6th edition of **NIIT India Confluence**, a 3-days exclusive, by-invitation only summit held on February 1-3, 2023 in Goa, saw representation from around 45 companies and over 50 industry participants. Industry mavens, including CEOs, CHROs, and Business Leaders came together to deliberate on the conference's theme of **'Thrive: Accelerating growth in a 'broken' talent environment.'**  Over the last one year, leading Global Capability Centres (GCCs) have partnered with StackRoute, an NIIT initiative, for building high-quality workforce across technology, digital, data, and related roles.

NIIT introduced the "LEAP" Programme in November 2022, designed for future leaders within the organization. Participants were selected based on their roles and seniority. The program includes an objective assessment called "CALIPER" to measure personality traits and motivations. Additionally, there is an executive development program in collaboration with IIT Delhi's Department of Management Studies. Its goals include fostering a global perspective, awareness of contemporary issues, diverse skills, and an innovative and inclusive mindset among participants.

The above may also be treated as an abstract of the terms of appointment of Mr. P Rajendran as Joint Managing Director of the Company and a memorandum setting out terms and conditions of appointment and remuneration as required under Section 190 of the Act.

### ITEM NO. 7

The Company needs to have an optimum Board structure comprising Executive and Non-Executive (including Independent) Directors. Considering the fact that to have aualified Directors on the Board and their valuable business and professional advice and in view of nature of work and responsibilities entrusted upon Non-Executive Directors and also time devoted and the contribution made by them, it is proposed to pay the remuneration, for an amount as may be decided by the Board of Directors/ Committee of Directors, from time to time, in terms of the provisions of Section 197 read with Schedule V of the Act. Such remuneration shall be divided amongst Non-Executive Directors in such manner as the Board of Directors (or the authorised Committee of the Board) may from time to time determine and the same may be paid to Non-Executive Directors on a pro-rata basis every month or on an annual basis or partly monthly and partly on an annual basis as the Board of Directors/ Committee of Directors deem fit, subject to such necessary approval(s), consent(s) or permission(s), as may be required.

Pursuant to the provisions of Section 197 read with Schedule V of the Act, a company can pay remuneration to nonexecutive directors including independent directors, in the event of profits in the company as well as in the event of no profits or inadequacy of profits on the basis of limits provided in Schedule V, with the approval of members. Schedule V of the Act provides the monetary limits applicable to a company on the basis of effective capital and limits shall be pro-rated for a period being less than a year. A company may pay remuneration within the applicable limits/slabs with the approval of members by passing an ordinary resolution and in excess of the applicable limits with the approval of members by passing a special resolution.

Further, as per Regulation 17(6) of the SEBI (Listing Obligations and Disclosure Requirements) Regulations, 2015, all fees and compensation paid to non-executive directors (including independent directors) need to be approved by the members of the company.

The members of the Company at the Annual General Meeting held on August 5, 2021 had approved the payment of Commission to Non-Executive Directors up to an amount not exceeding 1% per annum of the net profits of the Company (computed in the manner referred to in Section 198 of the Companies Act, 2013) for a period of five financial years commencing from April 1, 2020. The members had authorized the Board of Directors to decide the appropriate quantum of commission for any financial year within the aforesaid 1% limit approved. This is on the basis of the company's standalone profitability.

Further, pursuant to the provisions of Section 197 read with Schedule V of the Companies Act, 2013, the members at the Annual General Meeting held on August 5, 2021 had approved to pay remuneration up to Rs. 24,00,000 to each non-executive director of the Company (including independent directors) in a financial year, as the Board may determine from time to time, in the event of inadequacy of profits or no profits in the Company during the period of three financial years commencing from April 1, 2020 till March 31, 2023 (being maximum tenure as per Schedule V of the Act).

The Board of Directors of the Company, on the basis of recommendation of Nomination & Remuneration Committee, at its meeting held on August 11, 2023, had considered and recommended to the members for approval, for payment of remuneration up to Rs. 24,00,000 to each non-executive director of the Company (including independent directors) in a financial year, as the Board may determine from time to time, in the event of inadequacy of profits or no profits in the Company for the remaining period of two financial years commencing from April 1, 2023 till March 31, 2025.

The actual amount of payment of remuneration to Non-Executive Directors for any financial year shall be determined by the Nomination & Remuneration Committee and Board within the aforesaid limits after consideration of the following criteria:

- the overall performance of the Company
- Directors' attendance, contribution at the Board and the Committee meetings, Chairmanship of Committees etc.
- proposed remuneration with reference to net profits of the Company, subject to overall ceilings under Section 197 and Schedule V of the Act.

The approval of members by special resolution shall be obtained every year, in which the annual remuneration payable to a single non-executive director exceeds fifty per cent of the total annual remuneration payable to all non-executive directors, giving details of the remuneration thereof.

The aforesaid limits shall not include payment of sitting fees to non-executive directors if made within the limits prescribed under the Act.

Brief profile of the Non-Executive Directors are available at the website of the Company at <u>www.niit.com</u>.

The other Information as required under Section II of Part II of Schedule V of the Companies Act, 2013 is provided in Annexure - II of this Notice.

All the Non-Executive Directors or their relatives shall be deemed to be concerned or interested in this resolution. None of the other Directors, Key Managerial Personnel of the Company or their relatives are concerned or interested financially or otherwise in the resolution set out at Item No. 7 of this Notice.

The Board recommends the Ordinary Resolution for approval of the Members, as set out at item no. 7 of this Notice.

Pursuant to the provisions of Section 197 of the Act, the remuneration payable to any one managing director or whole-time director shall not exceed 5% of its profits as calculated under Section 198 of the Act and if there is more than such director then the remuneration to them shall not exceed 10% of such profits. It also provides that the remuneration payable to directors (other than managing directors or whole-time directors i.e. executive directors) shall not exceed, (a) 1% of the net profits of the company, if there is a executive director or manager; (b) 3% of the net profits in any other case. It also provides that a company with the approval of the members in general meeting by a special resolution can pay remuneration in excess of all or any of these limits.

Further, in case of loss or inadequacy of profits calculated as per Section 198 of the Act, a company may pay remuneration as per applicable limits/slab prescribed under Schedule V of the Act based on its effective capital, subject to members approval (by Ordinary or Special Resolution, as applicable), which would be valid for a period of 3 years

Based on the Company's Effective Capital as per defined criteria in Schedule V (being more than Rs. 250 crores) as at March 31, 2023, the Company can pay annually in the slab of Rs. 1.20 crore plus 0.01% of the effective capital in excess of Rs. 250 crores per Whole-time director and Rs. 24 lac per non-executive director, in the event of inadequate profits or no profits in a financial year, with the approval of members by passing an ordinary resolution. The Company can pay more than these limits with the approval of members by passing special resolution.

Accordingly, as an abundant caution, approval of members of the Company is sought by passing of special resolutions for payment of remuneration under Schedule V of the Act, to Mr. Vijay Kumar Thadani and Mr. P Rajendran, as mentioned in the respective items.

#### OTHER INFORMATION

## Managerial remuneration in the event of loss or inadequate profits:

The Company has operations in India and in international geographies through wholly owned subsidiaries. The profitability of the company is ascertained on the basis of standalone financials for the purpose of remuneration to directors as per the provisions of Section 198 of the Act. As a matter of abundant caution, members' approval is being sought for payment of remuneration, in the event of loss or inadequate profit in the standalone financials, as defined in the said respective resolutions read with their explanatory statements.

The members may note that financial performance is indicated in Table A in Annexure-II on a consolidated basis and on standalone basis for the financial year ended March 31, 2023 for reference. The Company recorded growth in revenue in both standalone and consolidated financials for the financial year 2022-23.

#### Steps taken or proposed to be taken for improvement:

The Company remains committed to generating superior returns for its stakeholders. The pivot to digital solutions, investments in Sales and Marketing as well as new capabilities have helped NIIT to achieve growth in FY23 at both the

#### ANNEXURE-II (Contd.)

standalone and the consolidated level. The improvement was led by growth in its business due to addition of new customers, transition to digital learning, improvement in business mix and continuous focus on rationalization of resources including physical infrastructure. The Company will continue to take actions for improvement in its performance.

## Expected increase in productivity and profits in measurable terms:

The Company sees a large headroom for growth and plans to continue investments to take advantage of the opportunity. While the investments may impact margins in the near term, these are expected to help the Company to scale its businesses and sustain growth and profitability in the long run.

#### DISCLOSURES

The disclosures as required have been made in the "Corporate Governance Report" forming part of the Board's Report of the Company for the year 2022-23.

By Order of the Board For NIIT Limited

#### BOARD'S REPORT

#### Dear NIIT Shareowner,

Your Directors take pleasure in presenting the 40<sup>th</sup> Annual Report along with the Audited Financial Statements (Standalone and Consolidated) for the financial year ended March 31, 2023.

#### **Financial Highlights**

On May 19, 2023, the National Company Law Tribunal (NCLT), Chandigarh Bench sanctioned/ approved the Composite Scheme of Arrangement between NIIT Limited ('the Transferor Company' or 'NIIT') and NIIT Learning Systems Limited ('the Transferee Company' or 'NLSL') and their respective shareholders and creditors ('Scheme'), which was made effective on May 24, 2023 by filing of the certified copies of the NCLT Orders sanctioning the Scheme with Registrar of Companies, NCT of Delhi & Haryana. Pursuant to the Scheme becoming effective, the CLG Business Undertaking ("Demerged Undertaking") is demerged from NIIT and transferred to and vested in NLSL with effect from April 1, 2022 i.e. the Appointed Date as per Scheme.

Statement of profit and loss for the year ended March 31, 2022 have been restated by the Company to give effect of the Scheme. The transferred business as defined in the 'Scheme' have been disclosed as 'Discontinued Operations' in the consolidated financial statements for the year ended March 31, 2022, as per the requirements of Ind AS 105 - "Non-current Assets Held for Sale and Discontinued Operations".

#### BOARD'S REPORT (Contd.)

The Company had acquired majority stake in RPS Consulting in October 2021. Growth in FY23 was aided by first full year of consolidation of RPS Consulting with NIIT. Many GSI's reported a reduction in headcount indicating negative net hiring in the fourth quarter due to prevailing uncertainty in the demand environment which also led to compression in spending. Organic revenue was up 13% YoY despite impact of slowdown in hiring in H2 FY23.

EBITDA for the year was Rs. 10 million as compared to Rs. 25 million despite continued investments in growth and impact of the environment during the year. A detailed analysis of the overall performance is given in the Management Discussion and Analysis Report, forming part of this Report.

#### **Future Plans**

With a continuing shift to Digital economy, the IT and BFSI sectors are expected to continue to see an increasing demand for digital skills and therefore, continue to offer a significant growth opportunity for NIIT. India has over 41 million students enrolled in higher education, the number of college graduates entering the workforce is second highest in the world. With about 5.4 million people employed by the IT/ITES industry and a similar number in BFSI. College students, fresh graduates, and working professionals aspiring to make a career in Technology, BFSI and other emerging sectors in India represent a large untapped opportunity.

Over the last two years, the company has pivoted to digital learning, invested in new products, and strengthened the leadership team. With a trusted brand, a scalable learning delivery platform, proven methodologies that delivers superior outcomes for learners and a strong balance sheet, NIIT is well positioned to accelerate Digital Talent Transformation for both Individuals and Corporate customers.

NIIT plans to continue to invest in digital learning and deepskilling programs to scale the business. In addition, company is working on a number of new opportunities across sectors undergoing digital transformation to offer deep skilling programs. Over the next few years, NIIT expects to reestablish the Company as a premium provider of digital talent.

#### 2. Update on the Composite Scheme of Arrangement

The Board of Directors, in their meeting held on January 28, 2022 approved a Composite Scheme of Arrangement under Section 230 to 232 and other applicable provisions of the Companies Act 2013 between NIIT Limited ("Transferor Company") and its wholly owned subsidiary, NIIT Learning Systems Limited (Formerly known as MindChampion Learning Systems Limited) ("Transferee Company" or "NLSL") a wholly owned subsidiary of the Company and their respective shareholders and creditors ("Scheme"). The Scheme inter-alia provided for (i) Transfer and Vesting of CLG Business Undertaking by the Transferor Company to Transferee Company, (ii) Reduction and cancellation of Share Capital of Transferee Company held by Transferor Company, (iii) Issuance and allotment of shares by the Transferee Company to the shareholders of Transferor Company in consideration of transfer of CLG Business undertaking.

The National Company Law Tribunal (NCLT), Chandigarh Bench vide Order dated May 19, 2023 sanctioned the Composite Scheme of Arrangement. The Scheme became effective on May 24, 2023 upon filing of the certified copies of the NCLT order with the Registrar of Companies, NCT of Delhi & Haryana. Pursuant to the Scheme becoming effective, the CLG Business Undertaking is demerged from NIIT and transferred to and vested in NLSL with effect from April 1, 2022 i.e., the Appointed Date as per the Scheme. Transactions pertaining to the CLG Business Undertaking from the Appointed Date up to the effective date of the Scheme have been deemed to be made by NLSL.

The accounting treatment in compliance with Ind AS 103 Business Combinations.

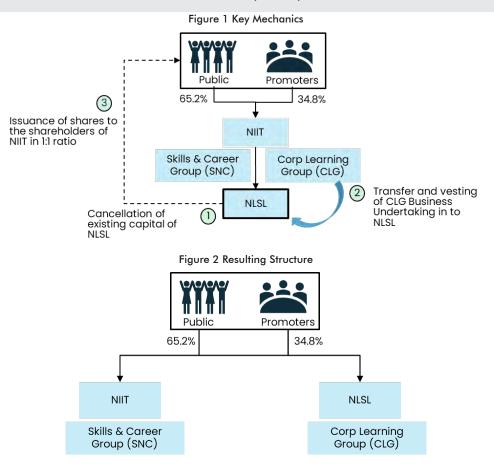

The strategic action which was initiated early last year has now been completed with receipt of the customary approvals from all stakeholders and regulatory bodies. With filing of necessary forms with MCA and adoption by the Board, the demerger has created two independent companies - NIIT Limited and NIIT Learning Systems Limited (NLSL) with effect from May 24, 2023.

As a result of this, NIIT's Corporate Learning Business has been transferred to NIIT Learning Systems Limited (NLSL) from the Appointed Date of April 1, 2022, and NLSL will operate the Corporate Learning Business which will now be known as NIIT MTS.

This is a mirror demerger i.e., the shareholding of NLSL shall mirror the shareholding of NIIT on the Record Date (June 8, 2023). Consequent to this, each shareholder of NIIT Limited shall be allotted one share of NLSL for every share of NIIT Limited held by them on the Record Date. Subsequently shares of NLSL shall be listed on BSE/NSE post requisite regulatory approvals. The existing/pre-scheme share capital of NLSL, held by the Company shall get cancelled/extinguished.

This demerger recognizes the distinct market dynamics, customer segments, product offerings, and growth trajectories of each business to provide sharper focus, simplified decision-making, and enhanced agility. It will enable both the businesses to pursue their independent growth trajectories to create greater value for all their stakeholders – customers, NIITians and investors.

Post the demerger, NIIT is focused on the Skills & Careers (SNC) business, which offers a diverse range of training programs, certifications, and solutions to career seekers and working professionals. Its curricular offerings include software and product engineering, data sciences & analytics, AI/ML, cloud computing, cybersecurity, banking, insurance & finance, digital marketing, content design, UI/UX, project/product/ program management, sales & service excellence, professional life skills, business process excellence, and multi-sectoral vocational & professional skills. NIIT offers these programs predominantly in India, China and emerging economies. The programs are delivered through robust digital and hybrid learning models, which connect corporate and individual learners seamlessly. With its comprehensive set of offerings, NIIT helps in building multi-skilled full stack professionals at scale.

#### 3. Environment and State of the Industry

Global growth, which rebounded sharply in FY22, was disrupted during FY23 as the economy faced exceptional uncertainty due to the geopolitical crises from the ongoing Russia-Ukraine war, new variants of the virus, unprecedented supply chain bottlenecks leading to high inflation in labor, food, and commodity prices. This occurred even as major economies were forced to roll back stimulus measures, tighten money supply, and increase interest rates to counter the imbalances accumulated during the previous two years. Beyond the humanitarian crisis, the economic damage from the conflict contributed to a significant slowdown in global growth during the year and exacerbated inflation. The sharp increase in interest rates and tightening of money supply to curb inflation also led to instability in interest-sensitive sectors, including banking companies that had borrowed short-term and lent longterm, assuming the availability of low-cost funding and adequate market liquidity.

#### MANAGEMENT DISCUSSION AND ANALYSIS (Contd.)

As a result, global GDP growth slowed from 6.1% in the calendar year 2021 to 3.5% in the year 2022. The International Monetary Fund (IMF) now forecasts 3% growth in both 2023 in 2024. War-induced commodity price increases and broadening price pressures have further fueled inflationary pressures with headline inflation at multi-decade high of 8.7% in 2022. Inflation has been stickier than anticipated leading to coordinated tightening by central banks around the world. While global inflation has started to decline and headline inflation rate is expected to decline to 6.8% by the end of 2023, that reflects mostly the sharp reversal in energy and food prices while uncertainty and other risks remain.

Over the last two years, Covid-19 resulted in the compression of digital adoption expected over the next several years into a few months. Businesses accelerated their digital transformation not only to ensure continuity but also to take advantage of this trend. As economies emerge from lockdowns, hybrid models are emerging as the new normal.

India has been a relative bright spot in the world economy. India's GDP grew at a robust 7.2% in FY23 versus 9.1% in FY22 which was based on strong recovery post the pandemic. Against this backdrop, the RBI expects the economy to grow at 6.5% in FY24. While the economy is strong, certain sectors are experiencing a near-term slowdown. The IT/ITES industry expects near term compression in spending due to increased uncertainty and economic headwinds faced by their customers or some normalization of strong spends on digitalization during the pandemic. This has resulted in companies rationalizing their hiring plans. Global monetary tightening has also impacted funding prospects for startups across various sectors that have tempered their growth plan to focus on improving profitability and extending their operating runway beyond the 'funding winter', leading to sharp cuts in hiring and layoffs which is in sharp contrast to euphoric demand for talent over the last couple of years. The near-term uncertainty has led to cuts and deferrals of spending in the second half of FY23 and is expected to show some recovery in H2 FY24. With technology continuing to disrupt old ways of working, the demand for new age skills is expected to lead to a continued requirement for upskilling and retraining for new entrants as well as working professionals.

Note:

- Results are not comparable with previously declared results due to the transfer of Corporate Learning Business undertaking to NIIT Learning Systems Limited from Appointed Date of April 1, 2022 as per the Composite Scheme of Arrangement, which was made effective on May 24, 2023. The accounting treatment is in compliance with Ind AS 103 Business Combinations.
- Net Result (revenue minus expenses) of discontinued operations and assets held for sale reclassified as 'Profit/ (Loss) from Discontinued Operations and Assets held for Sale' and reported as separate line below operating results, as per Ind AS 105. For FY22, this includes the Net Results (INR 2,021 Mn) of Corporate Learning Business undertaking.
- Proforma PAT & EPS exclude Net Results of Corporate Learning Business undertaking.
- Other Income/(Expenses) include Non-Operating/ Transitory expenses related to the Composite Scheme of Arrangement.

The Company reported a revenue of Rs. 3,413 million versus Rs. 2,506 million last year. Revenue was up 36% YoY. This includes impact of the full year contribution of RPS Consulting, which was acquired last year. Organic growth was 13% YoY. The business faced headwinds in the second half of the year due to a hiring freeze by IT services firms on account of near-term impact on volumes caused by the prevailing economic uncertainty.

The Operating Profit (EBITDA) for FY23 was Rs. 10 million, down 59% versus Rs. 25 million in FY22. The EBTIDA margin was 0.3% in FY23 versus 1% in FY22, a decline of 71 basis points YoY. The decline in margin was driven by product mix, inflation, higher expenses due to partial re-opening of offices & investments in new verticals.

The Company recorded a PAT of Rs. 32 million, leading to an EPS of Rs. 0.2 in FY23 PAT for FY22 includes the net results of the demerged business. Excluding the demerged business, the PAT was Rs 241 million with EPS of Rs. 1.8.

A detailed discussion of NIIT's business and performance is given in the subsequent paragraphs.

#### **Businss Overview**

NIIT's Skills & Careers group provides a wide range of programs that deliver digital talent transformation for individuals and corporate customers. The Company provides these programs in India, China and selected emerging economies. NIIT leverages its presence in these markets to offer professional courses for young individuals and corporate learners, preparing them for careers in different industries, and for working professionals looking at upskilling for career advancement. The business has transitioned predominantly to synchronous digital learning over the last two years.

#### Figure 4 Revenue Mix (By Learner)

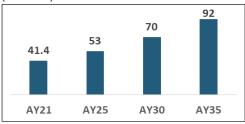

Between StackRoute, RPS Consulting and the enterprise business, NIIT has strong coverage of Global System Integrators (GSIs) - which are enablers of digital transformation, Global Capability Centers (GCCs) which are early adopters of digital, and other leading organizations in India that have started on the path of digital transformation.

NIIT now has a range of offerings for digital skills, including programs for 5G, Cloud Technologies, Cyber Security, Game Development, Data Science, and Full Stack Product Engineering, as well as programs in Digital Marketing, Business Development, and Virtual Relationship Management for the Digital Enterprise.

NIIT offers these programs to college students, fresh graduates, and working professionals in the Technology and BFSI industries. Technology and Banking continue to be aspirational sectors for Early Career as well as experienced Working Professionals in the country. Together, they represent a multi-billion market for technical and professional skills training per annum.

With a Gross Enrollment Ratio in higher education of 27.1%, India has over 41 million learners enrolled in over 40,000 colleges and 1,000+ universities. The enrollment is expected to cross 50 million by the Academic Year 2025 (AY25) and 92 million by AY35.

#### MANAGEMENT DISCUSSION AND ANALYSIS (Contd.)

During the year, the IT/ITES industry witnessed net addition of an estimated 290K professionals taking the total employment to 5.4 million (Source: NASSCOM) despite the slowdown in the second half of the year. Banks continued to see a strong hiring demand, with over 100K employees added to the workforce in FY23. Banks in India have close to 1.5 million employees, with similar numbers in the Insurance and other Financial Services industries.

NIIT also provides innovative solutions to corporates in India to transform their talent, including deep skilling programs in technology, through its StackRoute initiative, and its new offering to provide companies with just-in-time, day-one ready professionals through its Talent Pipeline as a Service (TPaaS). The Company also offers a comprehensive range of programs for working professionals in collaboration with over 30 OEM partners.

#### StackRoute

NIIT's deep skilling initiative, StackRoute, which helps companies transform their existing talent, continues to receive a sustained and enthusiastic response from IT companies. StackRoute has now been adopted by several corporate customers to develop their top talent, including a leading global systems integrator and two of the Top 5 IT services companies in India. StackRoute has achieved high completion rates and strong outcomes for its learners, resulting in improved recognition from employers and increased bill rates. During the year, NIIT strengthened its Digital transformation portfolio by adding programs in Data Sciences, AI/ML, Cloud Computing, Cybersecurity, and Digital Marketing to meet the accelerating employment growth at GSIs and GCCs, in addition to the Digital Startup Ecosystem.

#### **RPS** Consulting

RPS offers upskilling programs in emerging digital technologies to working professionals, a segment that is seeing strong demand due to digital transformation across businesses. RPS services over 250 customers and offers a portfolio of over 2000+ programs, including programs in partnership with leading technology OEMs such as Microsoft, AWS, Google Cloud, VMWare, RedHat, Citrix, Veritas, Symantec, (ISC)<sup>2</sup>, etc. During the year, NIIT increased its holding in RPS Consulting to 90% with acquisition of additional 20% stake in the company as per terms of the definitive agreements executed last year. This has further increased to 100% in Q1 FY24 with the purchase of the balance 10% stake.

#### Talent Pipeline as a Service (TPaaS)

TPaaS is NIIT's strategic initiative to address the changing talent requirements for the industry with a new model of delivering just-in-time, job-ready talent with an integrated offering of talent sourcing, training, and onboarding. NIIT offers TPaaS to leading companies in the BFSI and technology sectors.

StackRoute and TPaaS grew 17% YoY in FY23 and contributed 32% to the SNC revenue.

Over the last three years, NIIT has transitioned from its traditional learning delivery model in physical learning centers to predominantly synchronous digital learning. During FY23, the Company ramped up its investments in digital learning with a dedicated team and the rollout of new programs, which led to tremendous outcomes for its learners. The average remuneration level of NIIT's graduates from its new-age digital programs has been substantially higher than average remuneration of college graduates who get placed directly from college campuses.

#### Investing in Growth

With about 41 million learners enrolled in Indian higher education, Gross Enrolment ratio (GER) in higher education is currently at 27.1%. By AY35 India this is expected to grow to over 50%. The number of students graduating from higher education institutes is expected to double from the current outturn of 9.5 million per annum. Only a fraction of these graduates would be directly employable with balance requiring training to become employable and productive. This creates a large headroom for growth.

The strong balance sheet and liquidity position give NIIT an edge to be able to invest in accelerating growth given the large market as well as addressing the opportunity created by digital disruption in its business. NIIT is actively seeking to invest in both organic and inorganic initiatives to add new capabilities relevant for its customers and to deepen its penetration into select customer segments/geographies.

#### Table 7 Deferred Tax Assets/(Liabilities)

#### Other Assets & Liabilities

The elements of Net Current Assets were as follows:

#### Inventories

Inventories comprise training materials including educational software and examination vouchers used by the Company for imparting training and certifications. The value of the inventory held by the Company is Rs. 7 million in FY23 versus Rs. 21 million in FY22.

#### Trade Receivables

The total receivables of the Company as on March 31, 2023, were Rs. 306 million, as compared to Rs. 516 million as on March 31, 2022. Days Sales Outstanding (DSO) from 60 days last year to 33 days as of March 31, 2023. The Company continues to lay strong emphasis on managing and optimizing the working capital cycle.

#### Cash and Bank Balances

The Cash and Bank Balances as on March 31, 2023, stood at Rs. 7,157 million compared to Rs. 7,356 million as on March 31, 2022. During the year:

- Net Cash from Operations for FY23 was Rs. 42 million vs Rs. 84 million for FY22. This reduction was caused due to increase in working capital requirements.
- Net Cash from Investing activities for FY23 was Rs. (262) million vs Rs. (172) million for FY22. This is due to the investment in RPS acquisition (Rs. 358) Mn in Q3 FY23 which offset the cash generated from treasury investments.
- Net Cash from Financing activities in FY23 was Rs. 21 million vs Rs. (2,932) million for FY22.

| Current Ratio                     | 6.20  | 5.49  | 13%         |

Revenue growth decreased to 36% in FY23 as compared to 102% in FY22 due to as well as impact of slowdown in hiring in the second half of the year. EBITDA Margin decreased to 0.3% for the year vs 1.0% last year due to impact of planned investments in growth as well as negative impact of slowdown in the second half of FY23 Net Profit Margin decreased to 1% in FY23, as compared to 90% in FY22. The net profit margin for FY23 is not comparable to previous year due to the impact of the transfer of the corporate learning business to NIIT Learning Systems Limited through the Composite Scheme of Arrangement from

April 1, 2022. Basic EPS, which is calculated by dividing net profit by the total number of shares outstanding, decreased by 99% YoY and is not comparable to the previous year due to the impact of the Scheme.. Current Ratio increased to 6.20 versus 5.49 last year. Current Ratio primarily increased due to optimization of working capital cycle. Debt to Equity ratio, and DSO have been explained in the relevant sections above.

