Courses:

- Certificate course in IT and Networking Skills
- Certificate course in Microsoft Office
- Certificate course in Web Development
In the age of constant disruptive innovation, technology is impacting everything we do, including how we communicate, work and live. What’s new today becomes obsolete tomorrow and so, professionals must keep their skills up-to-date at all times. Interestingly, the explosion of new technologies has resulted in the emergence of new age careers such as ethical hacking, data scientists, photonics, and even YouTubing. In this changing careers landscape, we know that the only constant there is – is learning. Therefore, the need of the hour is to build a constant pool of talent through efficient training strategies.

On that note, we introduced a first-of-its-kind strategic initiative Talent Pipeline as a Service (TPaaS).

Through it, our objective is to train around 1,00,000 youth within three years, readying them for the IT and BFSI sectors. This works in two ways - the youth we train are offered brilliant career opportunities and the leading organisations whom we service will have access to highly skilled talent.

The other similar initiative, we’ve launched, Career Programs, aims to train 60,000 graduates and undergraduates over the next two years in new-age careers in Digital Marketing and Branding, Data Analytics & Predictive Modelling, Full Stack Software Engineering, Banking, Finance & Accounting and Business Analytics. These programs include lectures by industry experts and are offered certifications from leading institutions such as IBM Bangalore, Harvard University, and The University of Edinburgh, amongst others. We also provide Guided Practice to polish learning at a pace comfortable to the learner.

The Life Sciences domain and Software Application Adoption expertise have been of keen interest to NIIT. In January 2018, we partnered with Eagle Productivity Solutions, USA to expand our training capability for global rollouts of cloud-based Enterprise Applications in the Pharmaceutical and Life Sciences Industry. This amalgamated offering of two industry leaders will create greater opportunities in the Life Sciences and the Software Application domains.

This year, we have also signed a five-year long-term landmark learning and development partnership agreement with Pitney Bowes, a global technology company that powers billions of transactions worldwide. Under this momentous arrangement, NIIT will take over a majority of their L&D activities and drive transformative improvements in the sector.

As pioneers in the learning sector, NIIT Nguru, in association with Marshall Cavendish, unveiled the My Pals Are Here – series based on Singapore Mathematics. It’s a fun-filled way to sharpen a child’s problem-solving and critical thinking skills.

Our global footprint spans more than 40 countries and in the last 38 years, we have touched the lives of over 35 million learners. Amongst all the accolades and success we have achieved, we take most pride in the trust our stakeholders have consistently bestowed upon us. As always, this year too, it has been raining awards and for us, and each one of them is a result of our world-class team that tirelessly works to make the 21st Century workplace, a happy place for all. As the Most Trusted Training Brand in India for 5th year in a row (Brand Trust Report, 2017), NIIT’s learning and talent development solutions, continue to receive widespread recognition globally. In 2017, Training Industry, Inc. USA has ranked NIIT USA among the Top 20 in - Training Outsourcing Companies (30th consecutive year), IT Training Companies (8th consecutive year), Content Development (7th consecutive year) and Gamification (4th consecutive year). NIIT USA also earned 20 Brandon Hall Group HCM Excellence Awards 2017 jointly with Customers and was named as the Innovation Award winner 2017 at the Future Learning 2020 Summit. For the second consecutive year, NIIT UK has been awarded the status of ‘Accredited Learning Provider’ 2017 by Learning and Performance Institute (LPI), UK.

The list continues with NIIT being conferred upon by Indian ICT journal Dataquest the ‘Top Training Company’ award successively for the past 20 years, since the inception of this category, the ‘Franchisor of the year’ 2017 – Vocational & Skill Development Training Institute by The Franchise India. NIIT MLSL has bagged three prestigious awards at the ‘3rd South Asia Education Summit 2017’ including the ‘Interactive Solution Provider’ award for NIIT Nguru - IT Wizard & MathPlus, ‘Testing and Assessment Tool Provider’ award for state-of-the-art NIIT Nguru - Practice Plus and the Teacher Training (K-12)’ award for ‘The CTET Advantage Program’. In addition, NIIT’s Training.com won ‘eEducation Services of the Year – Online educational services award 2017’ by Franchise India.

Our initiative, StackRoute, that acts as a digital transformation partner for corporates to build multi-skilled full stack developers @ scale, has won the ‘Most Innovative Learning Partner for Enterprises’ award at Times Ascent - National Award for Excellence in Training & Development 2018.

Organizations today seek candidates with complex problem-solving abilities and logical aptitude who can work on multiple technology platforms. The ideal candidate today is a lifelong learner who can adapt to the change and contribute to adding value from day one. Therefore, I urge students the world over to be agile and leverage from NIIT’s strength, and cutting-edge products and benefit from the digital era to build a bright and robust career that’s future-ready.

CEO, NIIT Limited
About NIIT

Established in 1981, NIIT Limited, a global leader in Skills & Talent Development, offers multi-disciplinary learning management and training delivery solutions to corporations, institutions, and individuals in over 40 countries.

