

Math Lab launched at The Aryans School

Launching a breakthrough initiative that aims at making the vital subject of mathematics simpler, easier and fun to learn for school students, NIIT launched its state-of-the-art 'NIIT nGuru Math Lab', at The Aryans School, recently. Present during the inauguration were Keka Mallik, principal, The Aryans School; Soumendra Mallik, founder principal and advisor, The Aryans School; Sunita Sen, principal, The BSS School; and Anurag Dixit, national sales head, School Learning Solutions, NIIT Ltd.

NIIT nGuru Math Lab' is a novel concept which enables school students to learn and explore mathematical concepts and verify mathematical facts and theorems using multiple teaching and learning aids, consisting of technology applications, videos, manipulative, measuring instruments, tables and charts, to schools based on the three pillars of 'Imagination, Investigation and Interaction.

Keka Mallik, principal, The Aryans School, said, "We are pleased to introduce NIIT nGuru Math Lab in The Aryans School, which will enable our students to learn, verify and explore mathematical concepts, facts and theorems by leveraging technological tools. Math Lab will encourage the students to think and discuss amongst themselves as well as with the teachers, to assimilate mathematical concepts."

Soumendra Mallik, founder principal and advisor, The Aryans School, said, "I am confident that the students of The Aryan School

will benefit immensely from NIIT nGuru Math Lab."

Anurag Dixit, national sales head, School Learning Solutions, NIIT Ltd., said, "NIIT nGuru Math Lab is a breakthrough initiative by NIIT to make the present curriculum simpler and interesting, thereby bringing back the joy of learning mathematics."

In addition to providing greater scope for individual participation in the process of learning and becoming autonomous learners, the Math Lab also enables the teacher to demonstrate, explain and reinforce abstract mathematical ideas by using concrete objects, models, charts, graphs, pictures, posters, etc.

Sunita Sen, principal, The BSS School, said, "The BSS School has been using NIIT nGuru Math Lab since the past four years now, and we have received very encouraging feedback for it from teachers and students alike. NIIT's Math Lab provides an opportunity to students to understand, internalize, discover and verify the basic mathematical and geometrical concepts through concrete objects and situations, thus builds interest and confidence in students learning the subject."

NIIT nGuru Math Lab is an innovative solution which enables students to learn and explore mathematical concepts using technology tools such as 'Geometer's Sketchpad' as well as undertake hands-on activities using a wide variety of mathematical models, to comprehend the subject better.