The details of Return on Net Worth are mentioned below:

#### Table 12 Return on Net Worth

| Particulars             | FY23 | FY22 | YoY         |
|-------------------------|------|------|-------------|
| Return on Net Worth (%) | 1%   | 24%  | (2,365) bps |

Return on Net Worth (RoNW) is computed as Profit after Tax divided by Net Worth. Net Worth represents the total of the Company's equity and reserves, excluding capital reserves, hedging reserves, and cumulative translation reserves. RoNW was 1% in FY23, as compared to 24% in FY22. While net profit decreased by 99% to Rs. 32 million, Net Worth decreased to Rs. 4,504 million from Rs. 9,289 million in FY22 due to the transfer of the Corporate Learning Business undertaking to NIIT Learning Systems Limited through the Composite Scheme of Arrangement from the appointed date of April 1, 2022

#### Accounting Policies

The Company has selected the accounting policies described in the Notes to Accounts, which have been consistently applied, and made judgments and estimates that are reasonable and prudent so as to give a true and fair view of the state of affairs of the Company as on March 31, 2023, and of the Profit or Loss of the Company for the year. The significant accounting policies and practices followed by the Group are disclosed in Note 2 of the Consolidated Financial Statements for the year.

#### **Related Party Transactions**

Related Party transactions are defined as transactions of sale / purchase of goods / services made by the Company with Promoters, Directors, Key Managerial Personnel, Subsidiaries, Associates, or other parties in which Promotors or Director are having significant interest / control directly or indirectly, which may have potential conflict of interest with the Company. There were no material transactions during the year under review that were prejudicial to the interests of the Company.

All transactions covered under related party transactions were regularly ratified and/or approved by the Board, the guiding principles being arm's length, fairness, and transparency. Please refer to Note 34 of the standalone financial statements and Note 33 of the consolidated financial statements for details of related party transactions during the year.

#### 7. Human Resources

The Company believes that the employees (NIITians) are its most important assets, and the collective growth of the Company is a derivative of the growth of each NIITian within the organization. With this belief in mind, the human resources management function is dedicated to focusing on its people, while enabling leveraging technology and expertise to lead the way forward. These core values have always guided the talent initiatives for the Company.

The past year was a remarkable one for NIIT, marked by the gradual easing of the pandemic. As the situation improved, the Company enthusiastically held celebrations and events to build and strengthen new connections within the Company, utilizing every opportunity to personally connect and collaborate. In one such popular initiative, the Company recognized NIITians, for creating "Moments that Matter" experiences for their fellow NIITians.

Amid emerging technologies, one wave that captured the imagination of NIITians was the power and potential of Generative AI. Driven by NIIT's values, the NIITians embraced the possibilities of this technology, and embarked on a journey to leverage it for the betterment of NIIT's clients and the organization.

#### Learning and career development:

Recognizing that strong leadership is essential for sustainable arowth, NIIT launched an executive development initiative last year, aimed at empowering its senior leaders to enhance their influence and impact. By investing in the leadership team, has helped foster a culture of continuous learning and innovation. The leadership initiative covered the top one hundred leaders of the organization and included an executive development component, delivered in partnership with premier management institutes; and a selfmanagement component consisting of assessment, reflection, feedback, and executive coaching. These initiatives would be continued over FY24 as well, with the additional components of business challenge assignments and a leadership talk series. The initiative for the senior most leadership was called "GROW" as an acknowledgement of the well-established model of coaching. The initiative for the emerging leaders was called LEAP, recognizing their transition from senior managers to leaders.

For the junior layer of the organization, a "Talent Readiness" suite of programs was launched to strengthen functional, technical, domain and behavioral competencies and promote individual excellence. At a managerial level, a "First-Time-Manager" program was designed and launched to equip and enhance supervisory capabilities among managers. Thus, all layers of the organization were covered in a major initiative to enhance people excellence.

#### Helping people realize their TRUE POTENTIAL

#### MANAGEMENT DISCUSSION AND ANALYSIS (Contd.)

Online asynchronous, self-paced and online modules were developed for mandatory trainings like "Gender Sensitivity," "Prevention of Sexual Harassment (POSH)," "General Data Protection Regulation (GDPR)," and "NIIT Code of Conduct." This enabled greater coverage of training and assessment among all NIITians. In the area of "Diversity, Equity, Inclusion, and Integrity," training resources as well as a portal for sharing activities was launched during the year.

Succession planning was made a key step of the annual talent review process. This brought in more focus on ready talent within the organization, identified individual development opportunities and helped create opportunities for NIITians.

#### Focus on people and technologies:

Understanding the importance of new technologies, the Company initiated a large-scale digital transformation project. The ambitious endeavor was to enable flexible working, streamline manual transactions, and enhance the overall people experience. The major focus last year was the implementation of a leading cloudbased platform for Human Capital Management. The Employee Central module for the platform has already gone live, and the Recruiting and Onboarding module is scheduled to go live in Q2 of FY24. These modules would reduce the time for routine transactions, improve data integrity across the organization, and thus enable data-driven decision making. As more modules get implemented, they would transform the nature of people processes in the company.

During the year, the Company partnered with a leading service provider to provide NIITians a service for managing NIIT Stock Options, with easy monitoring and tracking, a 24/7 access to the online platform with dashboard and reports and e-mail triggers for various events to enable them to take well informed decisions on stock options.

NIIT's Artificial Intelligence (AI) powered digital employee engagement initiative 'Amber' has been designed to interact with NIITians at pre-defined milestones of their tenure with NIIT. It collects data for employee sentiment regarding work environment and work relationships. For FY23, the Engagement score measured by 'Amber' was eighty-eight on a 100-point scale, a 2-percentage point jump over the score in FY22, and the Mood score was 4.3 on a 5-point scale in FY23, as against 4.2 in FY22.

NIIT conducts Employee Satisfaction Survey (ESS) every year to feel the pulse of the organization to continue to make NIIT one of the best places to work and grow. The Company maintained the overall satisfaction score at 88% for FY23 (89% in FY 22). NIIT continues to focus on the identified areas and these form a part of action plan for the coming year. Participation in the survey in FY23 improved to 87% from 83% in FY22. Some of the office workplaces have undergone a physical transformation as well. This process started last year, and will continue in the coming year, to make all NIIT offices more contemporary, enabling greater connectedness and well-being among its people.

#### Health & wellness:

NIIT has an integrated and preventive "Health and Wellness program" in place, to help NIITians take care of their physical and mental and health. An online portal enables expert consultations, digital gym, yoga, and meditation sessions, and provides interactive webinars, and on-demand videos for learning and refreshers. FY23 saw a participation from over 1600 NIITians as well as 500+ participants from the NIIT group companies.

A "Health Day Holiday," a half-day leave exclusively for an "Executive Health Check-up" was introduced during the year. All these initiatives helped NIIT win a 'Workplace Wellness Award' by 'CecureUs' for promoting a culture of continuous wellbeing.

#### Talent mix:

The organization focused on enhancing the talent mix, making it younger and more inclusive. About 50% of all the hiring in FY 23 was fresher talent. Special initiatives addressing diversity themes were launched during the year. These include Breaking Stereotype, Taking Charge, Embracing Equity, Role Modelling.

Various DEI initiatives were taken during the year and a Celebrating Inclusivity @NIIT month was observed. This was accompanied by creative videos, gifts, and messages, and helped improve the gender ratio to 40% women, as compared to 38% in FY 22.

The Company leveraged prominent social media platforms for working professionals for improving its recruitment metrics including hiring for senior positions.

#### The Workplace:

NIITians enjoyed a positive work environment, with regular communication, feedback mechanisms like Amber and listening sessions. The CEO and senior leaders engaged in frequent connect sessions with all NIITians.

The hybrid model of work at NIIT has evolved continuously, in response to changing needs and expectations of customers and NIITians. The Company supported remote working by aligning systems, policies, and processes, and providing the right training and management support. People processes like induction, on-boarding, learning delivery, goal setting and performance management have been implemented in an anywhere-anytime model, virtually and seamlessly. The company's intranet was revamped to make it more contemporary and regular advisories were posted on it.

There were fun events too: gaming contests, fitness challenges, music, and dance shows. NIITians used social media platforms to connect across locations. The Company newsletter carried virtual fire-side wellness chats with the CEO, as well as stories of personal experiences of challenges and triumphs through COVID. All of this has helped NIITians bond as a family.

The support extended included providing appropriate computing hardware, software licenses, data connectivity, implementation measures for data access and security, reimbursement of internet expenses, and a one-time reimbursement of WFH accessories or attire for joiners of FY23.

#### Rewards & recognition:

The pandemic has led to a paradigm shift in the way people work. HR has played a pivotal role in steering the human capital in the right direction and designing a wide range of initiatives that not only ensured the well-being of employees but also drove productivity and business outcomes. NIIT showcased some of these initiatives publicly, in the areas of reward & recognition, health & wellness, and learning & development. The Economic Times Human Capital Awards was one such platform. NIIT won a gold award for Excellence in Reward & Recognition Strategy & was amongst the Top 7 companies in Health & wellness initiatives at ET – HCA awards.

#### 'Our People, Our Future'

As the Company moves forward, it remains committed to its values and the betterment of its people. NIIT will continue to invest in talent development, providing opportunities for growth and career advancement within the organization. Additionally, the Company will remain at the forefront of technological innovation, empowering NIITians to thrive in an ever-evolving digital landscape, disproportionally focusing on further elevating people experience.

In conclusion, NIIT's people are at the heart of its success. By fostering a culture of growth, continuous learning, and innovation, the Company enables NIITians to reach new heights of achievement. The Company is excited about the possibilities that lie ahead and is confident that its approach of putting people first, and embracing technology, will continue to drive new change within the organization, and beyond.

#### 8. Future Outlook

Training for Digital Skills in India represents a multibillion--dollar training opportunity:

 With a young population (about 600 million people less than 25 years old), large and growing enrollments in higher education (over 41+ million learners enrolled in Higher Education with 27.1% GER growing to 50% GER by AY35), and proficiency in English, India is expected to be the hub of global demand for talent. In addition, a strong demand is expected for continuous skill upgradation for working professionals due to increasing digitalization across sectors (Technology, Fintech, HealthTech, Logistics, EdTech, etc., as well as user industries where Technology proficiency will be a key competitive advantage).

Despite near term slowdown in hiring, the acceleration of digital transformation is expected to continue to drive demand for professionals with deep skills in new age technologies and ways of working.

NIIT plans to continue to focus on deep skilling in Technology and BFSI sectors. These offer significant growth opportunities due to the increasing need for talent transformation across GSIs (Global System Integrators), GCCs (Global Capability Centers), large Indian Enterprises and companies in the BFSI sector.

NIIT also sees multiple new vectors of growth in industries undergoing digital transformation, which offers significant headroom for the company to scale. These include Manufacturing, ER&D, Supply Chain Management, and Design.

Over the next few years, Artificial intelligence is expected to drive massive changes in ways of working across industries including education. The Company plans to leverage this opportunity, both by offering training in Al and by harnessing Al's potential to amplify learning outcomes.

Over the years, NIIT has been a premium provider of technology training to individual and enterprise learners in the country, serving as a bridge between higher education institutions and rewarding careers. With RPS acquisition, NIIT has made a strong inroad into training for working professionals as well. NIIT plans to continue to invest to accelerate the transformation and achieve scale.

The increasing adoption of digital learning, a trusted brand, strong pedagogy that creates superior learning outcomes, an industrial strength learning delivery platform to enable scale, a strong balance sheet, and a strong leadership team create an opportunity to reestablish NIIT as the premium choice for career seekers and working professionals.

#### 9. Risks and Concerns

NIIT services customers in India and other growth economies. As a multinational enterprise, the Company faces a variety of risks. Risk management is, therefore, an integral part of the Company's core process and involves recording, monitoring, independent testing, and controlling of the internal functions of the enterprise by way of establishing the Risk Control Matrix (RCM) to ensure process control, the Business Risk Management (BRM) framework for business objectives, and Entity Level Control (ELC) for comprehensive risk reporting. The rapid changes in technology across the globe have necessitated a dynamic change in the Company's business and delivery models.

NIIT has implemented an Enterprise Risk Management framework across the organization, strengthening the existing risk management process and enhancing the risk culture across the Company. A robust structure based on global standards and best practices has been developed. The Company's Enterprise Risk Management (ERM) framework supports the achievement of strategic goals under the current disruptive environment by identifying, assessing, mitigating, monitoring, and reporting any risk to these goals thereof, enabling effective and timely decisions. Strategic decisions are taken after careful consideration of key risks and residual risks. The Company's risk framework encompasses strategic risks, operational risks, financial risks, governance risks, and information & technology risks. The Risk Management Committee reviews and provides input on the overall risk framework at regular intervals, in discussion with senior management.

As risk-taking is an intrinsic part of all businesses, it has been NIIT's constant endeavor to balance risk appetite in each line of business to ensure that each of the businesses generates high risk-adjusted returns, with the underlying objective of maximizing value for the shareholders.

#### **Enterprise Risk Management Framework**

The ERM framework is developed by incorporating the best practices based on COSO & ISO 31000 and then tailored to suit NIIT's business requirements. NIIT has taken proactive steps to identify and prioritize the risks upfront, document them in consultation with the business groups, and define the risk management framework. These risks include customer concentration, competition, people, cyber security and data protection, investments, and exchange rate. The Company has laid out internal controls over Financial Reporting to be followed by the Company. Such internal financial controls are adequate and operate effectively.

At the entity level, NIIT's risk management framework addresses all significant risks of the businesses as envisaged by the management from time to time, based on the experience, the environment surrounding each business activity, and future initiatives, to achieve the business group's objectives along with the relevant mitigation strategy. The mitigation strategy is simultaneously addressed by the respective business groups for each of the identified risks while finalizing the strategic and operational parameters of the business. The compliances and assurance of the risk mitigation strategies are addressed by the Internal Audit and Assurance Group. The Company has identified the major and significant risks into two broad categories, External Risks, and Internal Risks, with mitigation strategies for each. With the Enterprise Risk Management (ERM) process in place, the Company has a robust mechanism for risk management, and the strategies for risk management are reviewed at appropriate levels at regular intervals.

The Company is diversified in terms of both its service offerings and geographic spread. There is some concentration risk currently due to high dependence on training or early career professionals in Technology and BFSI industries. Company has been investing in both organic and inorganic initiatives to diversify the revenues mix including addressing working professionals and adding offerings across emerging sectors.

With the increasing focus on privacy across the world, the Company is required to ensure compliance with various regulations and meet customer expectations. To do so the company invests adequately in upgrading its systems and the control environment to ensure the

privacy of individuals and confidentiality of data is ensured. Also, there is a robust monitoring system of compliance confirmation to all the legal requirements.

A strong balance sheet and liquidity position give the Company a strong ability to withstand external shocks and provide a lot of confidence for all the stakeholders, including its global customers as well as employees.

#### 10. Internal Control Systems and Their Adequacy

The Company has adopted global practices for evaluating and reporting on internal controls based on its operational experience in multiple countries. It has also implemented one of the leading ERP solutions in its global operations to integrate various facets of business operations, including Human Resources, Finance, Logistics, and Sales. This has enabled the Company to control and monitor its worldwide operations and strengthen the ability of internal controls to function most optimally. The evaluation of internal controls is an integral part of the plan for the Audit & Assurance Organization.

### 24. Overview of the entity's material responsible business conduct issues.

Please indicate material responsible business conduct and sustainability issues pertaining to environmental and social matters that present a risk or an opportunity to your business, rationale for identifying the same, approach to adapt or mitigate the risk along-with its financial implications, as per the following format

| S.<br>No. | Material issue<br>identified               | (R/O)       | Rationale  | In case of risk,<br>approach to adapt or<br>mitigate | Financial<br>implications<br>of the risk or<br>opportunity |
|-----------|--|-------------|--|--|--|
| 1         | Climate Change<br>and Energy<br>Management | Opportunity | Climate change has resulted in virtual and<br>hybrid working models, propelling the need for<br>NIIT's online training modules. Considering we<br>are already in the space of transition to virtual<br>and hybrid work models; climate change poses<br>a valuable advantage to our business  |  | Positive   |
| 2         | Talent Attraction<br>and Development       | Opportunity | Being a talent development corporation,<br>developing our own human capital is a key<br>strategic imperative for us at NIIT. We provide a<br>strong learning culture within the organization.<br>We also place a disproportionate focus and<br>continuous investment in growing a pool of<br>leaders. We have executive development  | -  | Positive   |
|           |  |             | programs running for all levels of the company:<br>for individual contributors, managers and<br>leaders.   |  |  |
|           |  |             | We employ technology solutions to improve<br>employee experience, eg. we are implementing<br>Success Factors; we have an AI BOT for<br>engagement surveys; and we use an online<br>portal for wellness initiatives.  |  |  |
| 3         | Employee health<br>and safety              | Opportunity | Poor work environments and unsafe practices<br>can deter employee retention and discourage<br>workplace efficiency or productivity. Lost<br>time injuries create loss of productivity and<br>mental dissatisfaction of employees. Given the<br>COVID-19 pandemic, employee demands have<br>shifted to mental and emotional wellness rather<br>than only that of physical.  | -  | Positive   |
|           |  |             | Employee well-being has been an important<br>focus area for NIIT. When COVID first impacted<br>us, we already had in place a wellness portal<br>called Round Glass which was used for various<br>health and wellness programs. We also had a<br>panel of experts to take care of mental wellness.<br>During the COVID period, we took care of<br>the complete expenses related to treatment<br>for employees and for their dependents. We<br>also extended monthly monetary support, and<br>educational support to the children of bereaved<br>families. |  |  |
|           |  |             | Our online wellness portal has more than 50%<br>of employees participating in webinars on areas<br>related to health and wellbeing. We also drive<br>health and wellness initiatives through a tie<br>up with Cultfit, and provide free sponsorship<br>of membership to our employees. We take<br>continuous feedback from NIITians through<br>engagement surveys and feedback to design<br>and incorporate newer initiatives in the area of<br>wellbeing.   |  |  |

| 5         | Business Ethics<br>and Corporate<br>Governance | Opportunity | Business ethics are cornerstones of ensuring<br>transparent and sustainable corporate<br>governance frameworks. Upholding policies<br>such as code of conduct and anti-bribery &<br>corruption and good-governance measures to<br>effectively implement stringent actions, among<br>others tantamount to strong business ethics.<br>When such business ethics are not complied<br>with it often leads to significant reputational<br>damage.<br>NIIT has a Code of Conduct in place to ensure<br>compliance with standards of business practices<br>and legal requirements for all its employees and<br>workers. We also have comprehensive anti-<br>bribery and anti-corruption policy and measures<br>to ensure compliance and management of risks.<br>Policies such as whistleblower, related party<br>transactions, etc. are also existent and material<br>to business.   |   | Positive   |
| 6         | Supply chain<br>Management                     | Risk        | Supply chain management affects product<br>and service quality, delivery, costs, customer<br>experience and ultimately, profitability.<br>Increased supply chain disruptions at the wake<br>of geopolitical transitions, and crises such as the<br>pandemic result in loss of business continuity.<br>Lack of inclusive supply chains creates vacuum<br>at the time of a crises and a robust supply chain<br>includes local sourcing, also boosting local<br>economies and disadvantaged communities.<br>The organization operation depends significantly<br>on value chain partner and it maintains a<br>very wide base of such partners globally with<br>ability to sources at very short interval to meet<br>customer demands . The value proposition to<br>its enterprise customers that the organization<br>provides is the ability to meet certain surges of<br>demand while, on the other hand, not requiring<br>customers to have any fixed commitment. |   | Positive   |

### Leadership Indicators

### 1. Awareness programmes conducted for value chain partners on any of the principles during the financial year:

| Total number<br>of awareness<br>programmes held | Topics / principles covered under the training  | %age of value chain<br>partners covered under the<br>awareness programmes |
|---|---|---|
| 202   | The trainers/ professional engagement is done through entering master<br>service agreement which covers principles like confidentiality, privacy and<br>ethical practices in line with NGRBC Principle 1. Discussions are held with the<br>trainers on standard of governance NIIT expects from its value chain partners<br>at the time of on boarding or any amendment required due regulatory<br>changes. | 100%  |

2. Does the entity have processes in place to avoid/ manage conflict of interests involving members of the Board? (Yes/No) If yes, provide details of the same.

Yes. Firstly, NIIT takes annual affirmation from Board of Directors with reference to Conflict of Interest. Secondly, NIIT's Related Party Policy defines the process and procedures to identifying and managing conflicts of interests involving members of the Board. The policy elaborates on the guidance and mechanism in place for board members to address potential conflict of interests that may arise in certain business transactions. Before entering any transaction with a Related Party of a Board member, NIIT ensures that the Audit Committee approval is taken. Where any director is interested in any contract or arrangement with a Related Party, the director shall not participate during discussions on the subject matter of the resolution relating to such contract or arrangement.

### Principle 2: Businesses should provide goods and services in a manner that is sustainable and safe.

### **Essential Indicators**

1. Percentage of R&D and capital expenditure (capex) investments in specific technologies to improve the environmental and social impacts of product and processes to total R&D and capex investments made.

|       | FY 2022-23     | FY 2021-22 | Details of improvements in environment and social impacts  |
|-------|----------------|------------|--|
| R&D   | INR 51 million |            | NIIT took the initiative of phasing out old computers with energy efficient laptops. NIIT<br>further migrated our owned data center to the cloud, having significant reduction in our<br>carbon footprint. |
| Capex | NIL            | NIL        | NIL  |

- 2.
- a. Does the entity have procedures in place for sustainable sourcing? (Yes/No) Yes
- b. If yes, what percentage of inputs were sourced sustainably?

NIIT has a procedure in place to onboard suppliers' basis sustainability parameters. NIIT follows a procurement process which factors MSME participation and evaluation of environment standards among our vendors. NIIT while selecting electrical, electronic and computer items, considers environmental parameters as one of the selection criteria. However, currently NIIT does not record the exact percentage of inputs sourced sustainably.

3. Describe the processes in place to safely reclaim your products for reusing, recycling and disposing at the end of life, for (a) Plastics (including packaging) (b) E-waste (c) Hazardous waste and (d) other waste.

| Waste Type      | Processes to reclaim through reuse, recycle, disposal at end of life  |
|-----------------|---|
| Plastics        | NIIT follows a zero-plastic policy. If any plastic waste is generated through mechanical packaging, the same is |
|                 | disposed of by an authorized waste management vendor for further reuse.   |
| E-Waste         | NIIT disposes all E-Waste generated to an authorized e-waste management vendor and obtains certificate of       |
|                 | compliance post safe disposal.  |
| Hazardous Waste | Lubricant oil generated from DG sets is collected by an authorized waste vendor for its safe disposal.          |
| Other Waste     | All other waste such as cloths used for lubricant oils, etc. is provided to authorized waste vendor for further |
|                 | processing and disposal.  |

4. Whether Extended Producer Responsibility (EPR) is applicable to the entity's activities (Yes / No). If yes, whether the waste collection plan is in line with the Extended Producer Responsibility (EPR) plan submitted to Pollution Control Boards? If not, provide steps taken to address the same.

No. EPR is not applicable for NIIT.

### Leadership Indicators

1. Has the entity conducted Life Cycle Perspective / Assessments (LCA) for any of its products (for manufacturing industry) or for its services (for service industry)? If yes, provide details in the following format?

| NIC Code      | Name of          | % of total  | Boundary for which the | Whether conducted     | Results communicate in   |  |  |  |

### 3. Accessibility of workplaces

Are the premises/offices of the entity accessible to differently abled employees and workers, as per the requirements of the Rights of Persons with Disabilities Act, 2016? If not, whether any steps are being taken by the entity in this regard.

NIIT is an equal opportunity employer and upholds its commitment to non-discrimination as an utmost priority. In this backdrop, NIIT recognizes accessibility is critical to ensure rights to persons with disabilities and has taken the requisite steps to ensure that it is an accessible workplace across its offices in form of infrastructural investments in form of ramps, elevators and accessible washrooms for persons with disabilities.

4. Does the entity have an equal opportunity policy as per the Rights of Persons with Disabilities Act, 2016? If so, provide the link to the policy. Yes

### Leadership Indicators

## 1. Provide the processes for consultation between stakeholders and the Board on economic, environmental, and social topics, or if consultation is delegated, how is feedback from such consultations provided to the Board

There are multiple committees of the board (risk management committee, audit committee, stakeholders relationship committee, nomination and remuneration committee), where the management provides updates on matters like environmental changes, environmental risk, and other topics having a significant impact like people policy, etc. The respective business leadership team provides quarterly inputs on performance and yearly perspective planning for three years with budgets for the next year to the board members as per schedule. External professionals like statutory auditors, cost auditors, secretarial auditors, and other professional experts on matters like tax and M&A are regularly invited to submit their reports either to subcommittees or to the board directly. In fact, the NIIT Board conducts townhall meetings for its employees as the first stakeholders to be informed post the board's quarterly meeting to ensure a conducive environment to work in. Fire-side chats are also conducted for employees to voice their feedback directly to the NIIT Managing Director as well as CEO.

2. Whether stakeholder consultation is used to support the identification and management of environmental, and social topics (Yes / No). If so, provide details of instances as to how the inputs received from stakeholders on these topics were incorporated into the policies and activities of the entity.

Yes, The inputs received from board members, shareholders in the AGM, employee suggestions, and customer inputs through surveys are duly addressed with a specific action plan and timeline, which are monitored and then reported back to the respective stakeholders.

3. Provide details of instances of engagement with, and actions taken to, address the concerns of vulnerable/ marginalized stakeholder groups.

NIIT is an equal opportunity organization, and each employee has equal rights. The concerns of our stakeholder groups are heard with utmost sensitivity, and we have a transparent process for raising their concerns independently through human resources. HR also ensures anonymity and keeps the complainant's information confidential from any and every other employee of our organization. During community programs, our point of contact creates a two-way and conducive communication pathway and our grievance redressal policy also helps take the necessary recourse for concerns of stakeholder groups.

#### Principle 5: Businesses should respect and promote human rights Essential Indicators

7. Do you have a focal point (Individual/ Committee) responsible for addressing human rights impacts or issues caused or contributed to by the business? (Yes/No) Yes.

#### 8. Describe the internal mechanisms in place to redress grievances related to human rights issues.

NIIT is committed to providing a fair, safe and productive work environment where grievances, if any, are dealt sensitively and expeditiously. A grievance policy and process is in place for NIITians to voice their concerns so they could be effectively addressed. A grievance may be about an act, omission, situation, or decision that the NIITian feels is unfair, discriminatory, or unjustified.

NIITians are encouraged to come forward with their grievances in the knowledge that the organization will take appropriate action to address those grievances. This can be done in an informal way by verbally communicating the issue to the Manager or HR and then getting it addressed along with a member from the Grievance Redressal Committee (GRC). The other option is to submit the complaint in writing to either Manager/Business HR or posting at email id GrievanceCell@niit.com which is accessible by an authorized representative from the Leadership team of HR. There is another email ID CPO@niit.com which is directly accessed by the CHRO of the company to deal with grievance matters directly.

Yet another option is to post an Anonymous message on the Amber portal (Al powered HR Engagement portal). The link for this Anonymous link called 'Anonymous Bat' is shared with by Amber with the NIITian once s/he has completed his/ her first digital chat with Amber. This stays with the NIITian and can be used at any time during one's association with NIIT. This message directly reaches the CEO and CHRO of the company.

Note: Indicate if any independent assessment/ evaluation/assurance has been carried out by an external agency? (Y/N) If yes, name of the external agency. No

## 6. Provide details of greenhouse gas emissions (Scope 1 and Scope 2 emissions) & its intensity, in the following format:

| Parameter  | Unit                 | FY 2022 - 23 | FY 2021-22 |
|--|----------------------|--------------|------------|
| Total Scope 1 emissions (Break-up of the GHG into CO2, CH4, N2O, HFCs, PFCs, SF6, NF3, if available) | Metric Tonnes of CO2 | 142.91       | 51.59      |
| Total Scope 2 emissions (Break-up of the GHG into CO2, CH4, N2O, HFCs, PFCs, SF6, NF3, if available) | Metric Tonnes of CO2 | 584.16       | 223.29     |
| Total Scope 1 and Scope 2 emissions per rupee of turnover  | Grams/INR            | 0.46         | 0.21       |

Note: Indicate if any independent assessment/ evaluation/assurance has been carried out by an external agency? (Y/N) If yes, name of the external agency No

The Scope 1 emissions increased in FY 23 from the previous year FY 22 in view of increase in energy consumption as offices reopened post Covid 19. In addition to this were refilled refrigerants and new air conditioner units were installed. Accounting of mobile combustion data was also initiated during FY 23.

