## THE IT HUB

The Indian IT industry has solidified its position as a global powerhouse, serving as the primary hub for technological innovation and services. With a robust growth trajectory, it has become a key contributor to the country's economy, generating substantial revenue and employment opportunities. As of recent data, the industry's revenue is estimated to be around \$194 billion, with a significant portion coming from exports. However, the landscape is rapidly evolving, driven by emerging technologies like artificial intelligence (AI), blockchain, and cloud computing.

Looking ahead, the Indian IT industry is poised for further expansion, with revenue projected to surpass \$350 billion by 2025. This growth will be fueled by the increasing adoption of digital transformation initiatives worldwide. However, this upward trajectory also brings challenges, particularly in terms of reskilling the workforce to align with the demands of these emerging technologies. Automation and AI are expected to disrupt traditional job roles, with estimates suggesting that up to 30% of existing IT jobs could be at risk of displacement. To adapt, the industry is undergoing a significant shift towards upskilling and reskilling programs, aiming to equip the workforce with the necessary expertise to thrive in the digital age.

**23**  
Weeks

(3 sprints per week)

## PROGRAM ELIGIBILITY<sup>3</sup>

- ✓ Final year undergraduate students  
or Graduates in any stream

# PROGRAM CURRICULUM

Course Name	Brief Description
Digital marketing Fundamentals	Dive into digital marketing basics, learn how to use WordPress, understand how Google finds websites, and get the basics of SEO to make your site shine. This is a perfect first step for any student new to digital marketing!
Boost Your Brand: Mastering social media & Influencer Marketing	Learn to craft and share engaging content across social media, grow and understand your audience, and use social listening for insights. Plus, gain skills to manage the brand's online presence. Learn the art and science of influencer marketing.
Paid social media marketing	Unlock the secrets to creating, running, and perfecting paid ads on Facebook, Instagram, and Twitter. This module is your first step towards becoming a pro at digital advertising. By the end of this course, you will be able to clear Meta's certification exams.
The Google advertising ecosystem, programmatic media, and CTV	Learn how to dominate Google Ads, covering PPC, Google Shopping, Display Network, and YouTube Ads. Dive into the world of Programmatic Media and understand the CTV Ecosystem, devices, ad formats, and buying methods. By the end, you'll navigate Google's ad suite and CTV advertising with ease. On completion, you will be able to clear Meta's certification exams.
Google Analytics, Campaign Management & Reporting	Dive into Google Analytics to understand the dashboard, key metrics like sessions and bounce rates, and essential reports on audience, acquisition, behavior, and conversions. Learn to interpret data, craft custom reports in Excel, and use GPT to speed up your analysis. This module combines basic Excel skills with analytics insights, perfect for students looking to excel in data-driven marketing decisions.
Email Marketing, and CRM	Unlock the power of CRM tools and email marketing to find and keep customers. Learn how to combine these with WhatsApp for unbeatable marketing strategies. This is a much sought after skill by employers and perfect for students aiming to excel in customer acquisition, conversion, and retention in the digital age.
Navigating the Amazon Ecosystem	Unlock the secrets of Amazon with this module! Learn how to make product listings that stand out, handle customer reviews like a pro, and master advertising and promotions to boost your sales. Perfect for students aiming to work with brands that sell online.
Capstone Project	This course provides you with an opportunity to apply the skills you have learned so far in a real-life scenario.
