NIIT LAUNCHES JOB-READY
career courses

THERE is good news for graduates and final year students! NIIT has introduced six new programs for those seeking a career in Java, .Net developers, Web 2.0., Creative Publishing, Systems & Networking, Business Intelligence & Data Warehousing.

The duration of these programs will vary from 99 to 200 days.

The objective of the Java Technologies program is to equip students with core programming skills using OOAD (Object Oriented Application Development).

The .NET Technologies program is designed especially for Science, Engineering graduates and final year students. This program equips the student with Object Oriented programming using C#, RDBMS concepts and SQL skills using Microsoft SQL Server. It also helps develop skills on both Windows Applications Development and Web Applications Development credentials on the .NET framework.

While the program on Adobe technologies aims at preparing students on RIA (Rich Internet Applications) the one on Creative Designing and Publishing is aimed at aspirants for the Creative Industry in the field of Print and Publishing. The program uses the leading Adobe technologies like Photoshop, InDesign and Illustrator.

GlobalNet+ program helps in the domain of Infrastructure Management Services and Networking. This program combines leading technologies like Windows Server 2008, Solaris, Storage Management, Routing and Switching and maps to leading Industry Credentials like CompTIA A+, Network+, Server+ and Technology Specialist certification on Windows Server 2008 from Microsoft, - Sun Certified System Administrator (SCSA) on Solaris, CCNA from CISCO and EMC2 Proven Professional for Storage.

Business Intelligence & Data Warehousing equips students with the latest tools and technologies on the Business Intelligence and Data Warehousing skills using SAS Technologies and Analytic tools.

Announcing the launch of these new programmes, Mr G Raghavan, President, Global Individual Learning Solutions, NIIT Ltd remarked, "More than ever, these days, training needs to prepare youth for jobs. That is why NIIT has launched a suite of job-directed, short term courses in a bouquet of leading technologies."

The job oriented courses range between Rs 25,000 to Rs 40,000 and will be available through NIIT centres across India. For details, contact 09910201085.

> These days, training is needed to prepare youth for jobs and that is the reason for such courses