### 7. Does the entity have any project related to reducing Green House Gas emission? If yes, then provide details.

NIIT continuously puts efforts to reduce Greenhouse Gas emissions by way of selecting energy efficient air conditioning, the choice of natural lighting, reducing oil leakages, and investments in renewable energy. NIIT prioritizes solar energy for its power consumption and reduces dependency on grid electricity. The company took the initiative of phasing out old computers with energy efficient laptops. NIIT also migrated its on-premise data center to cloud, significantly reducing the carbon footprint. The company moved from paper-based documents to digital documents both for customers as well as vendors. The company actively promotes online training delivery instead of offline to reduce travel, lowering carbon emission. In FY23 the majority of training programs were delivered online.

Briefly describe the waste management practices adopted in your establishments. Describe the strategy
adopted by your company to reduce usage of hazardous and toxic chemicals in your products and processes
and the practices adopted to manage such wastes.

NIIT provides all its non-hazardous and hazardous wastes through its authorized waste management vendor. Hazardous wastes include e-waste, oils from DG Sets, etc. which are all provided to authorized waste management vendors wherein the vendor recycles, reuses and disposes the waste. A certificate is also obtained from vendors to ensure proper management of hazardous waste.

10. If the entity has operations/offices in/around ecologically sensitive areas (such as national parks, wildlife sanctuaries, biosphere reserves, wetlands, biodiversity hotspots, forests, coastal regulation zones etc.) where environmental approvals / clearances are required, please specify details in the following format:

| S. No. | Location | Type of operations | Whether the conditions of environmental approval / clearance<br>are being complied with? (Y/N) If no, the reasons thereof and<br>corrective action taken, if any. |  |  |  |

12. Is the entity compliant with the applicable environmental law/ regulations/ guidelines in India, such as the Water (Prevention and Control of Pollution) Act, Air (Prevention and Control of Pollution) Act, Environment protection act and rules thereunder (Y/N). If not, provide details of all such non-compliances, in the following format:

Yes, NIIT is compliant with all Water, Air and Environment Protection and Control Acts. No non-compliances have been recorded against NIIT. NIIT is further investing in improving the water and air treatment to meet higher standards as per new norms.

### Leadership Indicators

1. Provide break-up of the total energy consumed (in Joules or multiples) from renewable and non-renewable sources, in the following format:

Note: Indicate if any independent assessment/ evaluation/assurance has been carried out by an external agency? (Y/N) If yes, name of the external agency. NA

### 4. Please provide details of total Scope 3 emissions & its intensity, in the following format:

| Parameter   | Unit                 | FY 2022 - 23 | FY 2021 - 22    |
|---|----------------------|--------------|-----------------|
| Total Scope 3 emissions (Break-up of the GHG into CO2, CH4, N2O, HFCs, FCs, SF6, NF3, if available) | Metric tonnes of CO2 | 1111.83      | Did not monitor |
| Total Scope 3 emissions<br>per rupee of turnover  | Grams of CO2 / INR   | 0.70         | Did not monitor |

Note: Indicate if any independent assessment/ evaluation/assurance has been carried out by an external agency? (Y/N) If yes, name of the external agency. No

# 5. With respect to the ecologically sensitive areas reported at Question 10 of Essential Indicators above, provide details of significant direct & indirect impact of the entity on biodiversity in such areas along-with prevention and remediation activities.

No significant direct or indirect impact of the entity on biodiversity hence no prevention or remediation activities required.

6. If the entity has undertaken any specific initiatives or used innovative technology or solutions to improve resource efficiency, or reduce impact due to emissions / effluent discharge / waste generated, please provide details of the same as well as outcome of such initiatives, as per the following format:

No such initiatives have been undertaken by NIIT. However, NIIT follows best practices with selection of technology, managing waste as per industry standards. Further NIIT shall consider exploring innovative solutions to improve resource efficiency, reduce impact due to emissions and waste generated.

## 7. Does the entity have a business continuity and disaster management plan? Give details in 100 words/ web link.

NIIT has a strong Business Continuity Management System (BCMS) committed to implement Business Continuity Management in accordance with ISO 22301:2019. NIITs Business Continuity Plan (BCP) identifies Emergency Response Team (ERT), Incident Response Team (IRT), Functional Response Team (FRT) and Damage Assessment Recovery Team (DART) specific action tasks needed to be taken during an incident.

NIIT has an alternate recovery site in a secured environment with adequate infrastructure, technology, system, and resources required for recovery in place.

8. Disclose any significant adverse impact to the environment, arising from the value chain of the entity. What mitigation or adaptation measures have been taken by the entity in this regard?

NIIT consistently monitors its impact on the environment, however, except for the above-mentioned environmental indicators on consumption, among other metrics. For its value chain partners, NIIT selects value chain partners having ethical practices as criteria but does not monitor its value chain for any such activities.

9. Percentage of value chain partners (by the value of business done with such partners) that were assessed for environmental impacts.

Do not record.

Principle 7: Businesses, when engaging in influencing public and regulatory bodies, should do so in a transparent and responsible manner.

### **Essential Indicators**

1. a. Number of affiliations with trade and industry chambers/ associations

NIIT has affiliations with five industry chambers/associations.

b. List the top 10 trade and industry chambers/ associations (determined based on the total members of such body) the entity is a member of/ affiliated to.

| S. No. | Name of the trade and industry chambers/ associations            | Reach of trade and industry chambers/<br>associations (State/National) |

## Accounting Treatment in preparation of Financial Statement:

These consolidated financial statements ('financial statements') have been prepared in accordance with the Indian Accounting Standard ('Ind AS') notified under section 133 of the Companies Act, 2013, read with the Companies (Indian Accounting Standards) Rules as amended from time to time by the Ministry of Corporate Affairs ('MCA').

The financial statements are based on the classification provisions contained in Ind AS 1, 'Presentation of Financial Statements' and division II of schedule III of the Companies Act 2013. Further, for the purpose of clarity, various items are aggregated in the statement of profit and loss and balance sheet. Nonetheless, these items are dis-aggregated separately in the notes to the consolidated financial statements, where applicable or required. All the amounts included in the financial statements are reported in Millions of Indian Rupees ('Rupees' or 'Rs.') and are rounded to the nearest Million, within two decimals, except per share data and unless stated otherwise.

On May 19, 2023, the National Company Law Tribunal (NCLT), Chandigarh Bench sanctioned/ approved the Composite Scheme of Arrangement which was made effective on May 24, 2023 upon filing of the certified copy of the NCLT Order sanctioning the Scheme with the respective jurisdictional Registrar of Companies. Pursuant to the Scheme becoming effective, the CLG Business Undertaking ("Demerged Undertaking") is demerged from NIIT and transferred to and vested in NLSL with effect from April 1, 2022 i.e. the Appointed Date as per Scheme.

#### Dutstanding GDRs/ADRs/Warrants or any Convertible instruments, conversion date and likely impact on equity:

As on date there are no outstanding warrants / bonds/ other instruments (except Stock Options granted under NIIT ESOP-2005, the details of which are given in Board's Report) which are convertible into equity shares.

## q. Commodity price risk or foreign exchange risk and hedging activities:

During the financial year 2022-23, the Company had managed the foreign exchange risk and hedged to the extent considered necessary. The details of foreign currency exposure are disclosed in Notes No. 13 and 29 of the financial statement (Standalone) of the Company. Further a note is also given in Management Discussion and Analysis Report.

#### r. Dematerialisation of Equity Shares and Liquidity

The equity shares of the Company are compulsorily traded in dematerialised form at NSE and BSE. The Company has arrangements with both the NSDL and CDSL to establish electronic connectivity of its shares for scrip less trading. As on March 31, 2023, 99.80% shares of the Company were held in dematerialised form. The shareholders holding company's shares in physical form are advised to get these shares converted to the demat form, as no transfer of physical share is allowed from April 1, 2019.

#### s. Consolidation of multiple folios

Investors are encouraged to consolidate their shareholding if held in multiple folios. This would facilitate one stop tracking of all corporate benefits on the shares and would reduce time and efforts required to monitor multiple folios.

#### t. Share Transfer System

The Company has appointed a common Registrar for the physical share transfer and dematerialisation of shares i.e.

#### INDEPENDENT AUDITOR'S REPORT

#### To the Members of NIIT Limited

#### Report on the Audit of the Standalone Financial Statements

#### Opinion

We have audited the accompanying standalone financial statements of NIIT Limited ("the Company"), which comprise the Balance sheet as at March 31 2023, the Statement of Profit and Loss, including the statement of Other Comprehensive Income, the Cash Flow Statement and the Statement of Changes in Equity for the year then ended, and notes to the standalone financial statements, including a summary of significant accounting policies and other explanatory information.

In our opinion and to the best of our information and according to the explanations given to us, the aforesaid standalone financial statements give the information required by the Companies Act, 2013, as amended ("the Act") in the manner so required and give a true and fair view in conformity with the accounting principles generally accepted in India, of the state of affairs of the Company as at March 31, 2023, its loss including other comprehensive income, its cash flows and the changes in equity for the year ended on that date.

#### Basis for Opinion

We conducted our audit of the standalone financial statements in accordance with the Standards on Auditing (SAs), as specified under section 143(10) of the Act. Our responsibilities under those Standards are further described in the 'Auditor's Responsibilities for the Audit of the Standalone Financial Statements' section of our report. We are independent of the Company in accordance with the 'Code of Ethics' issued by the Institute of Chartered Accountants of India together with the ethical requirements that are relevant to our audit of the financial statements under the provisions of the Act and the Rules thereunder, and we have fulfilled our other ethical responsibilities in accordance with these requirements and the Code of Ethics. We believe that the audit evidence we have obtained is sufficient and appropriate to provide a basis for our audit opinion on the standalone financial statements.

#### Emphasis of Matter- Composite Scheme of Arrangement

We draw attention to Note 38 of the standalone financial statements regarding accounting of demerger of CLG Business Undertaking of the Company into NIIT Learning Systems Limited under the Composite Scheme of Arrangement (the 'Scheme') approved by the National Company Law Tribunal ('NCLT'). In accordance with the provisions of Indian Accounting Standards ("Ind AS") notified under Companies (Indian Accounting Standards) Rules, 2015 as amended, the demerger should have been accounted for from the date of transfer of control. However, the same has been accounted for with effect from appointed date i.e. April 01, 2022, in accordance with the Scheme.

Our opinion is not modified in respect of this matter.

#### Key Audit Matters

Key audit matters are those matters that, in our professional judgment, were of most significance in our audit of the standalone financial statements for the financial year ended March 31, 2023. These matters were addressed in the context of our audit of the standalone financial statements as a whole, and in forming our opinion thereon, and we do not provide a separate opinion on these matters. For each matter below, our description of how our audit addressed the matter is provided in that context

We have determined the matters described below to be the key audit matters to be communicated in our report. We have fulfilled the responsibilities described in the Auditor's responsibilities for the audit of the standalone financial statements section of our report, including in relation to these matters. Accordingly, our audit included the performance of procedures designed to respond to our assessment of the risks of material misstatement of the standalone financial statements. The results of our audit procedures, including the procedures performed to address the matters below, provide the basis for our audit opinion on the accompanying standalone financial statements.

#### Other Information

118

The Company's Board of Directors is responsible for the other information. The other information comprises the information included in the Annual report but does not include the standalone financial statements and our auditor's report thereon.

Our opinion on the standalone financial statements does not cover the other information and we do not express any form of assurance conclusion thereon.

In connection with our audit of the standalone financial statements, our responsibility is to read the other information identified above when it becomes available and, in doing so, consider whether such other information is materially inconsistent with the financial statements or our knowledge obtained in the audit or otherwise appears to be materially misstated.

#### Responsibilities of Management for the Standalone Financial Statements

The Company's Board of Directors is responsible for the matters stated in section 134(5) of the Act with respect to the preparation of these standalone financial statements that give a true and fair view of the financial position, financial performance including other comprehensive income, cash flows and changes in equity of the Company in accordance with the accounting principles generally accepted in India, including the Indian Accounting Standards (Ind AS) specified under section 133 of the Act read with the Companies (Indian Accounting Standards) Rules, 2015, as amended. This responsibility also includes maintenance of adequate accounting records in accordance with the provisions of the Act for safeguarding of the assets of the Company and for preventing and detecting frauds and other irregularities; selection and application of appropriate accounting policies; making judgments and estimates that are reasonable and prudent; and the design, implementation and maintenance of adequate internal financial controls, that were operating effectively for ensuring the accuracy and completeness of the accounting records, relevant to the preparation and presentation of the standalone financial statements that give a true and fair view and are free from material misstatement, whether due to fraud or error.

In preparing the standalone financial statements, management is responsible for assessing the Company's ability to continue as a going concern, disclosing, as applicable, matters related to going concern and using the going concern basis of accounting unless management either intends to liquidate the Company or to cease operations, or has no realistic alternative but to do so.

Those Board of Directors are also responsible for overseeing the Company's financial reporting process.

#### Auditor's Responsibilities for the Audit of the Standalone Financial Statements

Our objectives are to obtain reasonable assurance about whether the standalone financial statements as a whole are free from material misstatement, whether due to fraud or error, and to issue an auditor's report that includes our opinion. Reasonable assurance is a high level of assurance but is not a guarantee that an audit conducted in accordance with SAs will always detect a material misstatement when it exists. Misstatements can arise from fraud or error and are considered material if, individually or in the aggregate, they could reasonably be expected to influence the economic decisions of users taken on the basis of these standalone financial statements.

As part of an audit in accordance with SAs, we exercise professional judgment and maintain professional skepticism throughout the audit. We also:

• Identify and assess the risks of material misstatement of the standalone financial statements, whether due to fraud or error, design and perform audit procedures responsive to those risks, and obtain audit evidence that is sufficient and appropriate to provide a basis for our opinion. The risk of not detecting a material misstatement resulting from fraud is higher than for one resulting from error, as fraud may involve collusion, forgery, intentional omissions, misrepresentations, or the override of internal control.

#### INDEPENDENT AUDITOR'S REPORT

- Obtain an understanding of internal control relevant to the audit in order to design audit procedures that are appropriate in the circumstances. Under section 143(3)(i) of the Act, we are also responsible for expressing our opinion on whether the Company has adequate internal financial controls with reference to financial statements in place and the operating effectiveness of such controls.
- Evaluate the appropriateness of accounting policies used and the reasonableness of accounting estimates and related disclosures made by management.
- Conclude on the appropriateness of management's use of the going concern basis of accounting and, based on the
  audit evidence obtained, whether a material uncertainty exists related to events or conditions that may cast significant
  doubt on the Company's ability to continue as a going concern. If we conclude that a material uncertainty exists, we
  are required to draw attention in our auditor's report to the related disclosures in the financial statements or, if such
  disclosures are inadequate, to modify our opinion. Our conclusions are based on the audit evidence obtained up to
  the date of our auditor's report. However, future events or conditions may cause the Company to cease to continue as
  a going concern.
- Evaluate the overall presentation, structure and content of the standalone financial statements, including the disclosures, and whether the standalone financial statements represent the underlying transactions and events in a manner that achieves fair presentation.

We communicate with those charged with governance regarding, among other matters, the planned scope and timing of the audit and significant audit findings, including any significant deficiencies in internal control that we identify during our audit.

We also provide those charged with governance with a statement that we have complied with relevant ethical requirements regarding independence, and to communicate with them all relationships and other matters that may reasonably be thought to bear on our independence, and where applicable, related safeguards.

From the matters communicated with those charged with governance, we determine those matters that were of most significance in the audit of the standalone financial statements for the financial year ended March 31, 2023 and are therefore the key audit matters. We describe these matters in our auditor's report unless law or regulation precludes public disclosure about the matter or when, in extremely rare circumstances, we determine that a matter should not be communicated in our report because the adverse consequences of doing so would reasonably be expected to outweigh the public interest benefits of such communication.

#### Report on Other Legal and Regulatory Requirements

- 1. As required by the Companies (Auditor's Report) Order, 2020 ("the Order"), issued by the Central Government of India in terms of sub-section (11) of section 143 of the Act, we give in the "Annexure 1" a statement on the matters specified in paragraphs 3 and 4 of the Order.

#### ANNEXURE - 2 TO THE INDEPENDENT AUDITOR'S REPORT OF EVEN DATE ON THE STANDALONE FINANCIAL STATEMENTS OF NIIT LIMTED

# Report on the Internal Financial Controls under Clause (i) of Sub-section 3 of Section 143 of the Companies Act, 2013 ("the Act")

We have audited the internal financial controls with reference to standalone financial statements of NIIT Limited ("the Company") as of March 31, 2023 in conjunction with our audit of the standalone financial statements of the Company for the year ended on that date.

#### Management's Responsibility for Internal Financial Controls

The Company's Management is responsible for establishing and maintaining internal financial controls based on the internal control over financial reporting criteria established by the Company considering the essential components of internal control stated in the Guidance Note on Audit of Internal Financial Controls Over Financial Reporting issued by the Institute of Chartered Accountants of India ("ICAI"). These responsibilities include the design, implementation and maintenance of adequate internal financial controls that were operating effectively for ensuring the orderly and efficient conduct of its business, including adherence to the Company's policies, the safeguarding of its assets, the prevention and detection of frauds and errors, the accuracy and completeness of the accounting records, and the timely preparation of reliable financial information, as required under the Companies Act, 2013.

#### Auditor's Responsibility

124

Our responsibility is to express an opinion on the Company's internal financial controls with reference to these standalone financial statements based on our audit. We conducted our audit in accordance with the Guidance Note on Audit of Internal Financial Controls Over Financial Reporting (the "Guidance Note") and the Standards on Auditing, as specified under section 143(10) of the Act, to the extent applicable to an audit of internal financial controls, both issued by ICAI. Those Standards and the Guidance Note require that we comply with ethical requirements and plan and perform the audit to obtain reasonable assurance about whether adequate internal financial controls with reference to these standalone financial statements was established and maintained and if such controls operated effectively in all material respects.

Our audit involves performing procedures to obtain audit evidence about the adequacy of the internal financial controls with reference to these standalone financial statements and their operating effectiveness. Our audit of internal financial controls with reference to standalone financial statements included obtaining an understanding of internal financial controls with reference to these standalone financial statements, assessing the risk that a material weakness exists, and testing and evaluating the design and operating effectiveness of internal control based on the assessed risk. The procedures selected depend on the auditor's judgement, including the assessment of the risks of material misstatement of the financial statements, whether due to fraud or error.

We believe that the audit evidence we have obtained is sufficient and appropriate to provide a basis for our audit opinion on the Company's internal financial controls with reference to these standalone financial statements.

#### Meaning of Internal Financial Controls With Reference to these Standalone Financial Statements

A company's internal financial controls with reference to standalone financial statements is a process designed to provide reasonable assurance regarding the reliability of financial reporting and the preparation of financial statements for external purposes in accordance with generally accepted accounting principles. A company's internal financial controls with reference to standalone financial statements includes those policies and procedures that (1) pertain to the maintenance of records that, in reasonable detail, accurately and fairly reflect the transactions and dispositions of the assets of the company; (2) provide reasonable assurance that transactions are recorded as necessary to permit preparation of financial statements in accordance with generally accepted accounting principles, and that receipts and expenditures of the company are being made only in accordance with authorisations of management and directors of the company; and (3) provide reasonable assurance regarding prevention or timely detection of unauthorised acquisition, use, or disposition of the company's assets that could have a material effect on the financial statements.

#### Inherent Limitations of Internal Financial Controls With Reference to Standalone Financial Statements

Because of the inherent limitations of internal financial controls with reference to standalone financial statements, including the possibility of collusion or improper management override of controls, material misstatements due to error or fraud may occur and not be detected. Also, projections of any evaluation of the internal financial controls with reference to standalone financial statements to future periods are subject to the risk that the internal financial control with reference to standalone financial statements may become inadequate because of changes in conditions, or that the degree of compliance with the policies or procedures may deteriorate.

#### ANNEXURE - 2 TO THE INDEPENDENT AUDITOR'S REPORT OF EVEN DATE ON THE STANDALONE FINANCIAL STATEMENTS OF NIIT LIMTED (Contd...)

#### Opinion

In our opinion, the Company has, in all material respects, adequate internal financial controls with reference to standalone financial statements and such internal financial controls with reference to standalone financial statements were operating effectively as at March 31, 2023, based on the internal control over financial reporting criteria established by the Company considering the essential components of internal control stated in the Guidance Note issued by the ICAI.

#### Notes to the Standalone Financial Statements for the year ended March 31, 2023

#### 1 Company Information

NIIT Limited ('the Company') is a talent development Company which was set up in 1981. NIIT Limited currently offers learning and knowledge solutions across the globe to individuals, enterprises and various institutions. The Company is a public listed Company and is listed on Bombay Stock Exchange (BSE) and the National Stock Exchange (NSE). The current registered place of business of the Company is : Plot No. 85, Sector - 32, Institutional Area, Gurugram - 122001 (Haryana) India.

During the previous year the Company's registered office was shifted to Plot No. 85, Sector - 32, Institutional Area, Gurugram - 122001 (Haryana) India, w.e.f. November 5, 2021, pursuant to the approval of Regional Director, Northern Region, Ministry of Corporate Affairs, New Delhi.

#### 2 Significant Accounting Policies

This note provides a list of the significant accounting policies adopted in the preparation of these financial statements. These policies have been consistently applied to all the years presented, unless otherwise stated.

#### 2.a) Basis of preparation

#### (i) Compliance with Ind AS

These financial statements ('financial statements') have been prepared in accordance with the Indian Accounting Standard ('Ind AS') notified under section 133 of the Companies Act, 2013, read with the Companies (Indian Accounting Standards) Rules as amended from time to time by the Ministry of Corporate Affairs ('MCA').

The financial statements are based on the classification provisions contained in Ind AS 1, 'Presentation of Financial Statements' and division II of schedule III of the Companies Act 2013. Further, for the purpose of clarity, various items are aggregated in the statement of profit and loss and balance sheet. Nonetheless, these items are dis-aggregated separately in the notes to the financial statements, where applicable or required. All the amounts included in the financial statements are reported in millions of Indian Rupees ('Rupees' or 'Rs.') and are rounded to the nearest Million with two decimals, except per share data and unless stated otherwise.

The financial statements were authorised for issue by the Board of Directors of the Company on May 29, 2023.

#### (ii) Basis of measurement

The financial statements have been prepared on a historical cost basis, except for the following:

- Financial assets and liabilities (including derivative instruments) are measured at fair value or amortised cost
- Defined benefit plans plan assets measured at fair value
- Share-based payments (ESOP's) are measured at fair value

#### b) Foreign currency translation

#### (i) Functional and presentation currency

Items included in the financial statements are measured using the currency of the primary economic environment in which the entity operates ('the functional currency'). The financial statements are presented in Indian rupee (Rs.), which is the Company's functional and presentation currency.

#### (ii) Transactions and balances

Foreign currency transactions are translated into the functional currency using the exchange rates at the dates of the transactions. Foreign exchange gains and losses resulting from the settlement of such transactions and from the translation of monetary assets and liabilities denominated in foreign currencies at period end exchange rates are generally recognised in the Statement of Profit or Loss. They are deferred in equity if they relate to qualifying cash flow hedges.

Foreign exchange differences regarded as an adjustment to borrowing costs are presented in the statement of profit and loss, within finance costs. All other foreign exchange gains and losses are presented in the Statement of Profit and Loss on a net basis within other gains/ (losses).

Non-monetary items that are measured at fair value in a foreign currency are translated using the exchange rates at the date when the fair value was determined.

#### c) Current and non-current classification

Assets and liabilities are classified into current and non-current as follows :

#### Assets

An asset is classified as current when it satisfies any of the following criteria:

• it is expected to be realised in, or is intended for sale or consumption in, the Company's normal operating cycle;

- it is held primarily for the purpose of being traded;
- it is expected to be realised within 12 months after the reporting period; or
- it is cash or cash equivalent unless it is restricted from being exchanged or used to settle a liability for at least 12 months after the reporting period.

Current assets include the current portion of non-current financial assets. All other assets (including deferred tax assets) are classified as non-current.

#### Liabilities

A liability is classified as current when it satisfies any of the following criteria:

- it is expected to be settled in the Company's normal operating cycle;
- it is held primarily for the purpose of being traded;
- it is due to be settled within 12 months after the reporting period; or
- the Company does not have an unconditional right to defer settlement of the liability for at least 12 months after the reporting period. Terms of a liability that could, at the option of the counterparty, result in its settlement by the issue of equity instruments do not affect its classification.

Current liabilities include the current portion of non-current financial liabilities. All other liabilities (including deferred tax liabilities) are classified as non-current.

#### Operating cycle

The operating cycle is the time between the acquisition of assets for processing and their realisation in cash or cash equivalents. Based on the nature of operations and the time between the acquisition of assets for processing and their realisation in cash and cash equivalents, the Company has ascertained its operating cycle being a period of 12 months for the purpose of classification of assets and liabilities as current and non-current.

#### d) Revenue recognition

132

Revenue is measured at the fair value of the consideration received or receivable. Amounts disclosed as revenue are net of returns, trade allowances, rebates, discounts and taxes.

When two or more revenue generating activities or deliverables are provided under a single arrangement, each deliverable that is considered to be a separate deliverable is accounted separately. Where the contracts include multiple performance obligations, the transaction price is allocated to each performance obligation based on the standalone selling prices. Where the standalone selling prices are not directly observable, these are estimated based on expected cost plus margin or residual method to allocate the total transaction price. In cases of residual method, the standalone selling prices of other goods or services promised in the contract.

Services are provided under time and material contracts and fixed price contracts. Revenue from providing services is recognised over a period of time in the accounting period in which services are rendered. The revenue from time and material contracts is recognised at the amount to which the Company has right to invoice.

In respect of fixed price contracts, revenue is recognised based on the technical evaluation of utilization of services as per the proportionate completion method when no significant uncertainty exists regarding the amount of consideration that will be determined from rendering the service. The customer pays the fixed amount based on a payment schedule. If the services rendered by the Company exceed the payment, a contract asset is recognised. If the payment exceed the services rendered, a contract liability is recognised. Revenue from training is recognised over the period of delivery. The foreseeable losses on completion of contract, if any, are provided for.

Estimates of revenues, costs or extent of progress towards completion are revised if circumstances change. Any resulting increase or decrease in estimated revenues or costs are reflected in profit or loss in the period in which the circumstances that give rise to the revision become known to management.

On certain contracts, where the Company acts as agent, only commission and fees receivable for services rendered are recognised as revenue. Any third party costs incurred on behalf of the principal that are rechargeable under the contractual arrangement are not included in revenue.

Revenue in respect of sale of courseware and other physical deliverables is recognised at a point in time when these are delivered, the legal title is passed and the customer has accepted the courseware and other physical deliverables.

In other cases, where courseware is not considered a separate component under a contract, revenue from the composite course is recognised over the period of the training or the contract period, depending upon the terms and conditions.

133

#### Notes to the Standalone Financial Statements for the year ended March 31, 2023 Contd...

Revenue for providing Technical Information and Reference Material (TIRM) to the business partners is recognised over the period of the contract.

#### e) Other Income

#### (i) Interest income

Interest income from debt instruments is recognised using the effective interest rate method. The effective interest rate is the rate that exactly discounts estimated future cash receipts through the expected life of the financial asset to the gross carrying amount of a financial asset. When calculating the effective interest rate, the Company estimates the expected cash flows by considering all the contractual terms of the financial instrument (for example, prepayment, extension, call and similar options) but does not consider the expected credit losses.

#### (ii) Dividend income

It is recognised when the right to receive dividend is established.

#### f) Segment reporting

Operating segments are reported in a manner consistent with the internal reporting provided to the Chief Operating Decision Maker (CODM).

The CEO & CFO of the Company are considered as chief operating decision makers who assess the financial performance and position of the Company, and make strategic decisions.

#### g) Income taxes

Income tax expense comprises current tax expense and the net change in the deferred tax asset or liability during the year. Current and deferred taxes are recognised in statement of profit and loss, except when they relate to items that are recognised in other comprehensive income or directly in equity, in which case, the current and deferred tax are also recognised in other comprehensive income or directly in equity, respectively.

#### Current income taxes

The current income tax expense includes income taxes payable by the Company. The current tax payable by the Company in India is Indian income tax payable on worldwide income after taking credit for tax relief available.

