

How can companies benefit from outsourcing some activities in the L&D value chain?

Benefit 1

Cost

20% to 30% cost savings by leveraging activities and processes across multiple organizations.

Benefit 2

Productivity

20% to 25% reduced time to competency and measurable improvement in proficiency to deliver significant savings in cost of labor redirected to productivity.

Benefit 3

Control

Ability to control annual investment and spending priorities through aggregation, service level agreements and single point of accountability.

Benefit 4

Value

Enhanced value of training by significantly improving its relevance and aligning it with business goals.

Benefit 5

Focus

Freedom to focus on core strategy and core business.

Benefit 6

Optimization

Optimized costs and reduced overheads by moving from fixed to variable costs.