NIIT University

Ushering in a new model in higher education is the not-for-profit NIIT University, established in 2009 with a vision of being the leading centre of innovation and learning in emerging areas of the Knowledge Society. Nestled in the foothills of Aravali, in Neemrana, Rajasthan, the picturesque 100 acres fully residential green campus has been developed as an institute of excellence based on the four core principles of providing industry linked, technology based, research driven, seamless education. NIIT University received “Best University in use of Technology in Teaching-Learning Practices” award at the National Education Excellence Awards 2013 by leading industry body ASSOCHAM, (Associated Chambers of Commerce and Industry of India) and the greenest and the most environment friendly campus award by India Today, 2011.
Career Education Business (CEB) delivers a diverse range of learning and talent development programs to millions of individual and corporate learners in areas including Banking, Finance & Insurance, Soft Skills, Business Process Excellence, Retail Sales Enablement, Management Education, Multi-Sectoral Vocational Skills, Digital Media Marketing, and new-age IT. These programs are delivered through a hybrid combination of the ‘Cloud Campus’ online platform, satellite-based ‘Synchronous Learning Technology’ and a physical network of hundreds of learning centres in India, China, and select markets in Asia & Africa. The flagship multi-disciplinary course offerings include the industry-endorsed GNIIT program and a set of Post Graduate Programs for students from different streams, apart from a wide range of specialist short duration programs.

To further strengthen its CEB portfolio in India, NIIT has tied up with industry majors like ICICI Bank for NIIT Institute of Finance Banking Insurance & Training Limited, IFBI; leading business schools in India for NIIT Imperia; Genpact for NIIT Uniqua and NIIT YuvaJyoti Limited, an NIIT subsidiary. Besides this, for the China market, NIIT has tied up with governments and software parks in Guan, Chongqing, Wuxi, Suzhou, Changzhou, Zhangjiagang, Haikou and Dafeng, for state-of-the-art public-private partnership centres.

Recently NIIT has introduced - StackRoute™ an initiative to produce the world's best full stack programmers. StackRoute™ aims to create multi-skilled, and multi-disciplinary programmers who can become key members of high-performance teams in top notch product engineering companies, startups, and IT firms. Further the company has also launched NIIT.tv - a digital learning initiative that brings skilling from NIIT classrooms to every digitally connected Indian, for free, at any time and place of their choice. A disruptive innovation by NIIT for the education space. NIIT.tv will deliver for the very first time, skill-based live courses as well as on-demand courses to the masses, through the digital medium.

NIIT’s Corporate Learning Group (CLG) offers Managed Training Services (MTS) to market-leading companies in North America, Europe, Asia, and Oceania. The comprehensive suite of Managed Training Services includes custom Curriculum Design and Content Development, Learning Administration, Learning Delivery, Strategic Sourcing, Learning Technology, and Advisory Services.

With a team of some of the world's finest learning professionals, NIIT is dedicated to helping customers increase the business value of learning and development (L&D). Built on the sound principles of ‘Running Training like a Business’, NIIT’s Managed Training Services and best-in-class training processes enable customers to align business goals with L&D, reduce costs, realise measurable value, benefit from rock-solid operations, and increase business impact.

NIIT’s learning and talent development solutions, have received widespread recognition globally. The company has been named among the Top 20 Training Outsourcing Companies for the past seven consecutive years by Training Industry, Inc. Further, leading Indian ICT journal Dataquest has conferred upon NIIT the ‘Top Training Company’ award successively for the past 20 years, since the inception of this category. NIIT Yuva Jyoti Ltd was recognized as the Best Vocational Education and Skill Development initiative at the World Education Summit, 2014.
The ITEC Program and NIIT

The ITEC program was launched in 1964 as a bilateral program of assistance of the Government of India. Under this program, candidates from 161 countries are trained in some of the best Institutions in the fields of Information Technology, Rural Development, Management, Accounts, and Environment and Renewable Energy.

The Ministry of External Affairs, Government of India has entrusted NIIT to impart quality IT training.

The ITEC Programme has the following components:

- Training (civilian and defence) in India of nominees from ITEC partner countries
- Projects and project related activities such as feasibility studies and consultancy services
- Deputation of Indian experts abroad
- Study Tours
- Gifts/Donations of equipment at the request of ITEC partner countries
- Aid for Disaster Relief

Testimonials

Greetings

I wish to express my heartfelt thanks and gratitude towards the government of India, ITEC and NITT Ltd. for this scholarship. I was given a unique opportunity to be exposed to English Language Course, Indian Culture, food and way of life.

I have had fantastic days in and out of the training session and I am sure this certificate will help me both personally and professionally.

Regards

Krishna Rao Dhallapah
Mauritius

---

I would like to express my gratitude to the government of India and ITEC for this great scholarship. I am glad that I got this opportunity to meet so many people from different countries and at the same time learn and gain knowledge.

I would like to Thank my trainers for treating us like family and helping in our learning.

I had great experience.

Regards

Anas Ghannam