Advance taxes and provisions for current income taxes are presented in the balance sheet after off-setting advance tax paid and income tax provision.

#### Deferred income taxes

Deferred income tax is provided in full, using the liability method, on temporary differences arising between the tax bases of assets and liabilities and their carrying amounts in the financial statements. Deferred income tax is determined using tax rates (and laws) that have been enacted or substantially enacted by the end of the reporting period and are expected to apply when the related deferred income tax asset is realised or the deferred income tax liability is settled.

Deferred tax assets are recognised for all deductible temporary differences and unused tax losses only if it is probable that future taxable amounts will be available to utilise those temporary differences and losses.

#### h) Leases

A contract is, or contains, a lease if the contract conveys the right to control the use of an identified asset for a period of time in exchange for consideration.

#### (a) Company as a lessee

The Company accounts for each lease component within the contract as a lease separately from non-lease components of the contract and allocates the consideration in the contract to each lease component on the basis of the relative standalone price of the lease component and the aggregate standalone price of the non-lease components.

The Company recognises right-of-use asset representing its right to use the underlying asset for the lease term at the lease commencement date. The cost of the right-of-use asset measured at inception shall comprise of the amount of the initial measurement of the lease liability adjusted for any lease payments made at or before the commencement date less any lease incentives received, plus any initial direct costs incurred and an estimate of costs to be incurred by the lessee in dismantling and removing the underlying asset or restoring the underlying asset or site on which it is located. The right-of-use assets is subsequently measured at cost less any accumulated depreciation, accumulated impairment losses, if any and adjusted for any remeasurement of the lease liability. The right-of-use assets is depreciated using the straight-line method from the commencement date over the shorter of lease term or useful life of right-of-use assets. The estimated useful lives of right-of use assets are determined on the same basis as those of property, plant and equipment. Right-of-use assets are tested for impairment whenever there is any indication that their carrying amounts may not be recoverable. Impairment loss, if any, is recognised in the statement of profit and loss.

#### b) Company as a lessor

At the inception of the lease the Company classifies each of its leases as either an operating lease or a finance lease. The Company recognises lease payments received under operating leases as income on a straight-line basis over the lease term. In case of a finance lease, finance income is recognised over the lease term based on a pattern reflecting a constant periodic rate of return on the lessor's net investment in the lease. When the Company is an intermediate lessor it accounts for its interests in the head lease and the sub-lease separately. It assesses the lease classification of a sub-lease with reference to the right-of-use asset arising from the head lease, not with reference to the underlying asset. If a head lease is a short term lease to which the Company applies the exemption described above, then it classifies the sub-lease as an operating lease.

If an arrangement contains lease and non-lease components, the Company applies Ind AS 115 Revenue from contracts with customers to allocate the consideration in the contract.

#### i) Business Combinations

134

Business combinations are accounted for using the acquisition method. The cost of an acquisition is measured as the aggregate of the consideration transferred measured at acquisition date fair value and the amount of any noncontrolling interests in the acquiree. For each business combination, the Company elects whether to measure the noncontrolling interests in the acquiree at fair value or at the proportionate share of the acquiree's identifiable net assets. Acquisition-related costs are expensed as incurred.

At the acquisition date, the identifiable assets acquired and the liabilities assumed are recognised at their acquisition date fair values. For this purpose, the liabilities assumed include contingent liabilities representing present obligation and they are measured at their acquisition fair values irrespective of the fact that outflow of resources embodying economic benefits is not probable.

Goodwill is initially measured at cost, being the excess of the aggregate of the consideration transferred and the amount recognised for non-controlling interests, and any previous interest held, over the net identifiable assets acquired and liabilities assumed.

After initial recognition, goodwill is measured at cost less any accumulated impairment losses. For the purpose of impairment testing, goodwill acquired in a business combination is, from the acquisition date, allocated to each of the Company's cash-generating units that are expected to benefit from the combination, irrespective of whether other assets or liabilities of the acquiree are assigned to those units.

Where settlement of any part of cash consideration is deferred, the amounts payable in the future are discounted to their present value as on the acquisition date. The discount rate used is the entity's incremental borrowing rate, being the rate at which a similar borrowing could be obtained from an independent financier under comparable terms and conditions.

If the business combination is achieved in stages, the acquisition date carrying value of the acquirer's previously held equity interest in the acquiree is remeasured to fair value at the acquisition date. Any gains or losses arising from such remeasurement are recognised in profit or loss or other comprehensive income, as appropriate. If the initial accounting for a business combination is incomplete by the end of the reporting period in which the combination occurs, the Company reports provisional amounts for the items for which the accounting is incomplete. Those provisional amounts are adjusted through goodwill during the measurement period, or additional assets or liabilities are recognised, to reflect new information obtained about facts and circumstances that existed at the acquisition date that, if known, would have affected the amounts recognised at that date. These adjustments are called as measurement period adjustments. The measurement period does not exceed one year from the acquisition date.

When the consideration transferred by the Company in a business combination includes a contingent consideration arrangement, the contingent consideration is measured at its acquisition-date fair value and included as part of the consideration transferred in a business combination. Changes in fair value of the contingent consideration that qualify as measurement period adjustments are adjusted retrospectively, with corresponding adjustments against Goodwill/capital reserve. Measurement period adjustments are adjustments that arise from additional information obtained during the 'measurement period' (which cannot exceed one year from the acquisition date) about facts and circumstances that existed at the acquisition date.

The subsequent accounting for changes in the fair value of the contingent consideration that do not qualify as measurement period adjustments depends on how the contingent consideration is classified. Contingent consideration that is classified as equity is not remeasured at subsequent reporting dates and its subsequent settlement is accounted for within equity. Other contingent consideration is remeasured to fair value at subsequent reporting dates with changes in fair value recognised in profit or loss.

#### i) Investments and other financial assets

#### (i) Classification

The Company classifies its financial assets in the following measurement categories:

- those to be measured subsequently at fair value (either through other comprehensive income, or through profit or loss), or
- those measured at amortised cost.

The classification depends on the Company's business model for managing the financial assets and the contractual terms of the cash flows.

For assets measured at fair value, gains and losses will either be recorded in profit or loss or other comprehensive income. For investments in debt instruments, this will depend on the business model in which the investment is held. For investments in equity instruments, this will depend on whether the Company has made an irrevocable election at the time of initial recognition to account for the equity investment at fair value through other comprehensive income.

The Company reclassifies debt investments when and only when its business model for managing those assets changes.

#### (ii) Measurement

At initial recognition, the Company measures a financial asset at its fair value plus, in the case of a financial asset not at fair value through profit or loss, transaction costs that are directly attributable to the acquisition of the financial asset. Transaction costs of financial assets carried at fair value through profit or loss are expensed in profit or loss. Financial assets with embedded derivatives are considered in their entirety when determining whether their cash flows are solely payment of principal and interest.

#### Debt instruments

Subsequent measurement of debt instruments depends on the Company's business model for managing the asset and the cash flow characteristics of the asset. There are three measurement categories into which the Company classifies its debt instruments:

• Amortised Cost : Assets that are held for collection of contractual cash flows where those cash flows represent solely payments of principal and interest are measured at amortised cost. A gain or loss on a debt investment that is subsequently measured at amortised cost and is not part of a hedging relationship is recognised in profit or loss when the asset is derecognised or impaired. Interest income from these financial assets is included in finance income using the effective interest rate method.

• Fair value through other comprehensive income (FVOCI): Assets that are held for collection of the contractual cash flows and for selling the financial assets, where the asset's cash flow represents solely payments of principal and interest, are measured at fair value through other comprehensive income (FVOCI). Movements in the carrying amount are taken through Other Comprehensive Income (OCI), except for the recognition of impairment gains or losses, interest revenue and foreign exchange gains and losses which are recognised in profit and loss. When the financial asset is derecognised, the cumulative gain or loss previously recognised in OCI is reclassified from equity to profit or loss and recognised in other gains/ (losses). Interest income from these financial assets is included in other income using the effective interest rate method.

• Fair value through profit or loss : Assets that do not meet the criteria for amortised cost or fair value through other comprehensive income (FVOCI) are measured at fair value through profit or loss (FVTPL). A gain or loss on a debt investment that is subsequently measured at fair value through profit or loss and is not part of a hedging relationship is recognised in profit or loss and presented net in the Statement of Profit and Loss within other gains/(losses) in the period in which it arises. Interest income from these financial assets is included in other income.

#### (iii) Impairment of financial assets

The Company recognises a loss allowance for expected credit losses on investments in debt instruments that are measured at amortised cost or at FVOCI, trade receivables and contract assets, financial guarantee contracts, and certain other financial assets measured at amortised cost such as deferred consideration receivable on disposal of subsidiaries. The amount of expected credit losses is updated at each reporting date to reflect changes in credit risk since initial recognition of the respective financial instrument.

The Company recognises lifetime expected credit losses (ECL) for trade receivables and contract assets. The expected credit losses on these financial assets are estimated using a provision matrix based on the Company's historical credit loss experience, adjusted for factors that are specific to the debtors, general economic conditions and an assessment of both the current as well as the forecast direction of conditions at the reporting date, including time value of money where appropriate.

For all other financial instruments, the Company recognises lifetime ECL when there has been a significant increase in credit risk since initial recognition. However, if the credit risk on the financial instrument has not increased significantly since initial recognition, the Company measures the loss allowance for that financial instrument at an amount equal to 12-month ECL.

Lifetime ECL represents the expected credit losses that will result from all possible default events over the expected life of a financial instrument. In contrast, 12-month ECL represents the portion of lifetime ECL that is expected to result from default events on a financial instrument that are possible within 12 months after the reporting date.

#### (iv) Derecognition of financial assets

A financial asset is derecognised only when

- The Company has transferred the rights to receive cash flows from the financial asset or
- retains the contractual rights to receive the cash flows of the financial asset, but assumes a contractual obligation to pay the cash flows to one or more recipients.

Where the entity has transferred an asset, the Company evaluates whether it has transferred substantially all risks and rewards of ownership of the financial asset. In such cases, the financial asset is derecognised. Where the entity has not transferred substantially all risks and rewards of ownership of the financial asset, the financial asset is not derecognised.

Where the entity has neither transferred a financial asset nor retains substantially all risks and rewards of ownership of the financial asset, the financial asset is derecognised if the Company has not retained control of the financial asset. Where the Company retains control of the financial asset, the asset is continued to be recognised to the extent of continuing involvement in the financial asset.

#### k) Cash and cash equivalents

For the purpose of presentation in the statement of cash flows, cash and cash equivalents includes cash on hand, deposits held at call with financial institutions, other short-term, highly liquid investments with original maturities of three months or less that are readily convertible to known amounts of cash and which are subject to an insignificant risk of changes in value. Bank overdrafts are shown as borrowings in current liabilities in the balance sheet.

#### I) Trade receivables

Trade receivables are recognised initially at fair value and subsequently adjusted for expected credit loss using the effective interest method.

#### m) Inventories

Traded goods are stated at the lower of cost or net realisable value. Cost of traded goods comprises cost of purchases and all other costs incurred in bringing the inventories to their present location and condition. Costs are assigned to individual items of inventory on the basis of weighted average method. Costs of purchased inventory are determined after deducting rebates and discounts. Net realisable value is the estimated selling price in the ordinary course of business less the estimated costs of completion and the estimated costs necessary to make the sale.

#### n) Derivatives and hedging activities

Derivatives are initially recognised at fair value on the date a derivative contract is entered into and are subsequently re-measured to their fair value at the end of each reporting period. The accounting for subsequent changes in fair value depends on whether the derivative is designated as a hedging instrument, and if so, the nature of the item being hedged and the type of hedge relationship designated.

For the purpose of hedge accounting, hedges are classified as:

- Fair value hedges when hedging the exposure to changes in the fair value of a recognised asset or liability or an unrecognised firm commitment;
- Cash flow hedges when hedging the exposure to variability in cash flows that is either attributable to a particular risk associated with a recognised asset or liability or a highly probable forecast transaction.

At the inception of a hedge relationship, the Company formally designates and documents the hedge relationship to which the Company wishes to apply hedge accounting and the risk management objective and strategy for undertaking the hedge. The documentation includes the Company's risk management objective and strategy for undertaking hedge, the hedging/ economic relationship, the hedged item or transaction, the nature of the risk being hedged, hedge ratio and how the entity will assess the effectiveness of changes in the hedging instrument's fair value in offsetting the exposure to changes in the hedged item's fair value or cash flows attributable to the hedged risk. Such hedges are expected to be highly effective in achieving offsetting changes in fair value or cash flows and are assessed on an ongoing basis to determine that they actually have been highly effective throughout the financial reporting periods for which they were designated.

137

#### Notes to the Standalone Financial Statements for the year ended March 31, 2023 Contd...

The full fair value of a hedging derivative is classified as a non-current asset or liability when the remaining maturity of the hedged item is more than 12 months; it is classified as a current asset or liability when the remaining maturity of the hedged item is less than 12 months.

#### (i) Cash flow hedges that qualify for hedge accounting

The effective portion of changes in the fair value of derivatives that are designated and qualify as cash flow hedges is recognised in the other comprehensive income in cash flow hedging reserve within equity, limited to the cumulative change in fair value of the hedged item on a present value basis from the inception of the hedge. The gain or loss relating to the ineffective portion is recognised immediately in profit or loss, within other gains/(losses). Forward contracts are used to hedge forecast transactions, the Company generally designates only the change in fair value of the forward contract related to the spot component as the hedging instrument. Gains or losses relating to the effective portion of the change in the spot component of the forward contracts are recognised in other comprehensive income in cash flow hedging reserve within equity. The change in the forward element of the contract that relates to the hedged item ('aligned forward element') is recognised within other comprehensive income in the costs of hedging reserve within equity. In some cases, the entity may designate the full change in fair value of the forward contract (including forward points) as the hedging instrument. In such cases, the gains and losses relating to the effective portion of the change in fair value of the entire forward contract are recognised in the cash flow hedging reserve within equity. Amounts accumulated in equity are reclassified to profit or loss in the periods when the hedged item affects profit or loss (for example, when the forecast sale that is hedged takes place).

When a hedging instrument expires, or is sold or terminated, or when a hedge no longer meets the criteria for hedge accounting, any cumulative deferred gain or loss and deferred costs of hedging in equity at that time remains in equity until the forecast transaction occurs. When the forecast transaction is no longer expected to occur, the cumulative gain or loss and deferred costs of hedging that were reported in equity are immediately reclassified to profit or loss within other gains/(losses). If the hedge ratio for risk management purposes is no longer optimal but the risk management objective remains unchanged and the hedge continues to qualify for hedge accounting, the hedge relationship will be rebalanced by adjusting either the volume of the hedging instrument or the volume of the hedged item so that the hedge ratio aligns with the ratio used for risk management purposes. Any hedge ineffectiveness is calculated and accounted for in profit or loss at the time of the hedge relationship rebalancing.

#### (ii) Fair value hedges

The change in the fair value of a hedging instrument is recognised in the statement of profit and loss. The change in the fair value of the hedged item attributable to the risk hedged is recorded as part of the carrying value of the hedged item and is also recognised in the Statement of Profit and Loss as finance costs.

For fair value hedges relating to items carried at amortised cost, any adjustment to carrying value is amortised through profit or loss over the remaining term of the hedge using the Effective Interest Rate (EIR) method. EIR amortisation may begin as soon as an adjustment exists and no later than when the hedged item ceases to be adjusted for changes in its fair value attributable to the risk being hedged.

If the hedged item is derecognised, the unamortised fair value is recognised immediately in the Statement of Profit and Loss.

#### (iii) Derivatives that are not designated as hedges

The Company enters into certain derivative contracts to hedge risks which are not designated as hedges. Such contracts are accounted for at fair value through profit or loss and are included in other gains/(losses).

#### o) Property, plant and equipment

The Company had applied for the one-time transition exemption of considering the carrying cost on the transition date i.e. April 01, 2016 as the deemed cost under Ind AS, regarded thereafter as historical cost.

Freehold land is carried at historical cost. All other items of property, plant and equipment are stated at historical cost less depreciation. Historical cost includes expenditure that is directly attributable to the acquisition of the items.

Subsequent costs are included in the asset's carrying amount or recognised as a separate asset, as appropriate, only when it is probable that future economic benefits associated with the item will flow to the Company and the cost of the item can be measured reliably. The carrying amount of any component accounted for as a separate asset is derecognised when replaced. All other repairs and maintenance are charged to profit or loss during the reporting period in which they are incurred.

#### Depreciation methods, estimated useful lives and residual value

Depreciation is calculated using the straight-line method to allocate their cost, net of their residual values, over their estimated useful lives as follows:

| Description of Assets                                 | Useful life   |
|---|---|
| Buildings   | 58 years  |
| Leasehold Land  | 99 years or lease period, whichever is lower                  |
| Plant and Equipment including:                        |   |
| - Computers, Printers and related Accessories         | 3 years   |
| - Computer Servers and Networks                       | 5 years   |
| - Electronic Equipments                               | 8 years   |
| - Air Conditioners                                    | 10 years  |
| Office Equipments                                     | 5 years   |
| Furniture & Fixtures                                  | 7 years   |
| Leasehold Improvements                                | 3-5 years or lease period, whichever is lower                 |
| Assets under employee benefits scheme except vehicles | 3 years   |
| All other assets (including vehicles)                 | Lives prescribed under Schedule II to the Companies Act, 2013 |

Freehold land is not depreciated.

Depreciation is provided on a pro-rata basis on the straight-line method over the useful lives of the assets. The depreciation charge for each period is recognised in the Statement of Profit and Loss. The residual values is considered as nil.

The assets' residual values and useful lives are reviewed, and adjusted if appropriate, at the end of each reporting period.

An asset's carrying amount is written down immediately to its recoverable amount if the asset's carrying amount is greater than its estimated recoverable amount.

Gains and losses on disposals are determined by comparing proceeds with carrying amount. These are included in profit or loss within other income/ (expenses).

#### p) Investment property

Property that is held for long-term rental yields or for capital appreciation or both, and that is not occupied by the Company, is classified as investment property. Investment property is measured initially at its cost, including related transaction costs and where applicable borrowing costs. Subsequent expenditure is capitalised to the asset's carrying amount only when it is probable that future economic benefits associated with the expenditure will flow to the Company and the cost of the item can be measured reliably. All other repairs and maintenance costs are expensed when incurred.

An investment property is derecognised upon disposal or when the investment property is permanently withdrawn from use and no future economic benefits are expected from the disposal. Any gain or loss arising on derecognition of the property (calculated as the difference between the net disposal proceeds and the carrying amount of the asset) is included in profit or loss in the period in which the property is derecognised.

#### q) Intangible assets

138

#### Computer software, Educational content/products - Acquired

These Intangible assets are carried at cost less accumulated amortisation and accumulated impairment losses.

#### Education content/products-Internally generated

Expenditure on research activities is recognised as an expense in the period in which it is incurred. Development costs that are directly attributable to the design and testing of identifiable and unique software products controlled by the Company are recognised as intangible assets when the following criteria are met:

- it is technically feasible to complete the development so that it will be available for use;
- management intends to complete the content / products and use or sell it;
- there is an ability to use or sell the content / products;
- it can be demonstrated how the content / products will generate probable future economic benefits;

139

#### Notes to the Standalone Financial Statements for the year ended March 31, 2023 Contd..

- adequate technical, financial and other resources to complete the development and to use or sell the content / products are available, and
- the expenditure attributable to the content / products during its development can be reliably measured.

Directly attributable costs that are capitalised as part of the intangible include employee costs and an appropriate portion of relevant overheads.

Capitalised development costs are recorded as intangible assets and amortised from the point at which the asset is available for use.

#### Goodwill

Goodwill on acquisitions of subsidiaries is included in intangible assets. Goodwill is not amortised but it is tested for impairment annually, or more frequently if events or changes in circumstances indicate that it might be impaired, and is carried at cost less accumulated impairment losses. Gains and losses on the disposal of an entity include the carrying amount of goodwill relating to the entity sold.

#### Amortisation methods and periods

Intangible assets are amortised on a straight line basis over their estimated useful lives which are as follows:

| Particulars                                 | Useful life |
|---|-------------|
| Internally generated (Content and products) | 3-5 years   |
| Acquired (Software, content and products)   | 3-5 years   |

#### r) Impairment testing of goodwill and intangible assets

Goodwill is allocated to cash-generating units for the purpose of impairment testing. The allocation is made to those cash-generating units that are expected to benefit from the business combination in which the goodwill arose. The units are identified at the lowest level at which goodwill is monitored.

Other assets are tested for impairment whenever events or changes in circumstances indicate that the carrying amount may not be recoverable. An impairment loss is recognised for the amount by which the asset's carrying amount exceeds its recoverable amount. The recoverable amount is the higher of an asset's fair value less costs of disposal and value in use. For the purposes of assessing impairment, assets are grouped at the lowest levels for which there are separately identifiable cash inflows which are largely independent of the cash inflows from other assets or groups of assets (cash-generating units).

An impairment loss is reversed if there has been a change in the estimates used to determine the recoverable amount. Such a reversal is made only to the extent that the asset's carrying amount does not exceed the carrying amount that would have been determined, net of depreciation or amortisation, if no impairment loss had been recognised.

#### s) Trade and other payables

These amounts represent liabilities for goods and services provided to the Company prior to the end of financial year which are unpaid. Trade and other payables are presented as current liabilities unless payment is not due within 12 months after the reporting period. They are recognised initially at their fair value and subsequently measured at amortised cost using the effective interest method.

#### t) Borrowings

Borrowings are initially recognised at fair value, net of transaction costs incurred. Borrowings are subsequently measured at amortised cost. Any difference between the proceeds (net of transaction costs) and the redemption amount is recognised in profit or loss over the period of the borrowings using the effective interest method. Fees paid on the establishment of loan facilities are recognised as transaction costs of the loan to the extent that it is probable that some or all of the facility will be drawn down. In this case, the fee is deferred until the draw down occurs. To the extent there is no evidence that it is probable that some or all of the facility will be drawn down, the fee is capitalised as a prepayment for liquidity services and amortised over the period of the facility to which it relates.

Borrowings are derecognised from the balance sheet when the obligation specified in the contract is discharged, cancelled or expired. The difference between the carrying amount of a financial liability that has been extinguished or transferred to another party and the consideration paid, including any non-cash assets transferred or liabilities assumed, is recognised in profit or loss as other gains/(losses).

Borrowings are classified as current liabilities unless the Company has an unconditional right to defer settlement of the liability for at least 12 months after the reporting period. Where there is a breach of a material provision of a long-term loan arrangement on or before the end of the reporting period with the effect that the liability becomes payable on demand on the reporting date, the entity does not classify the liability as current, if the lender agreed, after the reporting period and before the approval of the financial statements for issue, not to demand payment as a consequence of the breach.

#### u) Borrowing costs

General and specific borrowing costs that are directly attributable to the acquisition, construction or production of a qualifying asset are capitalised during the period of time that is required to complete and prepare the asset for its intended use or sale. Qualifying assets are assets that necessarily take a substantial period of time to get ready for their intended use or sale.

Other borrowing costs are expensed in the period in which they are incurred. Borrowing cost includes exchange differences to the extent regarded as an adjustment to the borrowing costs.

#### v) Provisions

Provisions are recognised when the Company has a present legal or constructive obligation as a result of past events, it is probable that an outflow of resources will be required to settle the obligation and the amount can be reliably estimated. Provisions are not recognised for future operating losses.

Where there are a number of similar obligations, the likelihood that an outflow will be required in settlement is determined by considering the class of obligations as a whole. A provision is recognised even if the likelihood of an outflow with respect to any one item included in the same class of obligations may be small.

Provisions are measured at the present value of management's best estimate of the expenditure required to settle the present obligation at the end of the reporting period. The discount rate used to determine the present value is a pre-tax rate that reflects current market assessments of the time value of money and the risks specific to the liability.

Provisions for onerous contracts are recognised when the expected benefits to be derived by the Company from a contract are lower than the unavoidable costs of meeting the future obligations under the contract. The provision is measured at the present value of the lower of the expected cost of terminating the contract and the expected net cost of continuing with the contract. Before a provision is established the Company recognizes any impairment loss on the assets associated with that contract.

#### w) Employee benefits

#### (i) Short-term obligations

Liabilities for wages and salaries, including non-monetary benefits that are expected to be settled wholly within 12 months after the end of the period in which the employees render the related service are recognised in respect of employees' services up to the end of the reporting period and are measured at the amounts expected to be paid when the liabilities are settled. The liabilities are presented as current employee benefit obligations in the balance sheet.

#### (ii) Other long-term employee benefit obligations

The liabilities for earned leave and sick leave are not expected to be settled wholly within 12 months after the end of the period in which the employees render the related service. They are therefore measured as the present value of expected future payments to be made in respect of services provided by employees up to the end of the reporting period using the projected unit credit method. The benefits are discounted using the market yields at the end of the reporting period that have terms approximating to the terms of the related obligation. Remeasurement as a result of experience adjustments and changes in actuarial assumptions are recognised in profit or loss. The obligations are presented as current liabilities in the balance sheet if the entity does not have an unconditional right to defer settlement for at least twelve months after the reporting period, regardless of when the actual settlement is expected to occur.

#### (iii) Post-employment obligations

The Company operates the following post-employment schemes:

- Defined benefit plans such as Gratuity and Compensated Absences.

- Defined contribution plan such as Provident fund, Superannuation Fund, Pension fund and National Pension system.

#### Gratuity

140

The liability or asset recognised in the balance sheet in respect of defined benefit gratuity plans is the present value of the defined benefit obligation at the end of the reporting period less the fair value of plan assets. The defined benefit obligation is calculated annually by actuaries using the projected unit credit method.

The present value of the defined benefit obligation denominated in Rs. is determined by discounting the estimated future cash outflows by reference to market yields at the end of the reporting period on government bonds that have terms approximating to the terms of the related obligation.

The net interest cost is calculated by applying the discount rate to the net balance of the defined benefit obligation and the fair value of plan assets. This cost is included in employee benefit expense in the Statement of Profit and Loss.

141

#### Notes to the Standalone Financial Statements for the year ended March 31, 2023 Contd..

Remeasurement gains and losses arising from experience adjustments and changes in actuarial assumptions are recognised in the period in which they occur, directly in other comprehensive income. They are included in retained earnings in the Statement of Changes in Equity and in the balance sheet.

Changes in the present value of the defined benefit obligation resulting from plan amendments or curtailments are recognised immediately in profit or loss as past service cost.

#### Compensated absences

Liability in respect of compensated absences is provided for both encashable leave and those expected to be availed. The Company has defined benefit plans for compensated absences for employees, the liability for which is determined on the basis of an actuarial valuation at the end of the year using projected unit credit method. Any gain or loss arising out of such valuation is recognised in the Statement of Profit and Loss as income or expense as the case may be.

Accumulated compensated absences, which are expected to be availed within twelve months from the end of the year are treated as short term employee benefits. The obligation towards the same is measured at the expected undiscounted cost of accumulated compensated absences expected to be availed based on the unutilised entitlement at the year end.

#### **Provident fund**

The Company makes contribution to the "NIIT Limited Employees' Provident Fund Trust" for certain entities in India, which is a defined benefit plan to the extent that the Company has an obligation to make good the shortfall, if any, between the return from the investments of the trust and the notified interest rate. The Company's obligation in this regard is actuarially determined using projected unit credit method and provided for if the circumstances indicate that the Trust may not be able to generate adequate returns to cover the interest rates notified by the Government.

The Company's contribution towards Provident Fund is charged to Statement of Profit and Loss.

#### Superannuation fund

The Company makes defined contribution to the Trust established for the purpose by the Company towards superannuation fund maintained with Life Insurance Corporation of India. The Company has no further obligations beyond its monthly contributions. Contribution made during the year is charged to Statement of Profit and Loss.

#### Pension Fund

The Company makes defined contribution to a government administered pension fund towards it's pension plan on behalf of its employees. The Company has no further obligations beyond its monthly contributions. The contribution towards Employee Pension Scheme is charged to Statement of Profit and Loss.

#### National Pension System

The Company makes defined contribution towards National Pension System for certain employees for which Company has no further obligation. Contributions made during the year are charged to Statement of Profit and Loss.

#### x) Share based payments - Employee stock option plan (ESOP)

The Company operates equity settled employee share based employee settled plan. The fair value of options granted under the 'NIIT Employee Stock Option Plan 2005' is recognised as an employee benefits expense with a corresponding increase in equity. The total amount to be expensed is determined by reference to the fair value of the options granted:

- including any market performance conditions (e.g., the entity's share price)
- excluding the impact of any service and non-market performance vesting conditions (e.g. profitability, sales growth targets and remaining an employee of the entity over a specified time period), and
- including the impact of any non-vesting conditions (e.g. the requirement for employees to save or holdings shares for a specific period of time).

The total expense is recognised over the vesting period, which is the period over which all of the specified vesting conditions are to be satisfied. At the end of each period, the entity revises its estimates of the number of options that are expected to vest based on the non-market vesting and service conditions. It recognises the impact of the revision to original estimates, if any, in profit or loss, with a corresponding adjustment to equity.

#### y) Share capital

#### Equity share capital

Issuance of ordinary shares are recognised as equity share capital in equity. Incremental costs directly attributable to the issuance of new equity shares are recognised as a deduction from equity, net of any tax effects.

#### z) Dividends

The final dividend on shares is recorded as a liability on the date of approval by the shareholders and interim dividends are recorded as a liability on the date of declaration by the Company's Board of Directors.

The Company declares and pays dividends in Indian rupees. Companies are required to pay/distribute dividend after deducting applicable taxes. The remittance of dividends outside India is governed by Indian law on foreign exchange and is also subject to withholding tax at applicable rates.

#### aa) Earnings per share

#### (i) Basic earnings per share

Basic earnings per share is calculated by dividing the profit attributable to owners of the Company by the weighted average number of equity shares outstanding during the financial year.

#### (ii) Diluted earnings per share

Diluted earnings per share adjusts the figures used in the determination of basic earnings per share to take into account: • the after income tax effect of interest and other financing costs associated with dilutive potential equity shares, and

the weighted average number of additional equity shares that would have been outstanding assuming the conversion

of all dilutive potential equity shares.

#### ab) Fair value measurement

Fair value is the price that would be received to sell an asset or paid to transfer a liability in an orderly transaction between market participants at the measurement date. The fair value measurement is based on the presumption that the transaction to sell the asset or transfer the liability takes place either:

- In the principal market for the asset or liability, or
- In the absence of a principal market, in the most advantageous market for the asset or liability.

The principal or the most advantageous market must be accessible to/ by the Company.

All assets and liabilities for which fair value is measured or disclosed in the financial statements are categorised within the fair value hierarchy, described as follows, based on the lowest level input that is significant to the fair value measurement as a whole:

**Level 1**: Level 1 hierarchy includes financial instruments measured using quoted prices. This includes listed equity instruments, traded bonds and mutual funds that have quoted price. The fair value of all equity instruments (including bonds) which are traded in the stock exchanges is valued using the closing price as at the reporting period. The mutual funds are valued using the closing net asset value.

Level 2: The fair value of financial instruments that are not traded in an active market (for example foreign exchange forward contracts) is determined using valuation techniques which maximize the use of observable market data and rely as little as possible on entity-specific estimates. If all significant inputs required to fair value an instrument are observable, the instrument is included in level 2.

**Level 3**: If one or more of the significant inputs is not based on observable market data, the instrument is included in level 3. This is the case for unlisted equity securities, contingent consideration and indemnification asset included in level 3.

For assets and liabilities that are recognised in the financial statements on a recurring basis, the Company determines whether transfers have occurred between levels in the hierarchy by reassessing categorisation (based on the lowest level input that is significant to the fair value measurement as a whole) at the end of each reporting period.

For the purpose of fair value disclosures, the Company has determined classes of assets and liabilities on the basis of the nature, characteristics and risks of the asset or liability and the level of the fair value hierarchy as explained above.

The Company measures financial instruments, such as, investments (other than investment in subsidiaries), at fair value at each reporting date.

#### ac) Critical accounting estimates and judgements

142

In preparing these financial statements, management has made judgements, estimates and assumptions that affect the application of accounting policies and the reported amounts of assets, liabilities, income and expenses. Actual results may differ from these estimates.

Estimates and underlying assumptions are reviewed on an ongoing basis. Revisions to accounting estimates are recognised prospectively.

Information about significant areas of estimation/uncertainty and judgements in applying accounting policies that have the most significant effect on the financial statements are as follows:

- measurement of defined benefit obligations: key actuarial assumptions refer notes 2w and 26.
- measurement of useful life and residual values of property, plant and equipment -refer note 20 and 3.

- judgement required to determine grant date fair value technique -refer notes 2x and 27.
- fair value measurement of financial instruments refer notes 2ab and 28.
- judgement required to determine probability of recognition of deferred tax assets refer note 2g.

There are no assumptions and estimation uncertainties that have a significant risk of resulting in a material adjustment within the next financial year.

#### ad) Exceptional items

Exceptional items refer to items of income or expense within the income statement that are of such size, nature or incidence that their separate disclosure is considered necessary to explain the performance for the period.

Materiality threshold can be used to select items to be disclosed as exceptional on case to case basis. This threshold would be applied separately for standalone as well as consolidated financial statements. However, in case an item qualifies for disclosure in standalone financial statements but not in consolidated financial statements or vice versa, this would need to be evaluated on case to case basis.

#### Basis the above analysis, mainly following items would be evaluated for disclosure as exceptional items:

- a) Business Combination: Impact of one-time accounting policy alignment / unusual write off / impairment of assets arising as a result of business combination, including transaction cost.
- b) Fair valuation gains on business combination.
- c) Reassessment / Change in life of asset (in case of re-evaluation of business/product, impact of all assets specific to that business/product to be considered for applying the threshold).
- d) Disputed regulatory / tax levies including tax rate change having retrospective impact (other than impact on account of restatement of deferred tax asset / liability for tax rate change) only impact for the past periods to be disclosed as exceptional.
- e) Provision for other than temporary diminution in the value of non-current investment.
- f) Shareholders' dispute settlement arising out of merger / acquisition transactions.
- g) Write-downs of inventories to net realisable value or of property, plant and equipment to recoverable amount, as well as reversals of such write-downs.
- h) Restructurings of the activities of an entity and reversals of any provisions for the costs of restructuring.

In case of other significant item of income or expense, not covered above, the same would be evaluated on a case to case basis for disclosure under exceptional items.

#### ae) Non-current assets held for sale and discontinued operations

Non-current assets (or disposal Company) are classified as held for sale if their carrying amount will be recovered principally through a sale transaction rather than through continuing use and a sale is considered highly probable. They are measured at the lower of their carrying amount and fair value less cost to sell, except for assets such as deferred tax assets, assets arising from employee benefits, financial assets and contractual rights under insurance contracts, which are specifically exempt from this requirement.

An impairment loss is recognised for any initial or subsequent write-down of the asset (or disposal Company) to fair value less costs to sell. A gain is recognised for any subsequent increase in fair value less costs sell of an asset (or disposal Company), but not in excess of any cumulative impairment loss previously recognised. A gain or loss not previously recognised by the date of the sale of the non-current asset (or disposal Company) is recognised at the date of derecognition.

Non-current assets (including those that are part of a disposal Company) are not depreciated or amortised while they are classified as held for sale. Interest and other expenses attributable to the liabilities of a disposal Company classified as held for sale continue to recognised.

Non-current assets classified as held for sale and the assets of a disposal Company classified as held for sale are presented separately from the other assets in balance sheet. The liabilities of a disposal Company classified as held for sale are presented separately from other liabilities in balance sheet.

A discontinued operations is a component of the entity that has been disposed off or is classified as held for sale and that represents a separate major line of business or geographical area of operations, is part of a single co-ordinated plan to dispose off such a line of business or area of operations, or is a subsidiary acquired exclusively with a view to resale. The results of discontinued operations are presented separately in the statement of profit and loss.

\* Paid up share capital includes Rs. 0.01 Million originally paid up towards 6,000 forfeited shares.

#During the previous year, the Company had concluded the buyback of 9,875,000 equity shares at a price of Rs. 240 per equity share ("Buyback") as approved earlier by the Board of Directors on December 24, 2020. Buyback was completed on May 7, 2021 and the equity shares bought back were extinguished on May 11, 2021. Total outflow of Rs. 2,370 Million had been utilised from the share capital, securities premium account and retained earnings, in line with the requirement under the Companies Act 2013. Further tax on Buyback and Buyback related expenses amounting to Rs. 552.12 Million and in March 31, 2022: Rs. 15.12 Million (March 31, 2021: Rs. 16.57 Million) respectively have also been utilised from retained earnings. Additionally, Capital Redemption Reserve of Rs. 19.75 Million (equivalent to nominal value of the equity shares bought back) had been created out of retained earnings, in line with the requirement under the Companies Act 2013. Consequent to extinguishment of shares so bought back, the paid-up equity share capital had been reduced by Rs. 19.75 Million (Refer note 13).

#### c) Terms / rights attached to equity shares

The Company has only one class of equity shares having par value of Rs. 2 per share. Each holder of equity shares is entitled to one vote per share. The Company declares and pays dividends in Indian rupees. The dividend (excluding interim dividend) proposed by the Board of Directors, if any, is subject to the approval of the shareholders in the ensuing Annual General Meeting. In the event of liquidation of the Company, the holders of equity shares will be entitled to receive remaining assets of the Company, after distribution of all preferential amounts. The distribution will be in proportion to the number of equity shares held by the shareholders.

#### Footnotes:

(i) Capital reserve represents the reserve created on Amalgamation and Business Combinations.

(ii) The amount represents the additional amount shareholders paid for their issued shares that was in excess of the par value of those shares. The same can be utilised for the items specified under section 52 of Companies Act, 2013.

- (iii) During the year, the Company has transferred employee stock option outstanding of Rs. 0.12 Million (Previous year Rs. 2.36 Million) to retained earnings on account of lapse of vested options.
- (iv) As per Companies Act, 2013, capital redemption reserve is created when Company purchases its own shares out of free reserves or security premium. A sum equal to the nominal value of shares so purchased is transferred to capital redemption reserve. The reserve can be utilised in accordance with the provisions of Section 69 of Companies Act, 2013.

(v) The Company uses hedging instruments as part of its management of foreign currency risk associated with its highly probable forecasted transactions, i.e., revenue, as described in Note 29. The Company uses Foreign Currency Forward Contracts which are designated as Cash Flow Hedges for hedging foreign currency risk. To the extent these hedges are effective, the change in fair value of the hedging instrument is recognised in the Cash Flow Hedging Reserve. Amount recognised in the Cash Flow Hedging Reserve is reclassified to profit or loss when the hedged item effects profit and loss, i.e., Revenue.

\* There are numerous interpretative issues relating to the Supreme Court (SC) judgement on Provident fund dated February 28, 2019. As a matter of caution, the Company has implemented the provisions on a prospective basis from the date of the SC order. The Company will assess its position, on receiving further clarity on the subject.

#### B) Defined Benefit Plans

#### I. Provident Fund

The Company makes contribution to the "NIIT LIMITED EMPLOYEES' PROVIDENT FUND TRUST" ("the Trust"). The Company contributed Rs. 20.27 Million (Previous year Rs. 16.97 Million) including Rs. 0.66 Million (Previous year Rs. 3.12 Million) in respect of Key Management personnel during the year to the Trust. The same has been recognised in the statement of profit and loss under the head employee benefit expenses. The Company contributed Rs. 0.16 Million (Previous year Rs. 37.31 Million) to the trust. The same has been recognised in the statement of profit and loss from discontinued operations.

The Company has an obligation to make good the shortfall, if any, between the return from the investments of the Trust and the notified interest rate. The Company's obligation in this regard is actuarially determined and provided for if the circumstances indicate that the Trust may not be able to generate adequate returns to cover the interest rates notified by the Government.

The guidance on implementing Ind AS 19 Employee Benefits, issued by Accounting Standards Board (ASB) of The Institute of Chartered Accountants of India, states that benefits involving employer established provident fund trust, which require interest shortfall to be compensated by the employer is required to be considered as Defined Benefits Plans. The actuary has provided a valuation and based on the below mentioned assumptions, determined that there is no short fall as at March 31, 2023.

Each year, the board of trustees reviews the level of funding in the provident fund plan. Such a review includes the assets-liability matching strategy and investment risk management policy. This includes employing the use of annuities and longevity swaps to manage the risks. The board of trustees decides its contribution based on the result of this annual review.

#### vii) Investment details of Plan Assets:-

The plan assets are maintained with Life Insurance Corporation of India Gratuity Scheme. The details of investment maintained by Life Insurance Corporation are not available with the Company and have not been disclosed.

The expected return on plan assets is determined considering several applicable factors mainly the compensation of plan assets held, assessed risk of asset management, historical result of the return on plan assets.

#### Sensitivity analysis

The sensitivity of the defined benefit obligation to changes in the weighted principal assumptions is:

|                    | Imj                  | Impact on defined benefit obligation                        |                |  |  |  |  |  |

The above sensitivity analyses are based on a change in an assumption while holding all other assumptions constant. In practice, this is unlikely to occur, and changes in some of the assumptions may be correlated. When calculating the sensitivity of the defined benefit obligation to significant actuarial assumptions the same method (present value of the defined benefit obligation calculated with the projected unit credit method at the end of the reporting period) has been applied for calculating the defined benefit liability recognised in the balance sheet.

#### (All Amount in Rs. Millions, unless otherwise stated)

#### Risk exposure

Through its defined benefit plans, the Company is exposed to a number of risks, the most significant of which are market volatility, changes in inflation, changes in interest rates, rising longevity, changing economic environment, regulatory changes etc. The Company ensures that the investment positions are managed within an asset-liability matching framework that has been developed to achieve investments which are in line with the obligations under the employee benefit plans. Within this framework, the Company's asset-liability matching objective is to match assets to the obligations by investing in securities to match the benefit payments as they fall due. The Company actively monitors how the duration and the expected yield of the investments are matching the expected cash outflows arising from employee benefit obligations. The Company has not changed the processes used to manage its risks from previous periods. Investments are well diversified, such that failure of any single investment should not have a material impact on the overall level of assets.

#### 27 Share Based Payments (Refer note 38)

#### (a) Employee option plan

During the year 2005-06, the Company had established NIIT Employee Stock Option Plan 2005 "ESOP 2005" and the same was approved at the General Meeting of the Company held on May 18, 2005. The plan was set up so as to offer and grant, for the benefit of employees (excluding promoters) of the Company, who are eligible under "Securities and Exchange Board of India (SEBI) (Employee Stock Option Scheme and Employee Stock Purchase Scheme) Guidelines, 1999", options of the Company in one or more tranches, and on such terms and conditions as may be fixed or determined by the Board, in accordance with the provisions of law or guidelines issued by the relevant authorities in this regard.

As per the plan, each option is exercisable for one equity share of face value of Rs. 2 each (Rs. 10 each pre bonus and split) fully paid up on payment to the Company, at a price to be determined in accordance with ESOP 2005. ESOP information is given for the number of shares after sub-division and Bonus issue.

Pursuant to Scheme of the Arrangement, with respect to the stock options granted already by the Transferor Company prior to the Effective Date to its employees or that of its subsidiaries (irrespective of whether they are employees of the Transferor Company or its subsidiaries or become employees of the Transferee Company or its subsidiaries pursuant to this Scheme) under the Existing ESOP Scheme, and upon the Scheme becoming effective, all such option holders (whether the options granted to such option holders are vested or not) shall also be issued the stock options by the Transferee Company under the New ESOP Scheme, in accordance with the share entitlement ratio of 1:1 as per the Scheme.

#### 28 Fair value measurements

#### (i) Fair value hierarchy

168

To provide indication about the reliability of the inputs used in determining fair value, the Company has classified its financial instruments into the three levels prescribed under the accounting standard explained below:

**Level 1**: Level 1 hierarchy includes financial instruments measured using quoted prices. This includes listed equity instruments, traded bonds and mutual funds that have quoted price. The fair value of all equity instruments (including bonds) which are traded in the stock exchanges is valued using the closing price as at the reporting period. The mutual funds are valued using the closing net asset value.

**Level 2**: The fair value of financial instruments that are not traded in an active market (for example foreign exchange forward contracts) is determined using valuation techniques which maximize the use of observable market data and rely as little as possible on entity-specific estimates. If all significant inputs required to fair value an instrument are observable, the instrument is included in level 2.

**Level 3**: If one or more of the significant inputs is not based on observable market data, the instrument is included in level 3. This is the case for unlisted equity securities, contingent consideration and indemnification asset included in level 3.

#### (ii) Valuation technique used to determine fair value

Specific valuation techniques used to value financial instruments include:

- The use of quoted market prices for similar instruments.
- The fair value of forward foreign exchange contracts is determined using Mark to Market Valuation by the respective bank at the balance sheet date.
- The fair value of the remaining financial instruments is determined using discounted cash flow analysis.

Financial instruments by category and hierarchy of measurement

As of March 31, 2023 and March 31, 2022, the fair value of cash and bank balances, trade receivables, other financial assets and liabilities, borrowings, trade payables approximate their carrying amount largely due to the nature of these instruments.

#### 29 Financial risk management

The Company's principal financial liabilities, other than derivatives, comprise loans and borrowings, trade and other payables. The main purpose of these financial liabilities is to finance the Company's operations and to provide guarantees to support its operations. The Company's principal financial assets include trade and other receivables, and cash and short-term deposits that derive directly from its operations.

The Company is exposed to market risk, credit risk and liquidity risk. The Company's senior management oversees the management of these risks. The Company's senior management is supported by a financial risk committee that advises on financial risks and the appropriate financial risk governance framework for the Company. The finance committee provides assurance to the Company's senior management that the Company's financial risk activities are governed by appropriate policies and procedures and that financial risks are identified, measured and managed in accordance with the Company's policies and risk objectives. All derivative activities for risk management purposes are carried out by specialist teams that have the appropriate skills, experience and supervision. It is the Company's policies for managing each of these risks, which are summarised below:

#### (A) Credit risk

Credit risk refers to the risk of default on its obligation by the counter party resulting in a financial loss. The maximum exposure to the credit risk at the reporting date is primarily from trade receivables amounting to Rs. 142.47 Million as of Mach 31, 2023 (Previous year Rs. 889.90 Million) and unbilled revenue amounting to Rs. 186.67 Million as of March 31, 2023 (Previous year Rs. 188.48 Million). Trade receivables and unbilled revenue are typically unsecured and are derived from revenue earned through individual subsidiaries, government customers and other corporate customers. The Company has used the expected credit loss model to assess the impairment loss or gain on trade receivables and unbilled revenue, and has provided it wherever appropriate. The following table gives the movement in allowance for expected credit loss for the year ended March 31, 2023:

#### Reconciliation of loss allowance provision

| Particulars   | Trade Receivables | Unbilled Revenue |

| Loss allowance as on March 31, 2023                           | 320.09            | 84.63            |

\*Provision (net of reversal) for expected credit loss in unbilled revenue and trade receivables includes Rs. 30.65 Million (Previous year Rs. 42.78 Million) recognised in statement of profit and loss in discontinued operations.

(All Amount in Rs. Millions, unless otherwise stated)

#### (B) Liquidity risk

The Company's principal sources of liquidity are cash and cash equivalents and the cash flow that is generated from operations. The Company has outstanding borrowings as term loans and working capital limits from banks. The term loans are secured by a first charge on the book debts and movable & immovable assets of the Company. However, the Company believes that the working capital is sufficient to meet its current requirements. Accordingly, no liquidity risk is perceived.

#### (C) Market risk

Market risk is the risk that the fair value of future cash flows of a financial instrument will fluctuate because of changes in market prices. Market risk comprises three types of risk: interest rate risk, foreign currency risk and other price risk, such as equity price risk and commodity risk. Financial instruments affected by market risk include loans and borrowings, deposits, investments measured at FVTPL and derivative financial instruments.

#### (i) Interest rate risk

Interest rate risk is the risk that the fair value or future cash flows of a financial instrument will fluctuate because of changes in market interest rates. The Company's interest rate risk arises primarily from the foreign currency term loan carrying at floating rate of interest. These obligations exposes the Company to cash flow interest rate risk. The Company has mitigated the interest rate risk on foreign currency term loan by converting it from floating rate to fixed rate through currency swap. Hence, there is no significant challenge of interest rate risk.

#### (ii) Foreign currency risk

The Company operates internationally and is exposed to foreign exchange risk arising from foreign currency transactions, primarily with respect to the USD, GBP, EUR, CAD, CNY and NOK. Foreign exchange risk arises from future commercial transactions and recognised assets and liabilities denominated in a currency that is not the company's functional currency. The Company evaluates its exchange rate exposure arising from these transactions and enters into foreign exchange forward contracts to hedge forecasted cash flows denominated in foreign currency and mitigate such exposure.

The company's exposure to foreign currency risk at the end of the reporting period expressed in Rs., are as follows

#### 30 Capital management

The primary objective of the management of the Company's capital structure is to maintain an efficient mix of debt and equity in order to achieve a low cost of capital, while taking into account the desirability of retaining financial flexibility to pursue business opportunities and adequate access to liquidity to mitigate the effect of unforeseen events on cash flows. To maximise the shareholder value the management also monitors the return on equity.

The Board of directors regularly review the Company's capital structure in light of the economic conditions, business strategies and future commitments.

For the purpose of the Company's capital management, capital includes issued share capital, securities premium, all other reserves and debts.

During the financial year, no significant changes were made in the objectives, policies or processes relating to the management of the Company's capital structure.

Loans availed by the Company are subject to certain financial covenants and the Company is compliant with these financial covenants on the reporting date as per the terms of the loan agreement.

There is no default on the repayment of borrowings (including interest thereon) during the year ended March 31, 2023.

|   | 2,659,91       | 2,498.31       |

\*It pertains to alleged dues towards provident fund payable by vendors of the Company which the Company is also contesting.

The Company does not expect any reimbursements in respect of the above.

b) The Company had received Show Cause Notices under section 263 of the Income Tax Act, 1961, issued by the Commissioner of Income Tax (CIT) for the Assessment years 1999-00 to 2005-06, who later issued Orders directing the Assessing Officer for re-assessment on certain items. The orders passed by the CIT u/s 263 for AY 1999-00 to AY 2005-06 have been challenged by the Company in the Income Tax Appellate Tribunal ('the Tribunal'). The Tribunal has since passed order for AY 1999-00 wherein the Tribunal has decided the issue of assumption of jurisdiction against the Company and on merits, the Tribunal has allowed some of the issues and dismissed others which were referred back to the assessing officer for fresh examination. The Company has field an appeal before the Hon'ble High Court of Delhi against the aforesaid order of the Tribunal which is pending for disposal. At this stage there is no ascertained/quantified demands. Based on legal opinion, the Company has fair chances of obtaining adequate relief before the Appellate Authorities.

It is not practical for the Company to estimate the timings of cash outflows, if any, in respect of the above pending resolution of the respective proceedings. Management does not foresee any financial implication based on advice of legal counsel.

Serious Fraud Investigation Office ('SFIO') has filed a case against one of the past vendors, from whom the Company has obtained certain services during FY 2002-05, which are also the subject matter of the above-mentioned matter u/s 263. Recently, the Company has received a copy of partial complaint from the Court of ACMM, Delhi, who has made the Company also a party to the above case. While the Company has requested for a complete copy of complaint, which is yet to be received, based on the legal advice the matter is not maintainable and accordingly the Company has filed a revision petition challenging the summoning order of the Court, which is pending to be heard.

#### 36 Segment Information

The Company is engaged in providing Education & Training Services in a single segment. Based on "Management Approach", as defined in Ind AS 108 – Operating Segments, the Chief Operating Decision Maker (CODM) evaluates the performance and allocates resources based on the analysis of performance of the Company as a whole. Its operations are, therefore, considered to constitute a single segment in the context of Ind AS 108 – Operating Segments.

As per Ind AS 108 - Operating Segments, where the financial report contains both the consolidated financial statements of a parent as well as the parent's separate financial statements, segment information is required only in the consolidated financial statements, Accordingly, no segment information is disclosed in these standalone financial statements of the Company.

#### 37 Discontinued operations

(i) During the year 2019-20, in line with its stated long term strategy of reducing exposure to low margin, capital intensive government business, the Company had decided not to pursue new skills contracts and decided to discontinue operations post completion of continuing commitments. These contracts were transferred from its wholly owned subsidiary NIIT Yuva Jyoti Limited (Liquidated on February 25, 2022) through an agreement.

In pursuance of applicable accounting standard (IND AS - 105), the net results (i.e. revenue minus expenses) of such operations are disclosed separately as loss from 'Discontinued Operations'.

#### Report on the Audit of the Consolidated Financial Statements

#### Opinion

We have audited the accompanying consolidated financial statements of NIIT Limited (hereinafter referred to as "the Holding Company"), its subsidiaries (the Holding Company and its subsidiaries together referred to as "the Group") its associates comprising of the consolidated Balance sheet as at March 31 2023, the consolidated Statement of Profit and Loss, including other comprehensive income, the consolidated Cash Flow Statement and the consolidated Statement of Changes in Equity for the year then ended, and notes to the consolidated financial statements, including a summary of significant accounting policies and other explanatory information (hereinafter referred to as "the consolidated financial statements").

In our opinion and to the best of our information and according to the explanations given to us and based on the consideration of reports of other auditors on separate financial statements and on the other financial information of the subsidiaries, the aforesaid consolidated financial statements give the information required by the Companies Act, 2013, as amended ("the Act") in the manner so required and give a true and fair view in conformity with the accounting principles generally accepted in India, of the consolidated state of affairs of the Group, as at March 31, 2023, their consolidated profit including other comprehensive income, their consolidated cash flows and the consolidated statement of changes in equity for the year ended on that date.

#### **Basis for Opinion**

We conducted our audit of the consolidated financial statements in accordance with the Standards on Auditing (SAs), as specified under section 143(10) of the Act. Our responsibilities under those Standards are further described in the 'Auditor's Responsibilities for the Audit of the Consolidated Financial Statements' section of our report. We are independent of the Group in accordance with the 'Code of Ethics' issued by the Institute of Chartered Accountants of India together with the ethical requirements that are relevant to our audit of the financial statements under the provisions of the Act and the Rules thereunder, and we have fulfilled our other ethical responsibilities in accordance with these requirements and the Code of Ethics. We believe that the audit evidence we have obtained is sufficient and appropriate to provide a basis for our audit opinion on the consolidated financial statements.

#### Emphasis of Matter- Composite Scheme of Arrangement

We draw attention to Note 37 of the consolidated financial statements regarding accounting of demerger of CLG Business Undertaking of the Company into NIIT Learning Systems Limited under the Composite Scheme of Arrangement (the 'Scheme') approved by the National Company Law Tribunal ('NCLT'). In accordance with the provisions of Indian Accounting Standards ("Ind AS") notified under Companies (Indian Accounting Standards) Rules, 2015 as amended, the Demerger should have been accounted for from the date of transfer of control. However, the same has been accounted for with effect from appointed date i.e. April 01, 2022, in accordance with the Scheme.

#### Key Audit Matters

Key audit matters are those matters that, in our professional judgment, were of most significance in our audit of the consolidated financial statements for the financial year ended March 31, 2023. These matters were addressed in the context of our audit of the consolidated financial statements as a whole, and in forming our opinion thereon, and we do not provide a separate opinion on these matters. For each matter below, our description of how our audit addressed the matter is provided in that context.

We have determined the matters described below to be the key audit matters to be communicated in our report. We have fulfilled the responsibilities described in the Auditor's responsibilities for the audit of the consolidated financial statements section of our report, including in relation to these matters. Accordingly, our audit included the performance of procedures designed to respond to our assessment of the risks of material misstatement of the consolidated financial statements. The results of audit procedures performed by us and by other auditors of components not audited by us, as reported by them in their audit reports furnished to us by the management, including those procedures performed to address the matters below, provide the basis for our audit opinion on the accompanying consolidated financial statements.

#### Other Information

186

The Holding Company's Board of Directors is responsible for the other information. The other information comprises the information included in the Annual report but does not include the consolidated financial statements and our auditor's report thereon.

Our opinion on the consolidated financial statements does not cover the other information and we do not express any form of assurance conclusion thereon.

In connection with our audit of the consolidated financial statements, our responsibility is to read the other information identified above when it becomes available and, in doing so, consider whether such other information is materially inconsistent with the consolidated financial statements or our knowledge obtained in the audit or otherwise appears to be materially misstated.

#### Responsibilities of Management for the Consolidated Financial Statements

The Holding Company's Board of Directors is responsible for the preparation and presentation of these consolidated financial participation of the requirements of the Act that give a true and fair view of the consolidated financial position, consolidated financial performance including other comprehensive income, consolidated cash flows and consolidated statement of changes in equity of the Group in accordance with the accounting principles generally accepted in India, including the Indian Accounting Standards (Ind AS) specified under section 133 of the Act read with the Companies (Indian Accounting Standards) Rules, 2015, as amended. The respective Board of Directors of the companies included in the Group are responsible for maintenance of adequate accounting records in accordance with the provisions of the Act for safeguarding of the assets of their respective companies and for preventing and detecting frauds and other irregularities; selection and application of appropriate accounting policies; making judgments and estimates that are reasonable and prudent; and the design, implementation and maintenance of adequate internal financial controls, that were operating effectively for ensuring the accuracy and completeness of the accounting records, relevant to the preparation and presentation of the consolidated financial statements that give a true and fair view and are free from material misstatement, whether due to fraud or error, which have been used for the purpose of preparation of the consolidated financial statements by the Directors of the Holding Company, as aforesaid.

In preparing the consolidated financial statements, the respective Board of Directors of the companies included in the Group are responsible for assessing the ability of their respective companies to continue as a going concern, disclosing, as applicable, matters related to going concern and using the going concern basis of accounting unless management either intends to liquidate the Group or to cease operations, or has no realistic alternative but to do so.

Those respective Board of Directors of the companies included in the Group are also responsible for overseeing the financial reporting process of their respective companies.

#### Auditor's Responsibilities for the Audit of the Consolidated Financial Statements

Our objectives are to obtain reasonable assurance about whether the consolidated financial statements as a whole are free from material misstatement, whether due to fraud or error, and to issue an auditor's report that includes our opinion. Reasonable assurance is a high level of assurance, but is not a guarantee that an audit conducted in accordance with SAs will always detect a material misstatement when it exists. Misstatements can arise from fraud or error and are considered material if, individually or in the aggregate, they could reasonably be expected to influence the economic decisions of users taken on the basis of these consolidated financial statements.

As part of an audit in accordance with SAs, we exercise professional judgment and maintain professional skepticism throughout the audit. We also:

- Identify and assess the risks of material misstatement of the consolidated financial statements, whether due to fraud or
  error, design and perform audit procedures responsive to those risks, and obtain audit evidence that is sufficient and
  appropriate to provide a basis for our opinion. The risk of not detecting a material misstatement resulting from fraud is
  higher than for one resulting from error, as fraud may involve collusion, forgery, intentional omissions, misrepresentations,
  or the override of internal control.
- Obtain an understanding of internal control relevant to the audit in order to design audit procedures that are appropriate in the circumstances. Under section 143(3)(i) of the Act, we are also responsible for expressing our opinion on whether the Holding Company has adequate internal financial controls with reference to financial statements in place and the operating effectiveness of such controls.

187

- Evaluate the appropriateness of accounting policies used and the reasonableness of accounting estimates and related disclosures made by management.
- Conclude on the appropriateness of management's use of the going concern basis of accounting and, based on the
  audit evidence obtained, whether a material uncertainty exists related to events or conditions that may cast significant
  doubt on the ability of the Group to continue as a going concern. If we conclude that a material uncertainty exists, we
  are required to draw attention in our auditor's report to the related disclosures in the consolidated financial statements
  or, if such disclosures are inadequate, to modify our opinion. Our conclusions are based on the audit evidence obtained
  up to the date of our auditor's report. However, future events or conditions may cause the Group to cease to continue
  as a going concern.
- Evaluate the overall presentation, structure and content of the consolidated financial statements, including the disclosures, and whether the consolidated financial statements represent the underlying transactions and events in a manner that achieves fair presentation.
- Obtain sufficient appropriate audit evidence regarding the financial information of the entities or business activities
  within the Group of which we are the independent auditors, to express an opinion on the consolidated financial
  statements. We are responsible for the direction, supervision and performance of the audit of the financial statements
  of such entities included in the consolidated financial statements of which we are the independent auditors. For the
  other entities included in the consolidated financial statements, which have been audited by other auditors, such other
  auditors remain responsible for the direction, supervision and performance of the audits carried out by them. We remain
  solely responsible for our audit opinion.

We communicate with those charged with governance of the Holding Company and such other entities included in the consolidated financial statements of which we are the independent auditors regarding, among other matters, the planned scope and timing of the audit and significant audit findings, including any significant deficiencies in internal control that we identify during our audit.

We also provide those charged with governance with a statement that we have complied with relevant ethical requirements regarding independence, and to communicate with them all relationships and other matters that may reasonably be thought to bear on our independence, and where applicable, related safeguards.

From the matters communicated with those charged with governance, we determine those matters that were of most significance in the audit of the consolidated financial statements for the financial year ended March 31, 2023 and are therefore the key audit matters. We describe these matters in our auditor's report unless law or regulation precludes public disclosure about the matter or when, in extremely rare circumstances, we determine that a matter should not be communicated in our report because the adverse consequences of doing so would reasonably be expected to outweigh the public interest benefits of such communication.

#### Other Matter

- (a) We did not audit the financial statements and other financial information, in respect of 7 subsidiaries, whose financial statements include total assets of Rs 785.35 Millions as at March 31, 2023, and total revenues of Rs 614.85 Millions and net cash outflows of Rs 989.80 Millons for the year ended on that date. These financial statement and other financial information have been audited by other auditor, which financial statements, other financial information and auditor's report have been furnished to us by the management. Our opinion on the consolidated financial statements, in so far as it relates to the amounts and disclosures included in respect of that subsidiary and our report in terms of sub-sections (3) of Section 143 of the Act, in so far as it relates to the aforesaid subsidiary is based solely on the report of such other auditor.
- (b) The accompanying consolidated financial statements include unaudited financial statements and other unaudited financial information in respect of 2 subsidiaries, whose financial statements and other financial information reflect total assets of Rs Nil Million as at March 31, 2023, and total revenues of Rs Nil Million and net cash outflows of Rs 1.12 Million for the year ended on that date. These unaudited financial statements and other unaudited financial information have been furnished to us by the management. Our opinion above on the consolidated financial statements, and our report on Other Legal and Regulatory Requirements below, is not modified in respect of the above matters with respect to our reliance on the work done and the reports of the other auditor and the financial statements and other financial information information.

### ANNEXURE -2 TO THE INDEPENDENT AUDITOR'S REPORT OF EVEN DATE ON THE CONSOLIDATED FINANCIAL STATEMENTS OF NIIT LIMTED

#### Report on the Internal Financial Controls under Clause (i) of Sub-section 3 of Section 143 of the Companies Act, 2013 ("the Act")

In conjunction with our audit of the consolidated financial statements of NIIT Limited (hereinafter referred to as the "Holding Company") as of and for the year ended March 31, 2023, we have audited the internal financial controls with reference to consolidated financial statements of the Holding Company and its subsidiaries (the Holding Company and its subsidiaries together referred to as "the Group") which are companies incorporated in India, as of that date.

#### Management's Responsibility for Internal Financial Controls

The respective Board of Directors of the companies included in the Group, which are companies incorporated in India, are responsible for establishing and maintaining internal financial controls based on the internal control over financial reporting criteria established by the Holding Company considering the essential components of internal control stated in the Guidance Note on Audit of Internal Financial Controls Over Financial Reporting issued by the Institute of Chartered Accountants of India (ICAI). These responsibilities include the design, implementation and maintenance of adequate internal financial controls that were operating efficiently for ensuring the orderly and efficient conduct of its business, including adherence to the respective company's policies, the safeguarding of its assets, the prevention and detection of frauds and errors, the accuracy and completeness of the accounting records, and the timely preparation of reliable financial information, as required under the Companies Act, 2013.

#### Auditor's Responsibility

Our responsibility is to express an opinion on the Holding Company's internal financial controls with reference to consolidated financial statements based on our audit. We conducted our audit in accordance with the Guidance Note on Audit of Internal Financial Controls Over Financial Reporting (the "Guidance Note") and the Standards on Auditing, specified under section 143(10) of the Act, to the extent applicable to an audit of internal financial controls, both, issued by ICAI. Those Standards and the Guidance Note require that we comply with ethical requirements and plan and perform the audit to obtain reasonable assurance about whether adequate internal financial controls with reference to consolidated financial statements was established and maintained and if such controls operated effectively in all material respects.

Our audit involves performing procedures to obtain audit evidence about the adequacy of the internal financial controls with reference to consolidated financial statements and their operating effectiveness. Our audit of internal financial controls with reference to consolidated financial statements included obtaining an understanding of internal financial controls with reference to consolidated financial statements included obtaining an understanding of internal financial controls with reference to consolidated financial statements, assessing the risk that a material weakness exists, and testing and evaluating the design and operating effectiveness of internal control based on the assessed risk. The procedures selected depend on the auditor's judgement, including the assessment of the risks of material misstatement of the financial statements, whether due to fraud or error.

We believe that the audit evidence we have obtained is sufficient and appropriate to provide a basis for our audit opinion on the internal financial controls with reference to consolidated financial statements.

#### Meaning of Internal Financial Controls With Reference to Consolidated Financial Statements

A company's internal financial control with reference to consolidated financial statements is a process designed to provide reasonable assurance regarding the reliability of financial reporting and the preparation of financial statements for external purposes in accordance with generally accepted accounting principles. A company's internal financial control with reference to consolidated financial statements includes those policies and procedures that (1) pertain to the maintenance of records that, in reasonable detail, accurately and fairly reflect the transactions and dispositions of the assets of the company; (2) provide reasonable assurance that transactions are recorded as necessary to permit preparation of financial statements in accordance with generally accepted accounting principles, and that receipts and expenditures of the company are being made only in accordance with authorisations of management and directors of the company; and (3) provide reasonable assurance regarding prevention or timely detection of unauthorised acquisition, use, or disposition of the company's assets that could have a material effect on the financial statements.

#### Inherent Limitations of Internal Financial Controls With Reference to Consolidated Financial Statements

Because of the inherent limitations of internal financial controls with reference to consolidated financial statements, including the possibility of collusion or improper management override of controls, material misstatements due to error or fraud may occur and not be detected. Also, projections of any evaluation of the internal financial controls with reference to consolidated financial statements to future periods are subject to the risk that the internal financial controls with reference to consolidated financial statements may become inadequate because of changes in conditions, or that the degree of compliance with the policies or procedures may deteriorate.

#### Opinion

In our opinion, the Group which are companies incorporated in India, have, maintained in all material respects, adequate internal financial controls with reference to consolidated financial statements and such internal financial controls with reference to consolidated financial statements were operating effectively as at March 31,2023, based on the internal control over financial reporting criteria established by the Holding Company considering the essential components of internal control stated in the Guidance Note issued by the ICAI.

#### 2 Significant Accounting Policies

This note provides a list of the significant accounting policies adopted in the preparation of these consolidated financial statements. These policies have been consistently applied to all the period presented, unless otherwise stated.

#### a) Basis of preparation

#### (i) Compliance with Ind AS

These consolidated financial statements ('financial statements') have been prepared in accordance with the Indian Accounting Standard ('Ind AS') notified under section 133 of the Companies Act, 2013, read with the Companies (Indian Accounting Standards) Rules as amended from time to time by the Ministry of Corporate Affairs ('MCA').

The financial statements are based on the classification provisions contained in Ind AS 1, 'Presentation of Financial Statements' and division II of schedule III of the Companies Act 2013. Further, for the purpose of clarity, various items are aggregated in the statement of profit and loss and balance sheet. Nonetheless, these items are dis-aggregated separately in the notes to the consolidated financial statements, where applicable or required. All the amounts included in the financial statements are reported in Millions of Indian Rupees ('Rupees' or 'Rs.') and are rounded to the nearest Million, within two decimals, except per share data and unless stated otherwise

Reference in these consolidated financial statements to "the Group" shall mean to include NIIT Limited, its subsidiaries and associate, consolidated in these financial statements, unless otherwise stated.

#### (ii) Basis of measurement

The financial statements have been prepared on a historical cost basis, except for the following:

a) financial assets and liabilities (including derivative instruments) are measured at fair value or amortised cost.

b) defined benefit plans – plan assets measured at fair value

c) share-based payments (ESOP's) are measured at fair value.

#### b) Basis of consolidation

- (i) The consolidated financial statements incorporate the financial statements of the Company and entities controlled by the Company (its subsidiaries) made up to 31 March each year. Control is achieved when the Company:
  - has the power over the investee;
  - is exposed, or has rights, to variable returns from its involvement with the investee; and
  - has the ability to use its power to affects its returns.

The Company reassesses whether or not it controls an investee if facts and circumstances indicate that there are changes to one or more of the three elements of control listed above.

When the Company has less than a majority of the voting rights of an investee, it considers that it has power over the investee when the voting rights are sufficient to give it the practical ability to direct the relevant activities of the investee unilaterally. The Company considers all relevant facts and circumstances in assessing whether or not the Company's voting rights in an investee are sufficient to give it power, including:

- the size of the Company's holding of voting rights relative to the size and dispersion of holdings of the other vote holders;
- potential voting rights held by the Company, other vote holders or other parties;
- rights arising from other contractual arrangements; and
- any additional facts and circumstances that indicate that the Company has, or does not have, the current ability to direct the relevant activities at the time that decisions need to be made, including voting patterns at previous shareholders' meetings.

#### Notes to the Consolidated Financial Statements for the year ended March 31, 2023 Contd..

Consolidation of a subsidiary begins when the Company obtains control over the subsidiary and ceases when the Company loses control of the subsidiary. Specifically, the results of subsidiaries acquired or disposed of during the year are included in profit or loss from the date the Company gains control until the date when the Company ceases to control the subsidiary.

Where necessary, adjustments are made to the financial statements of subsidiaries to bring the accounting policies used into line with the Group's accounting policies.

All intragroup assets and liabilities, equity, income, expenses and cash flows relating to transactions between the members of the Group are eliminated on consolidation.

Non-controlling interests in subsidiaries are identified separately from the Group's equity therein. Those interests of noncontrolling shareholders that are present ownership interests entitling their holders to a proportionate share of net assets upon liquidation may initially be measured at fair value or at the non-controlling interests' proportionate share of the fair value of the acquiree's identifiable net assets. The choice of measurement is made on an acquisition-by-acquisition basis. Other non-controlling interests are initially measured at fair value. Subsequent to acquisition, the carrying amount of non-controlling interests is the amount of those interests at initial recognition plus the non-controlling interests' share of subsequent changes in equity.

Profit or loss and each component of other comprehensive income are attributed to the owners of the Company and to the non-controlling interests. Total comprehensive income of the subsidiaries is attributed to the owners of the Company and to the non-controlling interests even if this results in the non-controlling interests having a deficit balance.

Changes in the Group's interests in subsidiaries that do not result in a loss of control are accounted for as equity transactions. The carrying amount of the Group's interests and the non-controlling interests are adjusted to reflect the changes in their relative interests in the subsidiaries. Any difference between the amount by which the non- controlling interests are adjusted and the fair value of the consideration paid or received is recognised directly in equity and attributed to the owners of the Company.

When the Group loses control of a subsidiary, the gain or loss on disposal recognised in profit or loss is calculated as the difference between (i) the aggregate of the fair value of the consideration received and the fair value of any retained interest and (ii) the previous carrying amount of the assets (including goodwill), less liabilities of the subsidiary and any non-controlling interests. All amounts previously recognised in other comprehensive income in relation to that subsidiary are accounted for as if the Group had directly disposed of the related assets or liabilities of the subsidiary (i.e. reclassified to profit or loss or transferred to another category of equity as required/permitted by applicable Ind ASs). The fair value of any investment retained in the former subsidiary at the date when control is lost is regarded as the fair value on initial recognition for subsequent accounting under Ind AS 109 when applicable, or the cost of initial recognition of an investment in an associate or a joint venture.

- (ii) Associate: Associate is the entity over which the group has significant influence but not control or joint control. This is generally the case where the group holds between 20% and 50% of the voting rights. Investments in associate is accounted for using the equity method of accounting (see (iii) below), after initially being recognised at cost.
- (iii) Equity method : Under the equity method of accounting, the investments are initially recognised at cost and adjusted thereafter to recognise the group's share of the post-acquisition profits or losses of the investee in profit and loss, and the group's share of other comprehensive income of the investee in other comprehensive income. Dividends received or receivable from associates and joint ventures are recognised as a reduction in the carrying amount of the investment.

When the group's share of losses in an equity-accounted investment equals or exceeds its interest in the entity, including any other unsecured long-term receivables, the group does not recognise further losses, unless it has incurred obligations or made payments on behalf of the other entity.

Unrealised gains on transactions between the group and its associates are eliminated to the extent of the group's interest in these entities. Unrealised losses are also eliminated unless the transaction provides evidence of an impairment of the asset transferred. Accounting policies of equity accounted investees have been changed where necessary to ensure consistency with the policies adopted by the group.

The carrying amount of equity accounted investments are tested for impairment.

(iv) Changes in ownership interests : The group treats transactions with non-controlling interests that do not result in a loss of control as transactions with equity owners of the group. A change in ownership interest results in an adjustment between the carrying amounts of the controlling and non-controlling interests to reflect their relative interests in the subsidiary. Any difference between the amount of the adjustment to non-controlling interests and any consideration paid or received is recognised within equity

When the group ceases to consolidate or equity account for an investment because of a loss of control, joint control or significant influence, any retained interest in the entity is remeasured to its fair value with the change in carrying amount recognised in profit or loss. This fair value becomes the initial carrying amount for the purposes of subsequently accounting for the retained interest as an associate, joint venture or financial asset. In addition, any amounts previously recognised in other comprehensive income in respect of that entity are accounted for as if the group had directly disposed of the related assets or liabilities. This may mean that amounts previously recognised in other comprehensive income are reclassified to profit or loss.

If the ownership interest in a joint venture or an associate is reduced but joint control or significant influence is retained, only a proportionate share of the amounts previously recognised in other comprehensive income are reclassified to profit or loss where appropriate.

#### c) Foreign currency translation

#### (i) Functional and presentation currency

Items included in the financial statements of each of the Company's entities are measured using the currency of the primary economic environment in which the entity operates ('the functional currency'). The financial statements are presented in Indian Rupee (Rs.), which is the Group's presentation currency.

#### (ii) Transactions and balances

Foreign currency transactions are translated into the functional currency using the exchange rates at the dates of the transactions. Foreign exchange gains and losses resulting from the settlement of such transactions and from the translation of monetary assets and liabilities denominated in foreign currencies at year end exchange rates are generally recognised in profit or loss. They are deferred in equity if they relate to qualifying cash flow hedges.

Foreign exchange differences regarded as an adjustment to borrowing costs are presented in the consolidated statement of profit and loss, within finance costs. All other foreign exchange gains and losses are presented in the consolidated statement of profit and loss on a net basis within other gains/ (losses).

Non-monetary items that are measured at fair value in a foreign currency are translated using the exchange rates at the date when the fair value was determined.

#### (iii) Foreign operations

The results and financial position of foreign operations (none of which has the currency of a hyperinflationary economy) that have a functional currency different from the presentation currency are translated into the presentation currency as follows:

- assets and liabilities are translated at the closing rate at the date of that balance sheet

- income and expenses are translated at average exchange rates (unless this is not a reasonable approximation of the cumulative effect of the rates prevailing on the transaction dates, in which case income and expenses are translated at the dates of the transactions), and

- All resulting exchange differences are recognised in other comprehensive income

On consolidation, exchange differences arising from the translation of any net investment in foreign entities, and of borrowings and other financial instruments designated as hedges of such investments, are recognised in other comprehensive income. When a foreign operation is sold, the associated exchange differences are reclassified to profit or loss, as part of the gain or loss on sale.

Goodwill and fair value adjustments arising on the acquisition of a foreign operation are treated as assets and liabilities of the foreign operation and translated at the closing rate.

#### d) Current - non-current classification

Assets and liabilities are classified into current and non-current as follows:

#### Assets

An asset is classified as current when it satisfies any of the following criteria:

- it is expected to be realised in, or is intended for sale or consumption in, the Group's normal operating cycle;
- it is held primarily for the purpose of being traded;
- it is expected to be realised within 12 months after the reporting period; or
- it is cash or cash equivalent unless it is restricted from being exchanged or used to settle a liability for at least 12 months after the reporting period.

Current assets include the current portion of non-current financial assets. All other assets (including deferred tax assets) are classified as non-current.

#### Liabilities

A liability is classified as current when it satisfies any of the following criteria:

- it is expected to be settled in the Group's normal operating cycle;
- it is held primarily for the purpose of being traded;
- it is due to be settled within 12 months after the reporting period; or

• the Company does not have an unconditional right to defer settlement of the liability for at least 12 months after the reporting period. Terms of a liability that could, at the option of the counterparty, result in its settlement by the issue of equity instruments do not affect its classification.

Current liabilities include the current portion of non-current financial liabilities. All other liabilities (including deferred tax liabilities) are classified as non-current.

#### Operating cycle

The operating cycle is the time between the acquisition of assets for processing and their realisation in cash or cash equivalents. Based on the nature of operations and the time between the acquisition of assets for processing and their realisation in cash and cash equivalents, the Group has ascertained its operating cycle being a period of 12 months for the purpose of classification of assets and liabilities as current and non-current.

#### e) Revenue recognition

Revenue is measured at the fair value of the consideration received or receivable. Amounts disclosed as revenue are net of returns, trade allowances, rebates, discounts and taxes.

When two or more revenue generating activities or deliverables are provided under a single arrangement, each deliverable that is considered to be a separate deliverable is accounted separately. Where the contracts include multiple performance obligations, the transaction price is allocated to each performance obligation based on the standalone selling prices. Where the standalone selling prices are not directly observable, these are estimated based on expected cost plus margin or residual method to allocate the total transaction price. In cases of residual method, the standalone selling prices of other goods or services promised in the contract.

Services are provided under time and material contracts and fixed price contracts. Revenue from providing services is recognised over a period of time in the accounting period in which services are rendered. The revenue from time and material contracts is recognised at the amount to which the Group has right to invoice.

In respect of fixed price contracts, revenue is recognised based on the technical evaluation of utilization of services as per the proportionate completion method when no significant uncertainty exists regarding the amount of consideration that will be determined from rendering the service. The customer pays the fixed amount based on a payment schedule. If the services rendered by the Company exceed the payment, a contract asset is recognised. If the payment exceed the services rendered, a contract liability is recognised. Revenue from training is recognised over the period of delivery. The foreseeable losses on completion of contract, if any, are provided for.

Estimates of revenues, costs or extent of progress towards completion are revised if circumstances change. Any resulting increase or decrease in estimated revenues or costs are reflected in profit or loss in the period in which the circumstances that give rise to the revision become known to management.

On certain contracts, where the Company acts as agent, only commission and fees receivable for services rendered are recognised as revenue. Any third party costs incurred on behalf of the principal that are rechargeable under the contractual arrangement are not included in revenue.

Revenue in respect of sale of courseware and other physical deliverables is recognised at a point in time when these are delivered, the legal title is passed and the customer has accepted the courseware and other physical deliverables.

In other cases, where courseware is not considered a separate component under a contract, revenue from the composite course is recognised over the period of the training or the contract period, depending upon the terms and conditions.

Revenue for providing Technical Information and Reference Material (TIRM) to the business partners is recognised over the period of the contract.

#### f) Other Income

200

#### (i) Interest income

Interest income from debt instruments is recognised using the effective interest rate method. The effective interest rate is the rate that exactly discounts estimated future cash receipts through the expected life of the financial asset to the gross carrying amount of a financial asset. When calculating the effective interest rate, the Group estimates the expected cash flows by considering all the contractual terms of the financial instrument (for example, prepayment, extension, call and similar options) but does not consider the expected credit losses.

#### (ii) Dividend income

It is recognised when the right to receive dividend is established.

#### g) Segment Reporting

Operating segments are reported in a manner consistent with the internal reporting provided to the Chief Operating Decision Maker (CODM).

The CEO & CFO of NIIT Limited are considered as chief operating decision makers who assess the financial performance and position of the Group, and make strategic decisions.

#### h) Government grants

Grants from the government are recognised at their fair value where there is a reasonable assurance that the grant will be received and the group will comply with all attached conditions.

Government grants relating to income are deferred and recognised in the profit or loss over the period on systematic basis to cover the costs that they are intended to compensate and presented within other income.

Government grants relating to the purchase of property, plant and equipment are included in non-current liabilities as deferred income and are credited to profit or loss on a straight-line basis over the expected lives of the related assets and presented within other income.

#### i) Income taxes

Income tax expense comprises current tax expense and the net change in the deferred tax asset or liability during the year. Current and deferred taxes are recognised in statement of profit and loss, except when they relate to items that are recognised in other comprehensive income or directly in equity, in which case, the current and deferred tax are also recognised in other comprehensive income or directly in equity, respectively.

#### Current income taxes

The current income tax expense includes income taxes payable by the Company, its branches and its subsidiaries in India and overseas. The current tax payable by the Company and its subsidiaries in India is Indian income tax payable on worldwide income after taking credit for tax relief available.

The current income tax expense for overseas subsidiaries has been computed based on the tax laws applicable to each subsidiary in the respective jurisdiction in which it operates.

Advance taxes and provisions for current income taxes are presented in the balance sheet after off-setting advance tax paid and income tax provision arising in the same tax jurisdiction and where the relevant tax paying unit intends to settle the asset and liability on a net basis.

#### Deferred income taxes

Deferred income tax is provided in full, using the liability method, on temporary differences arising between the tax bases of assets and liabilities and their carrying amounts in the financial statements.

Deferred income tax is determined using tax rates (and laws) that have been enacted or substantially enacted by the end of the reporting period and are expected to apply when the related deferred income tax asset is realised or the deferred income tax liability is settled.

Deferred tax assets are recognised for all deductible temporary differences and unused tax losses only if it is probable that future taxable amounts will be available to utilise those temporary differences and losses.

Deferred tax liabilities are not recognised for temporary differences between the carrying amount and tax bases of investments in subsidiaries, branches and associates and interest in joint arrangements where the group is able to control the timing of the reversal of the temporary differences and it is probable that the differences will not reverse in the foreseeable future.

Deferred tax assets are not recognised for temporary differences between the carrying amount and tax bases of investments in subsidiaries, branches and associates and interest in joint arrangements where it is not probable that the differences will reverse in the foreseeable future and taxable profit will not be available against which the temporary difference can be utilised. Deferred tax is recognised on any unrealised profits/losses arising from intra-group transactions.

#### i) Leases

A contract is, or contains, a lease if the contract conveys the right to control the use of an identified asset for a period of time in exchange for consideration.

#### (i) Group as a lessee

The Group accounts for each lease component within the contract as a lease separately from non-lease components of the contract and allocates the consideration in the contract to each lease component on the basis of the relative standalone price of the lease component and the aggregate standalone price of the non-lease components.

The Group recognises right-of-use asset representing its right to use the underlying asset for the lease term at the lease commencement date. The cost of the right-of-use asset measured at inception shall comprise of the amount of the initial measurement of the lease liability adjusted for any lease payments made at or before the commencement date less any lease incentives received, plus any initial direct costs incurred and an estimate of costs to be incurred by the lessee in dismantling and removing the underlying asset or restoring the underlying asset or site on which it is located. The right-of-use assets is subsequently measured at cost less any accumulated depreciation, accumulated impairment losses, if any and adjusted for any remeasurement of the lease liability. The right-of-use assets is depreciated using the straight-line method from the commencement date over the shorter of lease term or useful life of right-of-use assets. The estimated useful lives of right-of use assets are determined on the same basis as those of property, plant and equipment. Right-of-use assets are tested for impairment whenever there is any indication that their carrying amounts may not be recoverable. Impairment loss, if any, is recognised in the statement of profit and loss.

#### (ii) Group as a lessor

At the inception of the lease the Group classifies each of its leases as either an operating lease or a finance lease. The Group recognises lease payments received under operating leases as income on a straight-line basis over the lease term. In case of a finance lease, finance income is recognised over the lease term based on a pattern reflecting a constant periodic rate of return on the lessor's net investment in the lease. When the Group is an intermediate lessor it accounts for its interests in the head lease and the sub-lease separately. It assesses the lease classification of a sub-lease with reference to the right-of-use asset arising from the head lease, not with reference to the underlying asset. If a head lease is a short term lease to which the Group applies the exemption described above, then it classifies the sub-lease as an operating lease.

If an arrangement contains lease and non-lease components, the Group applies Ind AS 115 Revenue from contracts with customers to allocate the consideration in the contract.

#### k) Business Combinations

202

Business combinations are accounted for using the acquisition method. The cost of an acquisition is measured as the aggregate of the consideration transferred measured at acquisition date fair value and the amount of any noncontrolling interests in the acquiree. For each business combination, the Group elects whether to measure the noncontrolling interests in the acquiree at fair value or at the proportionate share of the acquiree's identifiable net assets. Acquisition-related costs are expensed as incurred.

At the acquisition date, the identifiable assets acquired and the liabilities assumed are recognised at their acquisition date fair values. For this purpose, the liabilities assumed include contingent liabilities representing present obligation and they are measured at their acquisition fair values irrespective of the fact that outflow of resources embodying economic benefits is not probable.

After initial recognition, goodwill is measured at cost less any accumulated impairment losses. For the purpose of impairment testing, goodwill acquired in a business combination is, from the acquisition date, allocated to each of the Group's cash-generating units that are expected to benefit from the combination, irrespective of whether other assets or liabilities of the acquiree are assigned to those units.

Where settlement of any part of cash consideration is deferred, the amounts payable in the future are discounted to their present value as at the date of exchange. The discount rate used is the entity's incremental borrowing rate, being the rate at which a similar borrowing could be obtained from an independent financier under comparable terms and conditions.

If the business combination is achieved in stages, the acquisition date carrying value of the acquirer's previously held equity interest in the acquiree is remeasured to fair value at the acquisition date. Any gains or losses arising from such remeasurement are recognised in profit or loss or other comprehensive income, as appropriate.

When the consideration transferred by the Group in a business combination includes a contingent consideration arrangement, the contingent consideration is measured at its acquisition-date fair value and included as part of the consideration transferred in a business combination. Changes in fair value of the contingent consideration that qualify as measurement period adjustments are adjusted retrospectively, with corresponding adjustments against Goodwill/capital reserve. Measurement period adjustments are adjustments that arise from additional information obtained during the 'measurement period' (which cannot exceed one year from the acquisition date) about facts and circumstances that existed at the acquisition date.

The subsequent accounting for changes in the fair value of the contingent consideration that do not qualify as measurement period adjustments depends on how the contingent consideration is classified. Contingent consideration that is classified as equity is not remeasured at subsequent reporting dates and its subsequent settlement is accounted for within equity. Other contingent consideration is remeasured to fair value at subsequent reporting dates with changes in fair value recognised in profit or loss.

#### Notes to the Consolidated Financial Statements for the year ended March 31, 2023 Contd...

#### I) Investments and other financial assets

#### (i) Classification

The Group classifies its financial assets in the following measurement categories:

- those to be measured subsequently at fair value (either through other comprehensive income, or through profit or loss), and
- those measured at amortised cost.

The classification depends on the Group's business model for managing the financial assets and the contractual terms of the cash flows.

For assets measured at fair value, gains and losses will either be recorded in profit or loss or other comprehensive income. For investments in debt instruments, this will depend on the business model in which the investment is held. For investments in equity instruments, this will depend on whether the Group has made an irrevocable election at the time of initial recognition to account for the equity investment at fair value through other comprehensive income.

The Group reclassifies debt investments when and only when its business model for managing those assets changes.

#### (ii) Measurement

At initial recognition, the Group measures a financial asset at its fair value plus, in the case of a financial asset not at fair value through profit or loss, transaction costs that are directly attributable to the acquisition of the financial asset. Transaction costs of financial assets carried at fair value through profit or loss are expensed in profit or loss.

Financial assets with embedded derivatives are considered in their entirety when determining whether their cash flows are solely payment of principal and interest.

#### Debt instruments

Subsequent measurement of debt instruments depends on the Group's business model for managing the asset and the cash flow characteristics of the asset. There are three measurement categories into which the group classifies its debt instruments:

Amortised Cost : Assets that are held for collection of contractual cash flows where those cash flows represent solely payments of principal and interest are measured at amortised cost. A gain or loss on a debt investment that is subsequently measured at amortised cost and is not part of a hedging relationship is recognised in profit or loss when the asset is derecognised or impaired. Interest income from these financial assets is included in finance income using the effective interest rate method.

Fair value through other comprehensive income (FVOCI): Assets that are held for collection of the contractual cash flows and for selling the financial assets, where the asset's cash flow represents solely payments of principal and interest, are measured at fair value through other comprehensive income (FVOCI). Movements in the carrying amount are taken through OCI, except for the recognition of impairment gains or losses, interest revenue and foreign exchange gains and losses which are recognised in profit and loss. When the financial asset is derecognised, the cumulative gain or loss previously recognised in OCI is reclassified from equity to profit or loss and recognised in other gains/ (losses). Interest income from these financial assets is included in other income using the effective interest rate method.

Fair value through profit or loss: Assets that do not meet the criteria for amortised cost or FVOCI are measured at fair value through profit or loss. A gain or loss on a debt investment that is subsequently measured at fair value through profit or loss and is not part of a hedging relationship is recognised in profit or loss and presented net in the statement of profit and loss within other gains/(losses) in the period in which it arises. Interest income from these financial assets is included in other income.

#### (iii) Impairment of financial assets

The Group recognises a loss allowance for expected credit losses on investments in debt instruments that are measured at amortised cost or at FVOCI, trade receivables and contract assets, financial guarantee contracts, and certain other financial assets measured at amortised cost such as deferred consideration receivable on disposal of subsidiaries. The amount of expected credit losses is updated at each reporting date to reflect changes in credit risk since initial recognition of the respective financial instrument.

The Group recognises lifetime expected credit losses (ECL) for trade receivables and contract assets. The expected credit losses on these financial assets are estimated using a provision matrix based on the Group's historical credit loss experience, adjusted for factors that are specific to the debtors, general economic conditions and an assessment of both the current as well as the forecast direction of conditions at the reporting date, including time value of money where appropriate.

For all other financial instruments, the Group recognises lifetime ECL when there has been a significant increase in credit risk since initial recognition. However, if the credit risk on the financial instrument has not increased significantly since initial recognition, the Group measures the loss allowance for that financial instrument at an amount equal to 12-month ECL.

Lifetime ECL represents the expected credit losses that will result from all possible default events over the expected life of a financial instrument. In contrast, 12-month ECL represents the portion of lifetime ECL that is expected to result from default events on a financial instrument that are possible within 12 months after the reporting date.

#### (iv) Derecognition of financial assets

A financial asset is derecognised only when

- The Group has transferred the rights to receive cash flows from the financial asset or
- retains the contractual rights to receive the cash flows of the financial asset, but assumes a contractual obligation to pay the cash flows to one or more recipients.

Where the entity has transferred an asset, the Group evaluates whether it has transferred substantially all risks and rewards of ownership of the financial asset. In such cases, the financial asset is derecognised. Where the entity has not transferred substantially all risks and rewards of ownership of the financial asset, the financial asset is not derecognised.

Where the entity has neither transferred a financial asset nor retains substantially all risks and rewards of ownership of the financial asset, the financial asset is derecognised if the Group has not retained control of the financial asset. Where the Group retains control of the financial asset, the asset is continued to be recognised to the extent of continuing involvement in the financial asset.

#### m) Cash and cash equivalents

For the purpose of presentation in the statement of cash flows, cash and cash equivalents includes cash on hand, deposits held at call with financial institutions, other short-term, highly liquid investments with original maturities of three months or less that are readily convertible to known amounts of cash and which are subject to an insignificant risk of changes in value. Bank overdrafts are shown as borrowings in current liabilities in the balance sheet.

#### n) Trade receivables

Trade receivables are recognised initially at fair value and subsequently adjusted for expected credit loss using the effective interest method.

#### o) Inventories

204

Traded goods are stated at the lower of cost or net realisable value. Cost of traded goods comprises cost of purchases and all other costs incurred in bringing the inventories to their present location and condition. Costs are assigned to individual items of inventory on the basis weighted-average. Costs of purchased inventory are determined after deducting rebates and discounts. Net realisable value is the estimated selling price in the ordinary course of business less the estimated costs of completion and the estimated costs necessary to make the sale.

#### p) Derivatives and hedging activities

Derivatives are initially recognised at fair value on the date a derivative contract is entered into and are subsequently re-measured to their fair value at the end of each reporting period. The accounting for subsequent changes in fair value depends on whether the derivative is designated as a hedging instrument, and if so, the nature of the item being hedged and the type of hedge relationship designated.

For the purpose of hedge accounting, hedges are classified as:

- Fair value hedges when hedging the exposure to changes in the fair value of a recognised asset or liability or an unrecognised firm commitment;
- Cash flow hedges when hedging the exposure to variability in cash flows that is either attributable to a particular
  risk associated with a recognised asset or liability or a highly probable forecast transaction.

At the inception of a hedge relationship, the Group formally designates and documents the hedge relationship to which the Group wishes to apply hedge accounting and the risk management objective and strategy for undertaking the hedge. The documentation includes the Group's risk management objective and strategy for undertaking hedge, the hedging/ economic relationship, the hedged item or transaction, the nature of the risk being hedged, hedge ratio and how the entity will assess the effectiveness of changes in the hedging instrument's fair value in offsetting the exposure to changes in the hedged item's fair value or cash flows attributable to the hedged risk. Such hedges are expected to be highly effective in achieving offsetting changes in fair value or cash flows and are assessed on an ongoing basis to determine that they actually have been highly effective throughout the financial reporting periods for which they were designated.

The full fair value of a hedging derivative is classified as a non-current asset or liability when the remaining maturity of the hedged item is more than 12 months; it is classified as a current asset or liability when the remaining maturity of the hedged item is less than 12 months.

#### (i) Cash flow hedges that qualify for hedge accounting

The effective portion of changes in the fair value of derivatives that are designated and qualify as cash flow hedges is recognised in the other comprehensive income in cash flow hedging reserve within equity, limited to the cumulative change in fair value of the hedged item on a present value basis from the inception of the hedge. The gain or loss relating to the ineffective portion is recognised immediately in profit or loss, within other gains/(losses).

Forward contracts are used to hedge forecast transactions, the group generally designates only the change in fair value of the forward contract related to the spot component as the hedging instrument. Gains or losses relating to the effective portion of the change in the spot component of the forward contracts are recognised in other comprehensive income in cash flow hedging reserve within equity. The change in the forward element of the contract that relates to the hedged item ('aligned forward element') is recognised within other comprehensive income in the costs of hedging reserve within equity. In some cases, the Group may designate the full change in fair value of the effective portion of the change in fair value of the edging instrument. In such cases, the gains and losses relating to the effective portion of the change in fair value of the entire forward contract are recognised in the cash flow hedging reserve within equity.

Amounts accumulated in equity are reclassified to profit or loss in the periods when the hedged item affects profit or loss (for example, when the forecast sale that is hedged takes place).

When a hedging instrument expires, or is sold or terminated, or when a hedge no longer meets the criteria for hedge accounting, any cumulative deferred gain or loss and deferred costs of hedging in equity at that time remains in equity until the forecast transaction occurs. When the forecast transaction is no longer expected to occur, the cumulative gain or loss and deferred costs of hedging that were reported in equity are immediately reclassified to profit or loss within other gains/(losses).

If the hedge ratio for risk management purposes is no longer optimal but the risk management objective remains unchanged and the hedge continues to qualify for hedge accounting, the hedge relationship will be rebalanced by adjusting either the volume of the hedging instrument or the volume of the hedged item so that the hedge ratio aligns with the ratio used for risk management purposes. Any hedge ineffectiveness is calculated and accounted for in profit or loss at the time of the hedge relationship rebalancing.

#### (ii) Fair value hedges

The change in the fair value of a hedging instrument is recognised in the statement of profit and loss as finance costs. The change in the fair value of the hedged item attributable to the risk hedged is recorded as part of the carrying value of the hedged item and is also recognised in the statement of profit and loss as finance costs.

For fair value hedges relating to items carried at amortised cost, any adjustment to carrying value is amortised through profit or loss over the remaining term of the hedge using the EIR method. EIR amortisation may begin as soon as an adjustment exists and no later than when the hedged item ceases to be adjusted for changes in its fair value attributable to the risk being hedged.

If the hedged item is derecognised, the unamortised fair value is recognised immediately in the statement of profit or loss.

#### (iii) Derivatives that are not designated as hedges

The group enters into certain derivative contracts to hedge risks which are not designated as hedges. Such contracts are accounted for at fair value through profit or loss and are included in other gains/(losses).

#### q) Property, plant and equipment

The Group had applied for the one-time transition exemption of considering the carrying cost on the transition date i.e. April 01, 2016 as the deemed cost under IND AS, regarded thereafter as historical cost.

Freehold land is carried at historical cost. All other items of property, plant and equipment are stated at historical cost less depreciation. Historical cost includes expenditure that is directly attributable to the acquisition of the items.

Subsequent costs are included in the asset's carrying amount or recognised as a separate asset, as appropriate, only when it is probable that future economic benefits associated with the item will flow to the group and the cost of the item can be measured reliably. The carrying amount of any component accounted for as a separate asset is de-recognised when replaced. All other repairs and maintenance are charged to profit or loss during the reporting period in which they are incurred.

#### Depreciation methods, estimated useful lives and residual value

Depreciation is calculated using the straight-line method to allocate their cost, net of their residual values, over their estimated useful lives as follows :

| Description of Assets  | Useful Life   |
|--|---|
| Buildings  | 58 Years  |
| Leasehold Land   | 99 years or lease period, whichever is lower                  |
| Plant and Equipments including:<br>- Computers, Printers and related accessories<br>- Computer Servers and Networks<br>- Electronic Equipments<br>- Air Conditioners | 3 Years<br>5 Years<br>8 Years<br>10 Years                     |
| Office Equipments 5 Years  |   |
| Furniture, Fixtures & Electric Fittings  | 7 Years   |
| Leasehold Improvements   | 3-5 years or lease period, whichever is lower                 |
| All other assets (including Vehicles)  | Lives prescribed under Schedule II to the Companies Act, 2013 |

Freehold land is not depreciated.

Depreciation is provided on a pro-rata basis on the straight-line method over the useful lives of the assets. The depreciation charge for each period is recognised in the Statement of Consolidated Profit and Loss. The residual values is considered as nil.

The assets' residual values and useful lives are reviewed, and adjusted if appropriate, at the end of each reporting period.

An asset's carrying amount is written down immediately to its recoverable amount if the asset's carrying amount is greater than its estimated recoverable amount.

Gains and losses on disposals are determined by comparing proceeds with carrying amount. These are included in profit or loss within income/ (expense).

#### r) Investment property

Property that is held for long-term rental yields or for capital appreciation or both, and that is not occupied by the Group, is classified as investment property. Investment property is measured initially at its cost, including related transaction costs and where applicable borrowing costs. Subsequent expenditure is capitalised to the asset's carrying amount only when it is probable that future economic benefits associated with the expenditure will flow to the group and the cost of the item can be measured reliably. All other repairs and maintenance costs are expensed when incurred.

An investment property is derecognised upon disposal or when the investment property is permanently withdrawn from use and no future economic benefits are expected from the disposal. Any gain or loss arising on derecognition of the property (calculated as the difference between the net disposal proceeds and the carrying amount of the asset) is included in profit or loss in the period in which the property is derecognised.

#### s) Intangible Assets

Unlock

206

#### Computer software, Educational content/products - Acquired

These Intangible assets are carried at cost less accumulated amortisation and accumulated impairment losses.

#### Education content/products-Internally generated

Expenditure on research activities is recognised as an expense in the period in which it is incurred. Development costs that are directly attributable to the design and testing of identifiable and unique software products controlled by the group are recognised as intangible assets when the following criteria are met:

- it is technically feasible to complete the development so that it will be available for use;
- management intends to complete the content/products and use or sell it;
- there is an ability to use or sell the content/products;
- it can be demonstrated how the content/products will generate probable future economic benefits;
- adequate technical, financial and other resources to complete the development and to use or sell the content/ products are available, and
- the expenditure attributable to the software during its development can be reliably measured.

Vith NIIT 207

#### Notes to the Consolidated Financial Statements for the year ended March 31, 2023 Contd...

Directly attributable costs that are capitalised as part of the intangible include employee costs and an appropriate portion of relevant overheads.

Capitalised development costs are recorded as intangible assets and amortised from the point at which the asset is available for use.

#### Goodwill

Goodwill on acquisitions of subsidiaries is included in intangible assets. Goodwill is not amortised but it is tested for impairment annually, or more frequently if events or changes in circumstances indicate that it might be impaired, and is carried at cost less accumulated impairment losses. Gains and losses on the disposal of an entity include the carrying amount of goodwill relating to the entity sold.

Brand, Trainers Database and Customer Relationships

Brand, Trainers Database and Customer Relationships acquired in a business combination are recognised at fair value at the acquisition date. They have a finite useful life and are subsequently carried at cost less accumulated amortization and impairment losses.

Amortisation methods and periods

Intangible assets are amortised on a straight line basis over their estimated useful lives which are as follows:

| Particulars                                    | Useful Life |
|--|-------------|
| a) Internally Generated (Content and products) |             |
| - School based non - IT content                | 10 Years    |
| - Others                                       | 3-5 Years   |
| b) Acquired (Software, contents and products)  | 3-5 Years   |
| c) Patents                                     | 3-5 Years   |
| d) Brand                                       | 2 Years     |
| e) Trainers Database                           | 5 Years     |
| f) Customer Relationships                      | 3 Years     |

#### t) Impairment testing of goodwill and intangible assets

Goodwill is allocated to cash-generating units for the purpose of impairment testing. The allocation is made to those cash-generating units or Group's cash-generating units that are expected to benefit from the business combination in which the goodwill arose. The units or Group's units are identified at the lowest level at which goodwill is monitored for internal management purposes, which in our case are the operating segments.

Other assets including brand are tested for impairment whenever events or changes in circumstances indicate that the carrying amount may not be recoverable. An impairment loss is recognised for the amount by which the asset's carrying amount exceeds its recoverable amount. The recoverable amount is the higher of an asset's fair value less costs of disposal and value in use. For the purposes of assessing impairment, assets are grouped at the lowest levels for which there are separately identifiable cash inflows which are largely independent of the cash inflows from other assets or groups of assets (cash-generating units).

#### u) Trade and other payables

These amounts represent liabilities for goods and services provided to the group prior to the end of financial year which are unpaid. Trade and other payables are presented as current liabilities unless payment is not due within 12 months after the reporting period. They are recognised initially at their fair value and subsequently measured at amortised cost using the effective interest method.

#### v) Borrowings

Borrowings are initially recognised at fair value, net of transaction costs incurred. Borrowings are subsequently measured at amortised cost. Any difference between the proceeds (net of transaction costs) and the redemption amount is recognised in profit or loss over the period of the borrowings using the effective interest method. Fees paid on the establishment of loan facilities are recognised as transaction costs of the loan to the extent that it is probable that some or all of the facility will be drawn down. In this case, the fee is deferred until the draw down occurs. To the extent there is no evidence that it is probable that some or all of the facility will be drawn down, the fee is capitalised as a prepayment for liquidity services and amortised over the period of the facility to which it relates.

Borrowings are derecognised from the balance sheet when the obligation specified in the contract is discharged, cancelled or expired. The difference between the carrying amount of a financial liability that has been extinguished or transferred to another party and the consideration paid, including any non-cash assets transferred or liabilities assumed, is recognised in profit or loss as other gains/(losses).

Borrowings are classified as current liabilities unless the group has an unconditional right to defer settlement of the liability for at least 12 months after the reporting period. Where there is a breach of a material provision of a long-term loan arrangement on or before the end of the reporting period with the effect that the liability becomes payable on demand on the reporting date, the entity does not classify the liability as current, if the lender agreed, after the reporting period and before the approval of the financial statements for issue, not to demand payment as a consequence of the breach.

#### w) Borrowings cost

General and specific borrowing costs that are directly attributable to the acquisition, construction or production of a qualifying asset are capitalised during the period of time that is required to complete and prepare the asset for its intended use or sale. Qualifying assets are assets that necessarily take a substantial period of time to get ready for their intended use or sale.

Other borrowing costs are expensed in the period in which they are incurred.

#### x) Provisions

Provisions are recognised when the group has a present legal or constructive obligation as a result of past events, it is probable that an outflow of resources will be required to settle the obligation and the amount can be reliably estimated. Provisions are not recognised for future operating losses.

Where there are a number of similar obligations, the likelihood that an outflow will be required in settlement is determined by considering the class of obligations as a whole. A provision is recognised even if the likelihood of an outflow with respect to any one item included in the same class of obligations may be small.

Provisions are measured at the present value of management's best estimate of the expenditure required to settle the present obligation at the end of the reporting period. The discount rate used to determine the present value is a pre-tax rate that reflects current market assessments of the time value of money and the risks specific to the liability.

Provisions for onerous contracts are recognised when the expected benefits to be derived by the Group from a contract are lower than the unavoidable costs of meeting the future obligations under the contract. The provision is measured at the present value of the lower of the expected cost of terminating the contract and the expected net cost of continuing with the contract. Before a provision is established the Group recognizes any impairment loss on the assets associated with that contract.

#### y) Employee benefits

#### I. Short-term obligations

Liabilities for wages and salaries, including non-monetary benefits that are expected to be settled wholly within 12 months after the end of the period in which the employees render the related service are recognised in respect of employees' services up to the end of the reporting period and are measured at the amounts expected to be paid when the liabilities are settled. The liabilities are presented as current employee benefit obligations in the balance sheet.

#### II. Other long-term employee benefit obligations

The liabilities for earned leave and sick leave are not expected to be settled wholly within 12 months after the end of the period in which the employees render the related service. They are therefore measured as the present value of expected future payments to be made in respect of services provided by employees up to the end of the reporting period using the projected unit credit method. The benefits are discounted using the market yields at the end of the reporting period that have terms approximating to the terms of the related obligation. Remeasurements as a result of experience adjustments and changes in actuarial assumptions are recognised in profit or loss.

The obligations are presented as current liabilities in the balance sheet if the entity does not have an unconditional right to defer settlement for at least twelve months after the reporting period, regardless of when the actual settlement is expected to occur.

#### III. Post-employment obligations

The group operates the following post-employment schemes:

- Defined benefit plans such as Gratuity and Compensated absences
- Defined contribution plan such as Provident fund, Superannuation fund, Pension fund, National Pension System, and Overseas plans.

#### Gratuity

208

The liability or asset recognised in the balance sheet in respect of defined benefit gratuity plans is the present value of the defined benefit obligation at the end of the reporting period less the fair value of plan assets. The defined benefit obligation is calculated annually by actuaries using the projected unit credit method.

209

#### Notes to the Consolidated Financial Statements for the year ended March 31, 2023 Contd..

The present value of the defined benefit obligation denominated in Rs. is determined by discounting the estimated future cash outflows by reference to market yields at the end of the reporting period on government bonds that have terms approximating to the terms of the related obligation.

The net interest cost is calculated by applying the discount rate to the net balance of the defined benefit obligation and the fair value of plan assets. This cost is included in employee benefit expense in the statement of profit and loss.

Remeasurement gains and losses arising from experience adjustments and changes in actuarial assumptions are recognised in the period in which they occur, directly in other comprehensive income. They are included in retained earnings in the consolidated statement of changes in equity and in the consolidated balance sheet.

Changes in the present value of the defined benefit obligation resulting from plan amendments or curtailments are recognised immediately in profit or loss as past service cost.

#### Compensated absences

Liability in respect of compensated absences is provided for both encashable leave and those expected to be availed. The Group has defined benefit plans for compensated absences for employees, the liability for which is determined on the basis of an actuarial valuation at the end of the year using projected unit credit method. Any gain or loss arising out of such valuation is recognised in the Consolidated Statement of profit and loss as income or expense as the case may be.

Accumulated compensated absences, which are expected to be availed within twelve months from the end of the year are treated as short term employee benefits. The obligation towards the same is measured at the expected undiscounted cost of accumulated compensated absences expected to be availed based on the unutilised entitlement at the year end.

#### Provident fund

The Group makes contribution to the "NIIT LIMITED EMPLOYEES' PROVIDENT FUND TRUST" for certain entities in India, which is a defined benefit plan to the extent that the Company has an obligation to make good the shortfall, if any, between the return from the investments of the trust and the notified interest rate. The Group's obligation in this regard is actuarially determined using projected unit credit method and provided for if the circumstances indicate that the Trust may not be able to generate adequate returns to cover the interest rates notified by the Government.

The Group's contribution towards Provident Fund is charged to Consolidated Statement of Profit and Loss.

For employees of the entities not covered above, provident fund contributions are made to the Regional Provident Fund Commissioner in accordance with the Employee Provident Fund Rules and are accounted as defined contribution plans and charged to Consolidated Statement of Profit and Loss.

#### Superannuation fund

The Group makes defined contribution to the Trust established for the purpose by the Holding company towards superannuation fund maintained with Life Insurance Corporation of India. The Group has no further obligations beyond its monthly contributions. Contribution made during the year is charged to Consolidated Statement of Profit and Loss.

#### Pension fund

The Group makes defined contribution to a government administered pension fund towards it's pension plan on behalf of its employees. The Group has no further obligations beyond its monthly contributions. The contribution towards Employee Pension Scheme is charged to Consolidated Statement of Profit and Loss.

#### **Overseas** Plans

In respect of the subsidiaries incorporated outside India, the subsidiaries make defined contributions on a monthly basis towards the respective retirement plans which are charged to Consolidated Statement of Profit and Loss. These subsidiaries have no further obligation towards the respective retirement benefits.

#### National Pension System

The Group makes defined contribution towards National Pension System for certain employees for which Group has no further obligation. Contributions made during the year are charged to Consolidated Statement of Profit and Loss.

#### z) Share based payments - Employee stock option plan (ESOP)

The fair value of options granted under the 'NIIT Employee Stock Option Plan 2005' is recognised as an employee benefits expense with a corresponding increase in equity. The total amount to be expensed is determined by reference to the fair value of the options granted:

- including any market performance conditions (e.g., the entity's share price)
- excluding the impact of any service and non-market performance vesting conditions (e.g. profitability, sales growth targets and remaining an employee of the entity over a specified time period), and
- including the impact of any non-vesting conditions (e.g. the requirement for employees to save or holdings shares for a specific period of time).

The total expense is recognised over the vesting period, which is the period over which all of the specified vesting conditions are to be satisfied. At the end of each period, the entity revises its estimates of the number of options that are expected to vest based on the non-market vesting and service conditions. It recognises the impact of the revision to original estimates, if any, in profit or loss, with a corresponding adjustment to equity.

#### aa) Share capital

Equity share capital

Issuance of ordinary shares are recognised as equity share capital in equity. Incremental costs directly attributable to the issuance of new equity shares are recognised as a deduction from equity, net of any tax effects.

#### ab) Dividends

The final dividend on shares is recorded as a liability on the date of approval by the shareholders and interim dividends are recorded as a liability on the date of declaration by the Company's Board of Directors.

The Company declares and pays dividends in Indian rupees. Companies are required to pay/distribute dividend after deducting applicable taxes. The remittance of dividends outside India is governed by Indian law on foreign exchange and is also subject to withholding tax at applicable rates.

#### ac) Earnings per share

#### i. Basic earnings per share

Basic earnings per share is calculated by dividing the profit attributable to owners of the Group by the weighted average number of equity shares outstanding during the financial year.

#### ii. Diluted earnings per share

Diluted earnings per share adjusts the figures used in the determination of basic earnings per share to take into account:

- the after income tax effect of interest and other financing costs associated with dilutive potential equity shares, and
- the weighted average number of additional equity shares that would have been outstanding assuming the conversion of all dilutive potential equity shares.

#### ad) Fair value measurement

Fair value is the price that would be received to sell an asset or paid to transfer a liability in an orderly transaction between market participants at the measurement date. The fair value measurement is based on the presumption that the transaction to sell the asset or transfer the liability takes place either:

- In the principal market for the asset or liability, or
- In the absence of a principal market, In the most advantageous market for the asset or liability

The principal or the most advantageous market must be accessible to/ by the Group.

All assets and liabilities for which fair value is measured or disclosed in the financial statements are categorised within the fair value hierarchy, described as follows, based on the lowest level input that is significant to the fair value measurement as a whole:

**Level 1**: Level 1 hierarchy includes financial instruments measured using quoted prices. This includes listed equity instruments, traded bonds and mutual funds that have quoted price. The fair value of all equity instruments (including bonds) which are traded in the stock exchanges is valued using the closing price as at the reporting period. The mutual funds are valued using the closing net asset value.

**Level 2**: The fair value of financial instruments that are not traded in an active market (for example foreign exchange forward contracts) is determined using valuation techniques which maximize the use of observable market data and rely as little as possible on entity-specific estimates. If all significant inputs required to fair value an instrument are observable, the instrument is included in level 2.

**Level 3**: If one or more of the significant inputs is not based on observable market data, the instrument is included in level 3. This is the case for unlisted equity securities, contingent consideration and indemnification asset included in level 3.

For assets and liabilities that are recognised in the financial statements on a recurring basis, the Group determines whether transfers have occurred between levels in the hierarchy by reassessing categorisation (based on the lowest level input that is significant to the fair value measurement as a whole) at the end of each reporting period.

For the purpose of fair value disclosures, the Group has determined classes of assets and liabilities on the basis of the nature, characteristics and risks of the asset or liability and the level of the fair value hierarchy as explained above. The Group measures financial instruments, such as, investments (other than investment in subsidiaries), at fair value at each reporting date.

#### ae) Critical accounting estimates and judgements

210

In preparing these financial statements, management has made judgements, estimates and assumptions that affect the application of accounting policies and the reported amounts of assets, liabilities, income and expenses. Actual results may differ from these estimates.

Estimates and underlying assumptions are reviewed on an ongoing basis. Revisions to accounting estimates are recognised prospectively. Information about significant areas of estimation/uncertainty and judgements in applying accounting policies that have the most significant effect on the financial statements are as follows:

Measurement of defined benefit obligations: key actuarial assumptions- refer notes 2 y.

Measurement of useful life and residual values of property, plant and equipment -refer note 2 q.

Judgement required to determine grant date fair value technique -refer notes 2 z and 25.

Fair value measurement of financial instruments - refer notes 2 ad and 26.

Judgement required to determine probability of recognition of deferred tax assets and MAT credit entitlement - refer note 2 i. There are no assumptions and estimation uncertainties that have a significant risk of resulting in a material adjustment within the next financial year.

#### af) Exceptional items

Exceptional items refer to items of income or expense within the income statement that are of such size, nature or incidence that their separate disclosure is considered necessary to explain the performance for the period.

Materiality threshold can be used to select items to be disclosed as exceptional on case to case basis. This threshold would be applied separately for standalone as well as consolidated financial statements. However, in case an item qualifies for disclosure in standalone financial statements but not in consolidated financial statements or vice versa, this would need to be evaluated on case to case basis.

Basis the above analysis, mainly following items would be evaluated for disclosure as exceptional items:

- a) Business Combination: Impact of one-time accounting policy alignment / unusual write off / impairment of assets arising as a result of business combination, including transaction cost.
- b) Fair valuation gains on business combination.
- c) Reassessment / Change in life of asset (in case of re-evaluation of business/product, impact of all assets specific to that business/product to be considered for applying the threshold).
- d) Disputed regulatory / tax levies including tax rate change having retrospective impact (other than impact on account of restatement of deferred tax asset / liability for tax rate change) only impact for the past periods to be disclosed as exceptional.
- e) Provision for other than temporary diminution in the value of non-current investment.
- f) Shareholders' dispute settlement arising out of merger / acquisition transactions.
- g) Write-downs of inventories to net realisable value or of property, plant and equipment to recoverable amount, as well as reversals of such write-downs.
- h) Restructurings of the activities of an entity and reversals of any provisions for the costs of restructuring.

In case of other significant item of income or expense, not covered above, the same would be evaluated on a case to case basis for disclosure under exceptional items.

#### ag) Non-current assets held for sale and discontinued operations

Non-current assets (or disposal group) are classified as held for sale if their carrying amount will be recovered principally through a sale transaction rather than through continuing use and a sale is considered highly probable. They are measured at the lower of their carrying amount and fair value less cost to sell, except for assets such as deferred tax assets, assets arising from employee benefits, financial assets and contractual rights under insurance contracts, which are specifically exempt from this requirement.

An impairment loss is recognised for any initial or subsequent write –down of the asset (or disposal group) to fair value less costs to sell. A gain is recognised for any subsequent increase in fair value less costs sell of an asset (or disposal group), but not in excess of any cumulative impairment loss previously recognised. A gain or loss not previously recognised by the date of the sale of the non –current asset (or disposal group) is recognised at the date of derecognition.

Non-current assets (including those that are part of a disposal group) are not depreciated or amortised while they are classified as held for sale. Interest and other expenses attributable to the liabilities of a disposal group classified as held for sale continue to recognised.

Non-current assets classified as held for sale and the assets of a disposal group classified as held for sale are presented separately from the other assets in balance sheet. The liabilities of a disposal group classified as held for sale are presented separately from other liabilities in balance sheet.

A discontinued operations is a component of the entity that has been disposed off or is classified as held for sale and that represents a separate major line of business or geographical area of operations, is part of a single co-ordinated plan to dispose off such a line of business or area of operations, or is a subsidiary acquired exclusively with a view to resale. The results of discontinued operations are presented separately in the consolidated statement of profit or loss.

#### 5(a) Impairment testing of goodwill and other intangible assets having indefinite useful lives

For impairment testing, goodwill is allocated to a Cash Generating Unit (CGU) representing the lowest level within the Group at which goodwill is monitored for internal management purposes, and which is not higher than the Group's operating segment. Goodwill is tested for impairment at least annually in accordance with the Group's procedure for determining the recoverable value of each CGU.

The following table sets out the net carrying amount of goodwill & brand (having indefinite useful lives) allocated to CGUs:

| Particulars          | RPS Consulting<br>Business | Life Science | s Practice * | IFBI**   | Total    |

\* Transferred pursuant to the Scheme of Arrangement (Refer note 37)

\*\* Goodwill related to NIIT Institute of Finance Banking and Insurance Training Limited (IFBI).

The recoverable amount of the CGU is determined on the basis of discounted cash flows (DCF). The DCF of the CGU is determined based on estimation of the cash flows, the Group is expected to generate in next five years projections approved by the senior management.

#### **RPS** Consulting Business

The recoverable amount of the RPS Consulting Business CGU has been determined based on a value in use calculation using cash flow projections approved by senior management. Based on which, it was concluded that the recoverable amount exceeds the carrying value. As a result of this analysis, the Group has not recognised any impairment charge against goodwill in the consolidated statement of profit and loss for the year ended March 31, 2023.

#### Key Assumptions used in calculations of impairment testing:

i) Discount rates - Discount rates represent the current market assessment of the risks specific to each CGU, taking into consideration the time value of money and individual risks of the underlying assets that have not been incorporated in the cash flow estimates. The discount rate calculation is based on the specific circumstances of the Group and its operating segments and is derived from its weighted average cost of capital (WACC). The WACC takes into account both debt and equity. The cost of equity is derived from the expected return on investment by the Group's investors. The cost of debt is based on the interest-bearing borrowings the Group is obliged to service. Segment-specific risk is incorporated by applying individual beta factors. The beta factors are evaluated annually based on publicly available market data.

#### Notes to the Consolidated Financial Statements for the year ended March 31, 2023 Contd..

(All Amount in Rs. Millions, unless otherwise stated)

Assumptions of discount rates used in impairment testing is as under:

| CGU Unit   | March 31, 2023         | March 31, 2022            |
|--|------------------------|---------------------------|
| RPS Consulting Business  | 16.00%                 | 11.75%                    |
| A rise in the pre-tax discount rate by 5% in the respective CGUs would not | result in any impairme | ent of assets as there is |

A rise in the pre-tax discount rate by 5% in the respective CGUs would not result in any impairment ot assets as there is sufficient headroom.

ii) Growth rate estimates – Rates are based on published industry research. Management recognises that the possibility of new entrants can have a significant impact on growth rate assumptions. The effect of new entrants is not expected to have an adverse impact on the forecasts.

#### Assumptions of growth rates used in impairment testing is as under:

| CGU Unit                | March 31, 2023 | March 31, 2022 |
|-------------------------|----------------|----------------|
| RPS Consulting Business | 4%             | 4%             |

A reduction by 5% in the long-term growth rate in the respective CGUs would not result in any impairment.

5 (i) The Group is internally developing new software tools, platforms and content/ courseware. The investments would further expand the business of the Group in existing and new markets, enhance capabilities of its products and software and offer more technology based learning products/ solutions to the customers in future. The Group is confident of its ability to generate future economic benefits out of the above mentioned assets. The costs incurred towards the development is as follows:

### Footnotes

(i) Capital reserve represents the reserve created on Amalgamation and Business Combinations.

(ii) The amount represents the additional amount shareholders paid for their issued shares that was in excess of the par value of those shares. The same can be utilised for the items specified under section 52 of Companies Act, 2013.

(iii) General Reserve represents requirement to transfer specific sums to General Reserve as per the local laws of the jurisdiction.

(iv) As per Companies Act, 2013, capital redemption reserve is created when company purchases its own shares out of free reserves or security premium. A sum equal to the nominal value of shares so purchased is transferred to capital redemption reserve. The reserve can be utilised in accordance with the provisions of Section 69 of Companies Act, 2013.

(v) The Group has transferred employee stock option outstanding of Rs. 0.12 Million (Previous year Rs.2.36 Million) to retained earnings on account of lapse of vested options.

(i) The group uses hedging instruments as part of its management of foreign currency risk associated with its highly probable forecasted transactions, i.e., revenue, as described in Note 27. The group uses Foreign Currency Forward Contracts which are designated as Cash Flow Hedges for hedging foreign currency risk. To the extent these hedges are effective, the change in fair value of the hedging instrument is recognised in the Cash Flow Hedging Reserve. Amount recognised in the Cash Flow Hedging Reserve is reclassified to Consolidated Statement of Profit or Loss when the hedged item effects profit and loss, i.e., Revenue.

 Exchange differences arising on translation of the foreign operations are recognised in other comprehensive income as described in accounting policy and accumulated in a separate reserve within equity.

### B) Defined Benefit Plans

### I. Provident Fund

The Group makes contribution to the "NIIT LIMITED EMPLOYEES' PROVIDENT FUND TRUST" ("the Trust") [for NIIT Limited and certain other domestic subsidiaries]. The Group contributed Rs. 20.27 Million (Previous year Rs. 16.97 Million) including Rs. 0.66 Million (Previous year Rs. 3.12 Million) in respect of Key Management personnel during the year to the Trust.

The Group has an obligation to make good the shortfall, if any, between the return from the investments of the Trust and the notified interest rate. The Group's obligation in this regard is actuarially determined and provided for if the circumstances indicate that the Trust may not be able to generate adequate returns to cover the interest rates notified by the Government.

The guidance on implementing Ind AS 19 Employee Benefits, issued by Accounting Standards Board (ASB) of The Institute of Chartered Accountants of India, states that benefits involving employer established provident fund trust, which require interest shortfall to be compensated by the employer is required to be considered as Defined Benefits Plans. The actuary has provided a valuation and based on the below mentioned assumptions, determined that there is no short fall as at March 31, 2023.

The details of fund and plan assets of the Trust as at March 31, 2023 (limited to the extent provided by the actuary):

### vii) Investment details of Plan Assets:-

The plan assets are maintained with Life Insurance Corporation of India Gratuity Scheme. The details of investment maintained by Life Insurance Corporation are not available with the Group and have not been disclosed.

The expected return on plan assets is determined considering several applicable factors mainly the compensation of plan assets held, assessed risk of asset management, historical result of the return on plan assets.

### Sensitivity analysis

The sensitivity of the defined benefit obligation to changes in the weighted principal assumptions is:

|                    | Impact on defined benefit obligation |                        |                        |  |  |  |

| Withdrawal rate    | 5.00%                                | (5.09)                 | 5.47                   |  |  |  |

|                    | Impact on defined benefit obligation |                        |                        |  |  |  |
|--------------------|--------------------------------------|------------------------|------------------------|--|--|--|
| Particulars        | Change in assumption                 | Increase in assumption | Decrease in assumption |  |  |  |
|                    | March 31, 2022                       | March 31, 2022         | March 31, 2022         |  |  |  |
| Discount rate      | 0.50%                                | (14.43)                | 15.45                  |  |  |  |
| Salary growth rate | 0.50%                                | 14.53                  | (13.70)                |  |  |  |
| Withdrawal rate    | 5.00%                                | (26.52)                | 26.99                  |  |  |  |

The above sensitivity analysis are based on a change in an assumption while holding all other assumptions constant. In practice, this is unlikely to occur, and changes in some of the assumptions may be correlated. When calculating the sensitivity of the defined benefit obligation to significant actuarial assumptions the same method (present value of the defined benefit obligation calculated with the projected unit credit method at the end of the reporting period) has been applied for calculating the defined benefit liability recognised in the balance sheet.

### Risk exposure

Through its defined benefit plans, the Group is exposed to a number of risks, the most significant of which are market volatility, changes in inflation, changes in interest rates, rising longevity, changing economic environment, regulatory changes etc. The Group ensures that the investment positions are managed within an asset-liability matching framework that has been developed to achieve investments which are in line with the obligations under the employee benefit plans. Within this framework, the Group's asset-liability matching objective is to match assets to the obligations by investing in securities to match the benefit payments as they fall due.

The Group actively monitors how the duration and the expected yield of the investments are matching the expected cash outflows arising from employee benefit obligations. The Group has not changed the processes used to manage its risks from previous periods. Investments are well diversified, such that failure of any single investment should not have a material impact on the overall level of assets.

### Notes to the Consolidated Financial Statements for the year ended March 31, 2023 Contd..

### (All Amount in Rs. Millions, unless otherwise stated)

As per the plan, each option is exercisable for one equity share of face value of Rs. 2 each (Rs. 10 each pre bonus and split) fully paid up on payment to the Company, at a price to be determined in accordance with ESOP 2005. ESOP information is given for the number of shares after sub-division and Bonus issue.

Pursuant to Scheme of the Arrangement, with respect to the stock options granted already by the Transferor Company prior to the Effective Date to its employees or that of its subsidiaries (irrespective of whether they are employees of the Transferor Company or its subsidiaries or become employees of the Transferee Company or its subsidiaries pursuant to this Scheme) under the Existing ESOP Scheme, and upon the Scheme becoming effective, all such option holders (whether the options granted to such option holders are vested or not) shall also be issued the stock options by the Transferee Company under the New ESOP Scheme, in accordance with the share entitlement ratio of 1:1 as per the Scheme.

### 26. Fair value measurements

### (i) Fair value hierarchy

236

To provide indication about the reliability of the inputs used in determining fair value, the Group has classified its financial instruments into the three levels prescribed under the accounting standard explained below:

Level 1: Level 1 hierarchy includes financial instruments measured using quoted prices. This includes listed equity instruments, traded bonds and mutual funds that have quoted price. The fair value of all equity instruments (including bonds) which are traded in the stock exchanges is valued using the closing price as at the reporting period. The mutual funds are valued using the closing net asset value.

Level 2: The fair value of financial instruments that are not traded in an active market (for example foreign exchange forward contracts) is determined using valuation techniques which maximize the use of observable market data and rely as little as possible on entity-specific estimates. If all significant inputs required to fair value an instrument are observable, the instrument is included in level 2.

Level 3: If one or more of the significant inputs is not based on observable market data, the instrument is included in level 3. This is the case for unlisted equity securities, contingent consideration and indemnification asset included in level 3.

The Group's policy is to recognize transfers into and transfers out of fair value hierarchy levels at the end of reporting period.

### (ii) Valuation technique used to determine fair value

Specific valuation techniques used to value financial instruments include:

- The use of quoted market prices for similar instruments.
- The fair value of forward foreign exchange contracts is determined using Mark to Market Valuation by the respective bank at the balance sheet date.
- -- The fair value of the remaining financial instruments is determined using discounted cash flow analysis.

\*Financial liability for future acquisition amounting to Rs. 150.67 Milion (Previous year Rs. 511.94 Million) has been measured through fair valuation by other equity.

As of March 31, 2023 and March 31, 2022, the fair value of cash and bank balances, trade receivables, other financial assets and liabilities, borrowings, trade payables approximate their carrying amount largely due to the nature of these instruments.

### 27 Financial risk management

Financial instruments by category

The Group's principal financial liabilities, other than derivatives, comprise loans and borrowings, trade and other payables. The main purpose of these financial liabilities is to finance the Group's operations and to provide guarantees to support its operations. The Group's principal financial assets include trade and other receivables, cash and short-term deposits that derive directly from its operations.

The Group is exposed to market risk, credit risk and liquidity risk. The Group's senior management oversees the management of these risks. The Group's senior management is supported by a financial risk committee that advises on financial risks and the appropriate financial risk governance framework for the Group. The finance committee provides assurance to the Group's senior management that the Group's financial risk activities are governed by appropriate policies and procedures and that financial risks are identified, measured and managed in accordance with the Group's policies and risk objectives. All derivative activities for risk management purposes are carried out by specialist teams that have the appropriate skills, experience and supervision. It is the Group's policy that no trading in derivatives for speculative purposes may be undertaken. The Board of Directors reviews and agrees policies for managing each of these risks, which are summarised below:

### (A) Credit risk

Credit risk refers to the risk of default on its obligation by the counter party resulting in a financial loss. The maximum exposure to the credit risk at the reporting date is primarily from trade receivables (net) amounting to Rs. 305.99 Million and Rs. 1,886.18 Million as of March 31, 2023 and March 31, 2022 respectively and unbilled revenue (net) amounting to Rs. 264.80 Million and Rs. 990.51 Million as of March 31, 2023 and March 31, 2022 respectively.

Trade receivables and unbilled revenue are typically unsecured and are derived from revenue earned through government customers and other corporate customers. The Group has used the expected credit loss model to assess the impairment loss or gain on trade receivables and unbilled revenue, and has provided it wherever appropriate. The following table gives the movement in allowance for expected credit loss for the year ended March 31, 2023:

### Reconciliation of loss allowance provision.

| Particulars   | Trade Receivables | Unbilled Revenue |
|---|-------------------|------------------|
| Loss allowance as on April 01, 2021                 | 680.52            | 48.03            |

| Add: Provision for Expected credit loss*            | (11.41)           | 43.28            |
| Loss allowance as on March 31, 2022                 | 610.45            | 91.31            |
| Less: Transferred pursuant to Scheme of Arrangement | (290.70)          | (2.89)           |
| Less: Bad Debts/Unbilled Revenue written off        | (2.21)            | (34.44)          |
| Add: Provision for Expected credit loss*            | 9.60              | 30.65            |
| Loss allowance as on March 31, 2023                 | 327.14            | 84.63            |

\*Provision (net of reversal) for expected credit loss in unbilled revenue and trade receivables includes Rs. 30.65 Million (Previous year Rs. 42.78 Million) recognised in consolidated statement of profit and loss in discontinued operations.

### (All Amount in Rs. Millions, unless otherwise stated)

### (B) Liquidity risk

The Group's principal sources of liquidity are cash and cash equivalents and the cash flow that is generated from operations. The Group has outstanding borrowings as term loans and working capital limits from banks. The term loans are secured by a charge on the book debts and movable & immovable assets of the relevant entities. However, the Group believes that the working capital is sufficient to meet its current requirements. Accordingly, no liquidity risk is perceived.

### (i) Maturities of financial liabilities

The table below provides details regarding the contractual maturities of significant financial liabilities:

### (C) Market risk

Market risk is the risk that the fair value of future cash flows of a financial instrument will fluctuate because of changes in market prices. Market risk comprises three types of risk: interest rate risk, currency risk and other price risk, such as equity price risk and commodity risk. Financial instruments affected by market risk include loans and borrowings, deposits, investments measured at FVTPL and derivative financial instruments.

### (i) Interest rate risk

Interest rate risk is the risk that the fair value or future cash flows of a financial instrument will fluctuate because of changes in market interest rates. The Group's interest rate risk arises primarily from the foreign currency term loan carrying at floating rate of interest. These obligations exposes the Group to cash flow interest rate risk. The Group has mitigated the interest rate risk on foreign currency term loan by converting it from floating rate to fixed rate through currency swap. Hence, there is no significant challenge of interest rate risk.

### (ii) Foreign currency risk

The Group operates internationally and is exposed to foreign exchange risk arising from foreign currency transactions, primarily with respect to the SGD, USD, EUR, NOK, GBP and AUD. Foreign exchange risk arises from future commercial transactions and recognised assets and liabilities denominated in a currency that is not the company's functional currency (Rs.). The Group evaluates its exchange rate exposure arising from these transactions and enters into foreign exchange forward contracts to hedge forecasted cash flows denominated in foreign currency and mitigate such exposure.

The Group's exposure to foreign currency risk at the end of the reporting period expressed in Rs., are as follows

### 28 Capital management

The primary objective of the management of the Group's capital structure is to maintain an efficient mix of debt and equity in order to achieve a low cost of capital, while taking into account the desirability of retaining financial flexibility to pursue business opportunities and adequate access to liquidity to mitigate the effect of unforeseen events on cash flows to maximise the shareholder value. Management also monitors the return on equity.

TheBoardofdirectorsregularlyreviewtheGroup'scapitalstructureinlightoftheeconomicconditions, business strategies and future commitments. For the purpose of the Group's capital management, capital includes issued share capital, securities premium and all other equity reserves. Debt includes, foreign currency term loan and other borrowings.

Loans availed by the Group are subject to certain financial covenants and the Group is compliant with these financial covenants on the reporting date as per the terms of the loan agreement.

There is no default on the repayment of borrowings (including interest thereon) during the year ended March 31, 2023.

\*It pertains to alleged dues towards provident fund payable by vendors of the Company which the Company is also contesting. The Group does not expect any reimbursements in respect of the above.

ii) The Holding Company had received Show Cause Notices under section 263 of the Income Tax Act, 1961, issued by the Commissioner of Income Tax (CIT) for the Assessment years 1999-00 to 2005-06, who later issued Orders directing the Assessing Officer for reassessment on certain items. The orders passed by the CIT u/s 263 for AY 1999-00 to AY 2005-06 have been challenged by the Holding Company in the Income Tax Appellate Tribunal ('the Tribunal'). The Tribunal has since passed order for AY 1999-00 wherein the Tribunal has decided the issue of assumption of jurisdiction against the Holding Company and on merits, the Tribunal has allowed some of the issues and dismissed others which were referred back to the assessing officer for fresh examination. The Holding Company has filed an appeal before the Hon'ble High Court of Delhi against the aforesaid order of the Tribunal which is pending for disposal. At this stage there is no ascertained/quantified demands. Based on legal opinion, the Holding Company has fair chances of obtaining adequate relief before the Appellate Authorities.

### (All Amount in Rs. Millions, unless otherwise stated)

It is not practical for the Holding Company to estimate the timings of cash outflows, if any, in respect of the above pending resolution of the respective proceedings. Management does not foresee any financial implication based on advice of legal counsel.

Serious Fraud Investigation Office ('SFIO') has filed a case against one of the past vendors, from whom the Holding Company has obtained certain services during FY 2002-05, which are also the subject matter of the above-mentioned matter u/s 263. Recently, the Holding Company has received a copy of partial complaint from the Court of ACMM, Delhi, who has made the Holding Company also a party to the above case. While the Holding Company has requested for a complete copy of complaint, which is yet to be received, based on the legal advice the matter is not maintainable and accordingly the Holding Company has filed a revision petition challenging the summoning order of the Court, which is pending to be heard.

### 37 Composite Scheme of Arrangement

(A) The Board of Directors of the Company, in its meeting held on January 28, 2022 approved a Composite Scheme of Arrangement ("Scheme") under Section 230 to 232 and other applicable provisions of the Companies Act 2013 between NIIT Limited ("Transferor Company" or "NIIT") and NIIT Learning Systems Limited (Formerly known as Mindchampion Learning Systems Limited) ("Transferee Company" or "NLISI") a wholly owned subsidiary of the Company and their respective shareholders and creditors ("Scheme"). The Scheme inter-alia provides for, (i) Transfer and Vesting of CLG Business Undertaking by the Transferor Company, (iii) Issuance and allotment of shares by the Transferee Company to the shareholders of Transfereo Company in consideration of CLG Business undertaking.

On May 19, 2023, the National Company Law Tribunal (NCLT), Chandigarh Bench sanctioned/ approved the Composite Scheme of Arrangement. which was made effective on May 24, 2023 upon filing of the certified copies of the NCLT Orders sanctioning the Scheme with the respective jurisdictional Registrar of Companies. Pursuant to the Scheme becoming effective, the CLG Business Undertaking ("Demerged Undertaking") is demerged from NIIT and transferred to and vested in NLSL with effect from April 1, 2022 i.e. the Appointed Date as per Scheme.

The transactions pertaining to the Demerged Undertaking of NIIT from the appointed date upto the effective date of the Scheme have been made by NIIT on behalf of NLSL as per the Scheme.

Further, the consolidated statement of profit and loss for the year ended March 31, 2022 have been restated by the Company to give effect of the Scheme. The transferred business as defined in the 'Scheme' have been disclosed as 'Discontinued Operations' in the consolidated financial statements for the year ended March 31, 2022, as per the requirements of Ind AS 105 - "Non-current Assets Held for Sale and Discontinued Operations".

The assets and liabilities of the Demerged Undertaking were transferred at their book value as appearing in the books of the transferror company with effect from April 1, 2022 i.e. the Appointed Date as per Scheme.

### (B) Basis of Carve Out Financials with respect to Demerged Undertaking

The Financial Information is prepared in accordance with the Guidance Note on 'Combined and Carve-out Financial information' ("Guidance Note") issued by the Institute of Chartered accounts of India ("ICAI") which sets out overall framework for the preparation and presentation of the carve-out Financial Information. In preparing the said carve-out Financial Information, principles as set out in the Guidance Note and accounting method prescribed in the Scheme have been applied as below:

- i. The directly identifiable assets, liabilities, income and expenditures of the demerged undertaking are based on the books of accounts and underlying accounting records maintained by the Company.
- ii. All other assets including Fixed deposits, current investments in mutual funds liabilities, income and expenditures, (including Common in nature) have been allocated on the basis of Revenue, or any other reasonable basis as approved by the Board. Balance of Employees Stock Option Outstanding is transferred based on net book value of assets transferred of demerged undertaking over net worth of the NIIT Limited as on the appointed date pre-demerger.
- (C) Pursuant to the Scheme, the Company will issue and allot equity shares to the shareholders of NIIT Limited whose name appears in the register of members of NIIT as on the record date i.e. June 8, 2023, one equity share of Rs. 2/- each in NLSL as fully paid up for every equity share of Rs. 2/- each.

### 38 Discontinued operations

250

(i) During the year 2019-20, in line with its stated long term strategy of reducing exposure to low margin, capital intensive government business, the Group had decided not to pursue new skills contracts and decided to discontinue operations post completion of continuing commitments. These contracts were transferred from its wholly owned subsidiary NIIT Yuva Jyoti Limited (Liquidated on February 25, 2022) to the parent company (NIIT Limited) through an agreement.

In pursuance of applicable accounting standard (IND AS - 105), the net results (i.e. revenue minus expenses) of such operations are disclosed separately as loss from 'Discontinued Operations'.
